Board Order

PL 10.248698

Planning and Development Acts 2000 to 2017

Planning Authority: Kilkenny County Council

Planning Register Reference Number: 17/60

Appeal by Mark O'Brien of Newline, Tomnahaw, Skeoughvosteen, County Kilkenny against the decision made on the 23rd day of May, 2017 by Kilkenny County Council to grant subject to conditions a permission to Breda Whelan care of Byrne and McCabe Design of Upper Main Street, Graignamanagh, County Kilkenny in accordance with plans and particulars lodged with the said Council.

Proposed Development: Erection of an extension and alterations to existing dwelling house, upgrading existing sewerage facilities and relocation of existing entrance and all associated site works at Tomnahaha, Skeaghvasteen, County Kilkenny.

Decision

GRANT permission for the above proposed development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.

Matters Considered

In making its decision, the Board had regard to those matters to which, by virtue of the Planning and Development Acts and Regulations made thereunder, it was required to have regard. Such matters included any submissions and observations received by it in accordance with statutory provisions.

Reasons and Considerations

Having regard to the nature of the proposed development comprising extension and alterations to an existing house, its location within a rural area, and to the provisions of the Kilkenny County Development Plan 2014-2020, it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the residential amenities of the area, would be acceptable in terms of traffic safety and convenience and would not be prejudicial to public health. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars submitted on the 27th day of April, 2017, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interests of clarity.

2. The roof colour of the proposed house shall be blue-black, black-dark brown or dark grey. The colour of the ridge tile shall be the same as the colour of the roof.

Reason: In the interest of visual amenity.

3. The external walls shall be finished in neutral colours such as grey or off-white.

Reason: In the interest of visual amenity.

4. All public service cables for the development, including electrical and telecommunications cables, shall be located underground throughout the site.

Reason: In the interest of visual amenity.

5. (a) All surface water generated within the site boundaries shall be collected and disposed of within the curtilage of the site. No surface water from roofs, paved areas or otherwise shall discharge onto the public road or adjoining properties.

(b) The access driveway to the proposed development shall be provided with adequately sized pipes or ducts to ensure that no interference will be caused to existing roadside drainage.

Reason: In the interest of traffic safety and to prevent pollution.

6. The site shall be landscaped, using only indigenous deciduous trees and hedging species, in accordance with details which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In order to screen the development and assimilate it into the surrounding rural landscape, in the interest of visual amenity.

7. (a) The treatment plant and polishing filter shall be located, constructed and maintained in accordance with the details submitted to the planning authority, and in accordance with the requirements of the document entitled 'Code of Practice – Wastewater Treatment and Disposal Systems Serving Single Houses (p.e. < 10)' – Environmental Protection Agency 2009. No system other than the type proposed in the submissions shall be installed unless agreed in writing with the planning authority.
- (b) Certification by the system manufacturer that the system has been properly installed shall be submitted to the planning authority within four weeks of the installation of the system.
- (c) A maintenance contract for the treatment system shall be entered into and paid in advance for a minimum period of five years from the first occupancy of the dwelling house and thereafter shall be kept in place at all times. Signed and dated copies of the contract shall be submitted to, and agreed in writing with, the planning authority within four weeks of installation.
- (d) Within three months of the first occupation of the dwelling, the developer shall submit a report from a suitably qualified person with professional indemnity insurance certifying that the proprietary effluent treatment system has been installed and commissioned in accordance with the approved details and is working in a satisfactory manner and that the polishing filter is constructed in accordance with the standards set out in the EPA document.

Reason: In the interest of public health.

8. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
