

Planning and Development Acts 2000 to 2019

Planning Authority: Cork City Council

Planning Register Reference Number: 19/38231

Appeal by Kieran McCarthy of Richmond Villa, Douglas Road, Cork and by others against the decision made on the 19th day of August, 2019 by Cork City Council to grant subject to conditions a permission to Denis McBarron care of McCutcheon Halley of 6 Joyce House, Barrack Square, Ballincollig, County Cork in accordance with plans and particulars lodged with the said Council:

Proposed Development: The demolition of the existing public house and all ancillary structures on site and construction of 26 apartments consisting of seven number studio apartments, 10 number one-bedroom apartments and nine number two-bedroom apartments all in two blocks, part three-storey and part four-storey along with single storey bins storage, bicycle storage, electrical room, plant enclosures, communal garden and all associated site works, all at 1 Haig Gardens, The Glenanaar Public House, Boreenmanna Road and Wallace's Avenue, Ballintemple, Cork.

Decision

GRANT permission for the above proposed development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.

Matters Considered

In making its decision, the Board had regard to those matters to which, by virtue of the Planning and Development Acts and Regulations made thereunder, it was required to have regard. Such matters included any submissions and observations received by it in accordance with statutory provisions.

Reasons and Considerations

Having regard to the location and zoning objective for the site, the provisions of the Cork City Council Development Plan 2015-2021, the nature, scale and design of the proposed development on an infill site, proximity to the city centre, and the provisions, as set out in the “Sustainable Urban Housing: Design Standards for New Apartments Guidelines for Planning Authorities” issued by the Department of Housing, Planning and Local Government March 2018, it is considered that, subject to compliance with the conditions set out below, the proposed development would make a positive contribution to the built character of area, would provide an acceptable housing mix, would not seriously injure the amenities of other properties in the vicinity and would be acceptable in terms of traffic and pedestrian safety and convenience. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

In deciding not to accept the Inspector's recommendation to refuse permission, the Board noted the planning history of the site, the urban location and its proximity to the city centre and considered that the proposed development would make a positive contribution by increasing residential densities in an appropriate location, and that the design of the blocks which step down towards the existing two-storey residential development would not be incongruous and would not adversely affect the visual amenities of the area. Furthermore, the Board considered that the housing mix proposed would be in compliance with SPPR 2 of the "Sustainable Urban Housing: Design Standards for New Apartments Guidelines for Planning Authorities" issued by the Department of Housing, Planning and Local Government in March, 2018 for this urban infill site. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars submitted on the 21st day of May 2019 and on the 23rd day of July 2019, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. The proposed development shall be amended as follows:
- (a) The terraces associated with apartment numbers 14 and 21 on the first and second floor respectively, shall be fully enclosed at its southern extent by either solid wall or obscure glass.
 - (b) The terraces associated with apartment numbers 8 and 15 on the first and second floor respectively, shall be fully enclosed at its western extent by either solid wall or obscure glass.
 - (c) The 'store' room associated with apartment numbers 7 and 24 shall be reduced to a maximum of 3.5 square metres, the remaining area shall be amalgamated into the adjacent rooms as appropriate.

Revised drawings showing compliance with these requirements shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of residential amenity.

3. Details of the materials, colours and textures of all the external finishes to the proposed dwellings shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of visual amenity.

4. Proposals for an estate/street name, apartment numbering scheme and associated signage shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Thereafter, all estate and street signs, and apartment numbers, shall be provided in accordance with the agreed scheme. The proposed name(s) shall be based on local historical or topographical features, or other alternatives acceptable to the planning authority. No advertisements/marketing signage relating to the name(s) of the development shall be erected until the developer has obtained the planning authority's written agreement to the proposed name(s).

Reason: In the interest of urban legibility and to ensure the use of locally appropriate place names for new residential areas.

5. Water supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health.

6. Prior to commencement of development, the developer shall enter into water and/or waste water connection agreement(s) with Irish Water.

Reason: In the interest of public health.

7. (a) All foul sewage and soiled water shall be discharged to the public foul sewer.

- (b) Only clean, uncontaminated storm water shall be discharged to the surface water drainage system.

Reason: In the interest of public health.

8. A comprehensive boundary treatment and landscaping scheme shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This scheme shall include the following:-

- (a) details of all proposed hard surface finishes, including samples of proposed paving slabs/materials for footpaths, kerbing and road surfaces within the development;
- (b) proposed locations of trees and other landscape planting in the development, including details of proposed species and settings;
- (c) details of proposed street furniture, including bollards, lighting fixtures and seating;
- (d) details of proposed boundary treatments at the perimeter of the site, including heights, materials and finishes.

The boundary treatment and landscaping shall be carried out in accordance with the agreed scheme.

Reason: In the interest of visual amenity.

9. Prior to commencement of development, the developer shall agree the details and extent of all road markings and signage requirements on the R852 and L-1108 roads with the planning authority and all associated costs shall be at the developer's expense.

Reason: In the interest of traffic safety.

10. All proposed works on footpaths and roads and removal/alteration of car parking spaces shall be in accordance with the requirements of the planning authority.

Reason: In the interest traffic and public safety.

11. Public lighting shall be provided in accordance with a scheme, details of which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Such lighting shall be provided prior to the making available for occupation of any house and shall be at the developer's expense.

Reason: In the interests of amenity and public safety.

12. All service cables associated with the proposed development (such as electrical, telecommunications and communal television) shall be located underground. Ducting shall be provided by the developer to facilitate the provision of broadband infrastructure within the proposed development

Reason: In the interests of visual and residential amenity.

13. A plan containing details for the management of waste (and, in particular, recyclable materials) within the development, including the provision of facilities for the storage, separation and collection of the waste and, in particular, recyclable materials and for the ongoing operation of these facilities shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Thereafter, the waste shall be managed in accordance with the agreed plan.

Reason: To provide for the appropriate management of waste and, in particular recyclable materials, in the interest of protecting the environment.

14. No additional development shall take place above roof parapet level, including lift motor enclosures, air handling equipment, storage tanks, ducts or other external plant, telecommunication aerials, antennas or equipment, unless authorised by a further grant of planning permission.

Reason: To protect the residential amenities of property in the vicinity and the visual amenities of the area.

15. The construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including:

- (a) location of the site and materials compound(s) including area(s) identified for the storage of construction refuse;

- (b) location of areas for construction site offices and staff facilities;
- (c) details of site security fencing and hoardings;
- (d) details of on-site car parking facilities for site workers during the course of construction;
- (e) details of the timing and routing of construction traffic to and from the construction site and associated directional signage, to include proposals to facilitate the delivery of abnormal loads to the site;
- (f) measures to obviate queuing of construction traffic on the adjoining road network;
- (g) measures to prevent the spillage or deposit of clay, rubble or other debris on the public road network;
- (h) alternative arrangements to be put in place for pedestrians and vehicles in the case of the closure of any public road or footpath during the course of site development works;
- (j) details of appropriate mitigation measures for noise, dust and vibration, and monitoring of such levels;
- (k) containment of all construction-related fuel and oil within specially constructed bunds to ensure that fuel spillages are fully contained. Such bunds shall be roofed to exclude rainwater;
- (m) means to ensure that surface water run-off is controlled such that no silt or other pollutants enter local surface water sewers or drains.

A record of daily checks that the works are being undertaken in accordance with the Construction Management Plan shall be kept for inspection by the planning authority.

Reason: In the interests of amenities, public health and safety.

16. Site development and building works shall be carried out only between the hours of 0800 and 1900 from Mondays to Fridays inclusive, between 0800 and 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the amenities of property in the vicinity.

17. Construction and demolition waste shall be managed in accordance with a construction waste and demolition management plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall be prepared in accordance with the “Best Practice Guidelines on the Preparation of Waste Management Plans for Construction and Demolition Projects”, published by the Department of the Environment, Heritage and Local Government in July 2006. The plan shall include details of waste to be generated during site clearance and construction phases, and details of the methods and locations to be employed for the prevention, minimisation, recovery and disposal of this material in accordance with the provision of the Waste Management Plan for the Region in which the site is situated.

Reason: In the interest of sustainable waste management.

18. The management and maintenance of the proposed development following its completion shall be the responsibility of a legally constituted management company. A management scheme providing adequate measures for the future maintenance of public open spaces, roads and communal areas shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: To provide for the satisfactory future maintenance of this development in the interest of residential amenity.

19. Prior to commencement of development, the applicant or other person with an interest in the land to which the application relates shall enter into an agreement in writing with the planning authority in relation to the provision of housing in accordance with the requirements of section 94(4) and section 96(2) and (3) (Part V) of the Planning and Development Act 2000, as amended, unless an exemption certificate shall have been applied for and been granted under section 97 of the Act, as amended. Where such an agreement is not reached within eight weeks from the date of this order, the matter in dispute (other than a matter to which section 96(7) applies) may be referred by the planning authority or any other prospective party to the agreement to An Bord Pleanála for determination.

Reason: To comply with the requirements of Part V of the Planning and Development Act 2000, as amended, and of the housing strategy in the development plan of the area.

20. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

Michelle Fagan
Member of An Bord Pleanála
duly authorised to authenticate
the seal of the Board.

Dated this day of 2020.
