

Board Order PL 06D.248690

Planning and Development Acts 2000 to 2017 Planning Authority: Dún Laoghaire-Rathdown County Council Planning Register Reference Number: D17A/0103

Appeal by Lee and Mabel Kidney care of Kiaran O'Malley and Company Limited of Saint Heliers, Saint Heliers Copse, Stillorgan Park, Blackrock, County Dublin and by the Ardilea Residents Association care of Keenan Lynch Architects of 4 Herbert Place, Dublin against the decision made on the 23rd day of May, 2017 by Dún Laoghaire-Rathdown County Council to grant subject to conditions a permission to Giovanni and Maeve Cafolla care of Fergus Flanagan Architects of Crescent Quay, Wexford in accordance with plans and particulars lodged with the said Council:

Proposed Development: Subdivision of the existing site, permission for new proposed dwelling, new driveway layout and vehicular access gates to proposed dwelling, amendments to existing driveway and vehicular access gates, general landscaping and associated site works to proposed and existing dwellings at 35 Louvain, Ardilea, Clonskeagh, Dublin.

Decision

GRANT permission for the above proposed development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.

Matters Considered

In making its decision, the Board had regard to those matters to which, by virtue of the Planning and Development Acts and Regulations made thereunder, it was required to have regard. Such matters included any submissions and observations received by it in accordance with statutory provisions.

Reasons and Considerations

Having regard to the provisions of the current Dún Laoghaire-Rathdown County Development Plan 2016-2022, to the pattern of development in the area and to the nature, form, scale and design of the proposed development, it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the residential or visual amenities of the area. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars submitted on the 27th day of April, 2017, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. Water supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services. All surface water generated within the site boundaries shall be collected and disposed of within the curtilage of the site. No surface water from roofs, paved areas or otherwise shall discharge to the combined sewer onto the public road or to adjoining properties. Prior to commencement of development, the developer shall submit to, and agree in writing with, the planning authority details of proposed surface water disposal arrangements.

Reason: In the interest of public health and to ensure a proper standard of development.

3. The site and building works required to implement the development shall be carried out only between the hours of 0800 to 1800 Monday to Fridays, between 0800 to 1400 hours on Saturdays and not at all on Sundays and Public Holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of adjoining property in the vicinity.

4. All service cables associated with the proposed development (such as electrical, telecommunications and communal television) shall be located underground. Ducting shall be provided by the developer to facilitate the provision of broadband infrastructure within the proposed development.

Reason: In the interests of visual and residential amenity.

5. The footpath in front of the proposed vehicular entrances shall be dished at the road junction in accordance with the requirements of the planning authority and at the applicant's own expense.

Reason: In the interest of pedestrian safety.

6. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to the commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

Member of An Bord Pleanála duly authorised to authenticate the seal of the Board.
