

Planning and Development Acts 2000 to 2019

Planning Authority: Wexford County Council

Planning Register Reference Number: 20200032

Appeal by Shared Access Limited care of Pegasus Group of Ormond Building, 31-36 Ormond Quay Upper, Dublin against the decision made on the 4th day of March, 2020 by Wexford County Council to refuse permission for the proposed development:

Proposed Development: Permission for the erection of a 21 metre monopole to support telecommunications antennae for use by Eir and other operators, which together with the installation of dishes, security fencing and ground based equipment cabinets will provide mobile electronic communication services, all at Enniscorthy United, Niall O'Sullivan Park, Sean Brown Crescent, Enniscorthy Rural, County Wexford.

Decision

GRANT permission for the above proposed development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.

Matters Considered

In making its decision, the Board had regard to those matters to which, by virtue of the Planning and Development Acts and Regulations made thereunder, it was required to have regard. Such matters included any submissions and observations received by it in accordance with statutory provisions.

Reasons and Considerations

Having regard to the nature, extent and design of the proposed development, the provisions of the current Wexford County Development Plan and the Enniscorthy Town and Environs Development Plan 2008 – 2014, as extended, and relevant National Guidance, it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the residential or visual amenities of the area. The applicant has provided sufficient information to demonstrate that the site is appropriate for a telecommunication installation and that there is a need for this structure in this location. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application as amended by the further information submitted to the planning authority on the 11th day of February, 2020, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. The transmitter power output, antenna type and mounting configuration shall be in accordance with the details submitted with this application and, notwithstanding the provisions of the Planning and Development Regulations 2001, and any statutory provision amending or replacing them, shall not be altered without a prior grant of planning permission.

Reason: To clarify the nature and extent of the permitted development to which this permission relates and to facilitate a full assessment of any future alterations.

3. Surface water drainage arrangements for the proposed development shall comply with the requirements of the planning authority.

Reason: In the interest of public health.

4. No advertisement or advertisement structure shall be erected or displayed on the proposed structure or its appendages or within the curtilage of the site.

Reason: In the interest of the visual amenities of the area.

5. Site development and building works shall be carried out only between the hours of 0700 to 1900 Mondays to Fridays inclusive, between the hours of 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the amenities of property in the vicinity.

6. All necessary measures shall be taken by the contractor to prevent the spillage or deposit of clay, rubble or other debris on adjoining roads during the course of the works.

Reason: To protect the amenities of the area.
