PLANNING AND DEVELOPMENT ACTS 2000 TO 2015

Dún Laoghaire-Rathdown County

Planning Register Reference Number: D15A/0529

An Bord Pleanála Reference Number: PL 06D.245742

APPEAL by Catherine O’Keeffe Prunty of Meadowbank House, Ballinteer Road, Dundrum against the decision made on the 14th day of October, 2015 by Dún Laoghaire-Rathdown County Council to grant subject to conditions a permission to Raglan Properties care of Marston Planning Consultancy of 23 Grange Park, Foxrock, Dublin in accordance with plans and particulars lodged with the said Council.

PROPOSED DEVELOPMENT: Demolition of the existing single storey warehouse/showroom unit to the rear and single storey shed structure to the front of the site, and construction of three number dwellings, consisting of one number three bedroom detached two-storey dwelling accessed from Ailesbury Grove, and one number three bedroom and one number four bedroom detached two-storey dwellings accessed via existing site entrance from Ballinteer Road. Each house will be served by two dedicated car parking spaces, plus the realignment of the single car parking space serving the existing Meadowbrook Lodge granted under planning register reference number D99B/1133, as well as associated landscape and site development works, all at Meadowbrook Mews and Meadowbrook Lodge, Ballinteer Road, Ballinteer, Dublin.

DECISION

GRANT permission for the above proposed development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.

MATTERS CONSIDERED

In making its decision, the Board had regard to those matters to which, by virtue of the Planning and Development Acts and Regulations made thereunder, it was required to have regard. Such matters included any submissions and observations received by it in accordance with statutory provisions.

REASONS AND CONSIDERATIONS

Having regard the location of the site on lands zoned in the current Dún Laoghaire-Rathdown County Development Plan 'to protect and/or improve residential amenity', to the design, scale and layout of the development and to the pattern of development in the vicinity of the site, it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the amenities of the area, would have no adverse impact on the character and setting of a protected structure and would be acceptable in terms of traffic safety and convenience. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

CONDITIONS

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. Details of the materials, colours and textures of all the external finishes to the proposed development shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of visual amenity.

3. Water supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health.

4. The construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including noise management measures, traffic management measures and off-site disposal of construction/demolition waste.

Reason: In the interests of public safety and residential amenity.

5. Site development and building works shall be carried out between the hours of 0800 to 1900 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays or public holidays. Deviation from these times shall only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

6. A plan containing details for the management of waste and recyclable materials within the development, including the provision of facilities for the storage, separation and collection of the waste and recyclable materials and for the ongoing operation of these facilities within each house plot shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Thereafter, the waste shall be managed in accordance with the agreed plan.

Reason: To provide for the appropriate management of waste and recyclable materials, in the interest of protecting the environment.

7. All service cables associated with the proposed development (such as electrical, telecommunications and communal television) shall be located underground. Ducting shall be provided by the developer to facilitate the provision of broadband infrastructure within the proposed development.

Reason: In the interests of visual and residential amenity.

8. Public lighting shall be provided in accordance with a scheme, which shall include lighting along pedestrian routes through open spaces details of which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Such lighting shall be provided prior to the making available for occupation of any house.

Reason: In the interests of amenity and public safety.

9. Prior to commencement of development, the developer shall lodge with the planning authority a cash deposit, a bond of an insurance company, or other security to secure the provision and satisfactory completion of roads, footpaths, watermains, drains, open space and other services required in connection with the development, coupled with an agreement empowering the local authority to apply such security or part thereof to the satisfactory completion of any part of the development. The form and amount of the security shall be as agreed between the planning authority and the developer or, in default of agreement, shall be referred to An Bord Pleanála for determination.

Reason: To ensure the satisfactory completion of the development

10. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to the commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
