## **Matters Considered**

In making its decision, the Board had regard to those matters to which, by virtue of the Planning and Development Acts and Regulations made thereunder, it was required to have regard. Such matters included any submissions and observations received by it in accordance with statutory provisions.

## **Reasons and Considerations**

Having regard to the provisions of the Dublin City Development Plan 2016 to 2022, including the zoning objectives for the area, the planning history of the site, and to the nature and scale of the proposed development, it is considered that, subject to compliance with the conditions set out below, the proposed development would not detract from the streetscape or the visual amenities of the area and would not seriously injure the residential amenity of property in the vicinity. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

In deciding not to accept the Inspector's recommendation to increase the setback of the fourth and fifth floors to 5.4 metres from the redline boundary, the Board considered that the proposal was acceptable in terms of visual and residential amenity.
