

Planning and Development Acts 2000 to 2019

Planning Authority: Mayo County Council

Planning Register Reference Number: P18/700

APPEAL by Brusna Valley Preservation Society care of Mary Reilly of Downhill Road, Ballina, County Mayo against the decision made on the 15th day of March, 2019 by Mayo County Council to grant subject to conditions a permission to Patrick Cunnane care of James Maloney of Unit 5A Moyvalley Business Park, Dublin Road, Ballina, County Mayo.

Proposed Development: Construction of a dwellinghouse, wastewater treatment system, sand polishing filter area and ancillary site works at Knocknalyre or Downhill, Ballina, County Mayo. The proposed development was revised by further public notice received by the planning authority on 20th day of February, 2019.

Decision

REFUSE permission for the above proposed development in accordance with the reasons and considerations set out below.

Matters Considered

In making its decision, the Board had regard to those matters to which, by virtue of the Planning and Development Acts and Regulations made thereunder, it was required to have regard. Such matters included any submissions and observations received by it in accordance with statutory provisions.

Reasons and Considerations

1. On the basis of the information provided with the application and the appeal, and in the absence of a Natura Impact Statement, the Board cannot be satisfied that the proposed development individually, or in combination with other plans or projects would not be likely to have a significant effect on European site – River Moy Special Area of Conservation (SAC) - Site Code: 002298 or any other European site, in view of the site's Conservation Objectives. In such circumstances, the Board is precluded from granting permission.

2. Having regard to the topography of the site and to the extent of proposed site development works for an access point onto the Downhill Road from the site, which would involve the removal of the roadside boundary wall and trees, it is considered that the proposed development would have a negative impact on the amenities and character of this attractive semi-rural area and riverside roadway. The proposed development would, therefore, seriously injure the amenities of the area and be contrary to the proper planning and sustainable development of the area.
