Board Order
ABP-302536-18

Planning and Development Acts 2000 to 2018

Planning Authority: Kildare County Council

Planning Register Reference Number: 18/748

Appeal by Dawsonrentals Ireland Limited care of David Mulcahy Planning Consultants Limited of 67 Old Mill Race, Athgarvan, Newbridge, County Kildare against the decision made on the 16th day of August, 2018 by Kildare County Council to refuse permission for the proposed development.

Proposed Development: Change of use from domestic site to industrial storage yard including new boundary treatment, fence and screening, drainage works and associated site works at Naas Enterprise Park, Ladytown, Naas, County Kildare.

Decision

GRANT permission for the above proposed development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.

Matters Considered

In making its decision, the Board had regard to those matters to which, by virtue of the Planning and Development Acts and Regulations made thereunder, it was required to have regard. Such matters included any submissions and observations received by it in accordance with statutory provisions.

Reasons and Considerations

Having regard to the scale of the activity proposed, the fact it is an extension of an established commercial activity, the infill nature of the site and the adjoining land uses, it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the amenities of the area or of property in the vicinity, would be acceptable in terms of traffic safety and convenience and would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. (a) During the operational phase of the proposed development, the noise level arising from the development, as measured at the nearest dwelling shall not exceed:-
- (i) An Leq,1h value of 55 dB(A) during the period 0800 to 2200 hours from Monday to Saturday inclusive.
 - (ii) An Leq,15 min value of 45 dB(A) at any other time. The noise at such time shall not contain a tonal component.

At no time shall the noise generated on site result in an increase in noise level of more than 10 dB(A) above background levels at the boundary of the site.

- (b) All sound measurement shall be carried out in accordance with ISO Recommendation 1996:2007: Acoustics - Description and Measurement of Environmental Noise.

Reason: To protect the residential amenities of property in the vicinity of the site.

3. No advertisement or advertisement structure (other than those shown on the drawings submitted with the application) shall be erected or displayed on the canopy, on the forecourt building or anywhere within the curtilage of the site unless authorised by a further grant of planning permission.

Reason: In the interest of visual amenity.

4. Site development and building works shall be carried out only between the hours of 0800 to 1900 Mondays to Fridays inclusive, between 0800 to 1400 on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

5. Comprehensive details of the proposed lighting to serve the development shall be submitted to and agreed in writing with the planning authority, prior to the commencement of development. The lighting proposal shall include cowling to ensure no light overspill onto the adjoining residential property.

Reason: In the interests of public safety and visual amenity.

6. Water supply and drainage arrangements, including the disposal of uncontaminated surface water, shall comply with the requirements of the planning authority for such works and services and no surface shall discharge onto adjoining properties or the public road.

Reason: In the interest of public health and to ensure a proper standard of development.

7. (a) Prior to commencement of development, all trees, groups of trees, hedging and shrubs which are to be retained (southern boundary) shall be enclosed within stout fences not less than 1.5 metres in height. This protective fencing shall enclose an area covered by the crown spread of the branches, or at minimum a radius of two metres from the trunk of the tree or the centre of the shrub, and to a distance of two metres on each side of the hedge for its full length and shall be maintained until the development has been completed.
- (b) No construction equipment, machinery or materials shall be brought onto the site for the purpose of the development until all the trees which are to be retained have been protected by this fencing. No works shall be carried out within the area enclosed by the fencing and, in particular, there shall be no parking of vehicles, placing of site huts, storage compounds or topsoil heaps, storage of oil, chemicals or other substances, and no lighting of fires, over the root spread of any tree to be retained.

Reason: To protect trees and planting during the construction period in the interest of visual amenity.

8. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
