**Planning and Development Acts 2000 to 2019**

**Planning Authority: Clare County Council**

**Planning Register Reference Number: P19-847**

**Appeal** by Cignal Infrastructure Limited care of 4Site of 4Site House, Raheen Business Park, Limerick against the decision made on the 18<sup>th</sup> day of December, 2019 by Clare County Council to refuse permission for the proposed development.

**Proposed Development:** Construction of a 21 metre multi-user monopole carrying telecommunications equipment, together with associated equipment and cabinets enclosed within a 2.4 metre palisade fence compound, including new access track at Doonbeg Townland, Rhynagonnaught, Doonbeg, County Clare.

**Decision**

**GRANT permission for the above proposed development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.**

## **Matters Considered**

In making its decision, the Board had regard to those matters to which, by virtue of the Planning and Development Acts and Regulations made thereunder, it was required to have regard. Such matters included any submissions and observations received by it in accordance with statutory provisions.

## **Reasons and Considerations**

Having regard to the provisions of the Clare County Development Plan, 2017-2023 and the “Telecommunications Antennae and Support Structures: Guidelines for Planning Authorities:”, issued by the Department of the Environment, Heritage and Local Government in 1996, as updated by circular letter PL 07/12 in 2012, it is considered that, subject to compliance with the conditions set out below, the proposed development would not be visually intrusive or seriously injure the amenities of the area or the residential amenities of properties in the vicinity and would not be prejudicial to public health. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

## **Conditions**

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

**Reason:** In the interest of clarity.

2. (a) In the event of the proposed structure becoming obsolete and being decommissioned, the developers shall, at their own expense, remove the mast, antenna and ancillary structures and equipment.
- (b) The site shall be reinstated on removal of the telecommunications structure and ancillary structures. Details relating to the removal and reinstatement shall be submitted to and agreed in writing with the planning authority at least one month before the removal of the telecommunications structure and ancillary structures, and the work shall be completed within three months of the planning authority's approval in writing of these details.

**Reason:** In the interest of orderly development.

3. The transmitter power output, antenna type and mounting configuration shall be in accordance with the details submitted with this application and, notwithstanding the provisions of the Planning and Development Regulations 2001, and any statutory provision amending or replacing them, shall not be altered without a prior grant of planning permission.

**Reason:** To clarify the nature and extent of the permitted development to which this permission relates and to facilitate a full assessment of any future alterations

4. Surface water drainage arrangements for the proposed development shall comply with the requirements of the planning authority.

**Reason:** In the interest of public health.

5. A low intensity fixed red obstacle light shall be fitted as close to the top of the mast as practicable and shall be visible from all angles in azimuth. Details of this light, its location and period of operation shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

**Reason:** In the interest of public safety.

6. Details of the proposed colour scheme for the telecommunications structure and ancillary structures shall be submitted to and agreed in writing with the planning authority prior to commencement of development.

**Reason:** In the interest of the visual amenities of the area.

7. No advertisement or advertisement structure shall be erected or displayed on the proposed structure or its appendages or within the curtilage of the site without a prior grant of planning permission.

**Reason:** In the interest of the visual amenities of the area.

8. The developer shall provide and make available at reasonable terms the proposed support structure for the provision of mobile telecommunications antenna of third party licenced telecommunications operators.

**Reason:** In the interest of avoidance of multiplicity of telecommunications structures in the area, in the interest of visual amenity and proper planning and sustainable development.

9. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

**Reason:** It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
