Board Order

PL 29N.248287

Planning and Development Acts 2000 to 2017

Planning Authority: Dublin City Council

Planning Register Reference Number: 2040/17

Appeal by Maywood/Bettyglenn Residents Action Group care of O'Neill Town Planning of Oakdene, Howth Road, Howth, County Dublin against the decision made on the 8th day of March, 2017 by Dublin City Council to grant subject to conditions a permission to October Management Limited care of Niall D. Brennan Associates of 7 Harcourt Street, Dublin in accordance with plans and particulars lodged with the said Council:

Proposed Development: Development consisting of three number three bed apartments at fourth floor (existing roof) level of Block B of existing apartment development at Sheiling Square, Howth Road, Raheny, Dublin. The site is contained within the curtilage of a Protected Structure, which is unaffected by this permission. The extension consists of an increase of gross floor area of 324 square metres, providing for an additional three number three bedroom apartments, and resultant elevational changes at fourth floor level of Block B.

Decision

GRANT permission for the above proposed development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.

Matters Considered

In making its decision, the Board had regard to those matters to which, by virtue of the Planning and Development Acts and Regulations made thereunder, it was required to have regard. Such matters included any submissions and observations received by it in accordance with statutory provisions.

Reasons and Considerations

Having regard to the nature and scale of the proposed development, the pattern of development in the vicinity, the existing development on site and the policies of the Dublin City Development Plan 2016-2022, it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the amenities of the area or of property in the vicinity and would not detract from the character or setting of the adjacent Protected Structure. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. The external finishes of the proposed additional floor shall be the same as those of the existing apartment block in respect of colour and texture.

Reason: In the interest of visual amenity.

3. A total of three number car parking spaces shall be reserved to serve the proposed residential units. At least one clearly identified car parking space shall be assigned permanently to each residential unit and shall be reserved solely for that purpose.

Reason: To ensure that adequate parking spaces are permanently available to serve the proposed residential units.

4. Water supply and drainage arrangements, including the disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health.

5. A plan containing details for the management of waste (and, in particular, recyclable materials) within the development, including the provision of facilities for the storage, separation and collection of the waste and, in particular, recyclable materials for each apartment unit, shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Thereafter, the waste shall be managed in accordance with the agreed plan.

Reason: In the interest of residential amenity, and to ensure provision of adequate refuse storage.

6. Site development and building works shall be carried out only between the hours of 0800 to 1900 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: To protect the residential amenities of property in the vicinity of the site.

7. The construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including noise management measures and off-site disposal of construction/demolition waste.

Reason: In the interests of public safety and residential amenity.

8. Prior to commencement of development, the developer shall lodge with the planning authority a cash deposit, a bond of an insurance company, or other security to secure the provision and satisfactory completion of roads, footpaths, watermains, drains, open space and other services required in connection with the development, coupled with an agreement empowering the local authority to apply such security or part thereof to the satisfactory completion of any part of the development. The form and amount of the security shall be as agreed between the planning authority and the developer or, in default of agreement, shall be referred to An Bord Pleanála for determination.

Reason: To ensure the satisfactory completion of the development.

9. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
