Having regard to the residential zoning objective for the site, the specific objectives for these lands set out under the Glenamuck-Kiltiernan Local Area Plan, 2013, the existing pattern of development in the vicinity, and the nature and scale of the proposed development, it is considered that, subject to compliance with the conditions set out below, the proposed development would be acceptable in terms of its density and public open space provision, is of an acceptable standard of design, would not seriously injure the residential or visual amenities of the area and would not materially contravene the development plan, The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.
