## An Cinneadh

### Cead a dhiúltú

## Na hÁbhair Curtha san Áireamh

Ag déanamh a chinnidh, thug an Bord aird ar na nithe áirithe atá dualgas air, de bhua na n-Achtanna um Pleanál agus Forbairt agus na Rialachán arna ndéanamh fúthu, aird a thabhairt dóibh. San áireamh bhí aon aighneacht agus tuairim a fuair an Bord faoi réir forálacha reachtúla.

## Cúiseanna agus Tuisceana

1. Meastar go mbeadh sé ró-luath forbairt den chineál beartaithe a dhéanamh go dtí go mbeidh breith tugtha ag Uisce Éireann maidir le láithreán is dealraithí a roghnófar don chóras cóireála

## Decision

### Refuse Permission

## Matters Considered

In making its decision, the Board had regard to those matters to which, by virtue of the Planning and Development Acts and Regulations made thereunder, it was required to have regard. Such matters included any submissions and observations received by it in accordance with statutory provisions.

## Reasons and Considerations

1. It is considered that development of the kind proposed would be premature pending the determination by Irish Water of a preferred site for Carraroe's new waste water treatment plant.

fuíollisce nua an Ceathrún  
Rua.

2. Meastar go mbeadh an fhorbairt bheartaithe ró-luath, ag féachaint don easnamh láithreach ar sholáthar saoráidí séarachais píopaithe poiblí ag freastal ar an limistéar agus don tréimhse a bhféadfaí le réasún a bheith ag súil go mbeadh deireadh leis na sriantachtaí atá i gceist. Meastar freisin go mbeadh sé dochrach do shláinte an phobail cead a thabhairt eisílteach a scaoileadh isteach i gcóras séarachais poiblí easpach, na hualái breise hidrálacha curtha san áireamh.
2. It is considered that the proposed development would be premature by reference to the existing deficiency in the provision of public piped sewerage facilities serving the area and the period within which the constraint involved may reasonably be expected to cease. It is further considered that discharge from a private sewerage plant into an inadequate public sewerage network would be prejudicial to public health, having regard to the additional hydraulic loadings involved.
