PLANNING AND DEVELOPMENT ACTS 2000 TO 2015

Dún Laoghaire-Rathdown County

Planning Register Reference Number: D15A/0672

An Bord Pleanála Reference Number: PL 06D.246061

APPEAL by Philip Brereton and Leonie McDonald care of Hughes Planning and Development Consultants of The Mash House, Distillery Road, Dublin against the decision made on the 16th day of December, 2015 by Dún Laoghaire-Rathdown County Council in relation to an application for permission for development comprising removal of non-original single storey extension to the rear (22 square metres), removal of non-original two-storey extensions to the side (9 square metres), construction of a new two-storey extension to the side (50 square metres), construction of a new single storey extension to the rear (eight square metres), internal and external modifications to the existing dwelling including: widened opes/doors to link the extensions to the main dwelling, new openings at ground and first floor, new first floor window to the rear, removal of the non-original concrete floor slab to ground level, replacement of existing bathroom fittings, addition of some new partitions and removal of mainly non-original internal partitions, and relocation of kitchen, general refurbishment of the existing house (226 square metres) including repairs as required to the windows, façades and roof and associated conservation works, site works and ancillary works including the widening of the vehicular access gates to the front, all at 22 Waltham Terrace, Blackrock, County Dublin, a protected structure, in accordance with the plans and particulars lodged with the said Council (which decision was to grant subject to conditions a permission for the vehicular entrance and to refuse permission for the proposed extensions and other modifications and alterations to the Protected Structure).

DECISION

GRANT permission for the above proposed development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.

MATTERS CONSIDERED

In making its decision, the Board had regard to those matters to which, by virtue of the Planning and Development Acts and Regulations made thereunder, it was required to have regard. Such matters included any submissions and observations received by it in accordance with statutory provisions.

REASONS AND CONSIDERATIONS

Having regard to the provisions of the Dún Laoghaire-Rathdown County Development Plan 2016-2022 and to the nature, form, scale and design of the proposed development, and having regard to the pattern of development in the vicinity of the site, it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the residential or visual amenities of the area, would not adversely affect the character and setting of a protected structure, would not adversely affect the character of the adjoining Architectural Conservation Area and would be acceptable in terms of traffic safety and convenience. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

CONDITIONS

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars received by An Bord Pleanála on the 21st day of January, 2016 with the appeal documentation, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2.
 - (a) A conservation expert shall be employed to manage, monitor and implement the works on the site and to ensure adequate protection of the retained and historic fabric during the works. In this regard, all permitted works shall be designed to cause minimum interference to the retained building and facades structure and/or fabric.
 - (b) All repair works to the protected structure shall be carried out in accordance with best conservation practice as detailed in the application and in the “Architectural Heritage Protection Guidelines for Planning Authorities” issued by the Department of Arts, Heritage and the Gaeltacht in 2011. The repair works shall retain the maximum amount of surviving historic fabric in situ, including structural elements, plasterwork (plain and decorative) and joinery and shall be designed to cause minimum interference to the building structure and/or fabric. Items that have to be removed for repair shall be recorded prior to removal, catalogued and numbered to allow for authentic re-instatement.

- (c) All existing original features, including interior and exterior fittings/features, joinery, plasterwork, features (including cornices and ceiling mouldings), staircases including balusters, handrail and skirting boards, shall be protected during the course of the development works.

Reason: To ensure that the integrity of the retained structures is maintained and that the structures are protected from unnecessary damage or loss of fabric.

3. Water supply and drainage arrangements, including the disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health and to ensure a proper standard of development.

4. Details, including samples where deemed necessary, of the materials, colours and textures of all the external finishes to the proposed development shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. In addition, the developer shall note that this grant of permission does not include painting of the exterior façade walls.

Reason: In the interest of visual amenity.

5. Site development and building works shall be carried out only between the hours of 0800 to 1900 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays or public holidays. Deviation from these times shall only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

6. The construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including noise management measures and off-site disposal of construction/demolition waste.

Reason: In the interests of public safety and residential amenity.

7. Construction and demolition waste shall be managed in accordance with a construction waste and demolition management plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall be prepared in accordance with the “Best Practice Guidelines on the Preparation of Waste Management Plans for Construction and Demolition Projects”, published by the Department of the Environment, Heritage and Local Government in July, 2006. The plan shall include details of waste to be generated during site clearance and construction phases, and details of the methods and locations to be employed for the prevention, minimisation, recovery and disposal of this material in accordance with the provision of the Waste Management Plan for the Region in which the site is situated.

Reason: In the interest of sustainable waste management.

8. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
