Board Order

PL 06S.248758

Planning and Development Acts 2000 to 2017

Planning Authority: South Dublin County Council

Planning Register Reference Number: SD16A/0351

Appeal by Maeve Walsh care of Paul O'Connell and Associates of 3 Vesey Terrace, Main Street, Lucan, County Dublin against the decision made on the 25th day of May, 2017 by South Dublin County Council to refuse a permission for the proposed development.

Proposed Development: Construction of a four bedroomed detached two storey dormer (with roof windows) type family dwelling house with a single storey attached garage, utility and shower room building all serviced by an on-site wastewater treatment system including percolation areas, two single storey detached farm buildings and yard areas for uses associated with agriculture, a private access roadway from the on-site buildings to access the re-arranged existing vehicular/pedestrian access on to the public roadway together with ancillary site works, service installations and associated development works including hard and soft landscaping, fencing, walling and boundary treatments etc on site off Peamount Road, Hynestown, Newcastle, County Dublin.

Decision

GRANT permission for the above proposed development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.

Matters Considered

In making its decision, the Board had regard to those matters to which, by virtue of the Planning and Development Acts and Regulations made thereunder, it was required to have regard. Such matters included any submissions and observations received by it in accordance with statutory provisions.

Reasons and Considerations

It is considered that, subject to compliance with the conditions set out below, the proposed development would be in accordance with the Regional Planning Guidelines for the Greater Dublin Area 2010-2022, the Sustainable Rural Housing Guidelines for Planning Authorities issued by the Department of the Environment, Heritage and Local Government in April, 2005, and the objectives of the current development plan for the area. The proposed development would not seriously injure the existing rural amenities of the area, would not set an undesirable precedent, would be acceptable in terms of traffic safety and convenience and would not be prejudicial to public health. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars submitted on the 16th day of January 2017, the 2nd day of May 2017, and the 23rd day of March, 2018, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2.
 - (a) The proposed dwelling shall not be sold, let or otherwise transferred or conveyed separate from the overall farm holding of circa 70 acres as outlined in red on the submitted drawings.
 - (b) The proposed dwelling, when completed, shall be first occupied as a place of permanent residence by the applicant, members of the applicant's immediate family or their heirs, and shall remain so occupied for a period of at least five years thereafter unless consent is granted by the planning authority for its occupation by other persons who belong to the same category of housing need as the applicant. Prior to commencement of development, the applicant shall enter into a written agreement with the planning authority under section 47 of the Planning and Development Act, 2000 to this effect.
 - (c) Within two months of the occupation of the proposed dwelling, the applicant shall submit to the planning authority a written statement of confirmation of the first occupation of the dwelling in accordance with paragraph (b) and the date of such occupation.

This condition shall not affect the sale of the dwelling by a mortgagee in possession or the occupation of the dwelling by any person deriving title from such a sale.

Reason: To ensure that the proposed house is used to meet the applicant's stated housing needs and that development in this rural area is appropriately restricted to meeting essential local need in the interest of the proper planning and sustainable development of the area.

3. Prior to commencement of construction of the house, details of the materials, colours and textures of all the external finishes to the proposed house shall be submitted to, and agreed in writing with, the planning authority.

Reason: In the interest of orderly development and the visual amenities of the area.

4. All service cables associated with the proposed development (such as electrical, television, telephone and public lighting cables) shall be run underground within the site. In this regard, ducting shall be provided to facilitate the provision of broadband infrastructure within the proposed development.

Reason: In the interest of orderly development and the visual amenities of the area.

5. Water supply and drainage arrangements, including the disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health and to ensure a proper standard of development.

6.
 - (a) A proprietary effluent treatment and disposal system shall be provided. This shall be designed, constructed and maintained in accordance with the requirements of the planning authority. Details of the system to be used, and arrangements in relation to the ongoing maintenance of the system, shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.
 - (b) Treated effluent shall be discharged to a raised percolation area which shall be provided in accordance with the requirements of the document entitled "Code of Practice - Wastewater Treatment and Disposal Systems Serving Single Houses (p.e. < 10)" - Environmental Protection Agency, 2009.
 - (c) Within three months of the first occupation of the dwelling, the developer shall submit a report from a suitably qualified person with professional indemnity insurance certifying that the proprietary effluent treatment system has been installed and commissioned in accordance with the approved details and is working in a satisfactory manner and that the raised percolation area is constructed in accordance with the standards set out in the Environmental Protection Agency document.

Reason: In the interest of public health.

7. The site shall be landscaped using only indigenous deciduous trees and hedging species in accordance with details which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In order to screen the development and assimilate it into the surrounding rural landscape in the interest of visual amenity.

8. All foul effluent and slurry generated by the proposed development and in the farmyard shall be conveyed through properly constructed channels to the proposed and existing storage facilities and no effluent or slurry shall discharge or be allowed to discharge to any stream, river or watercourse, or to the public road.

Reason: In the interest of public health

9. All uncontaminated roof water from buildings and clean yard water shall be separately collected and discharged in a sealed system to existing drains, streams or adequate soakpits and shall not discharge or be allowed to discharge to the foul effluent drains, foul effluent and slurry storage tanks or to the public road.

Reason: In order to ensure that the capacity of effluent and storage tanks is reserved for their specific purposes

10. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to the commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.
