

Board Order ABP-307220-20

Planning and Development Acts 2000 to 2019

Planning Authority: Fingal County Council

Planning Register Reference Number: FW20A/0008

Appeal by Three Ireland (Hutchison) Limited of 28/29 Sir John Rogerson's Quay, Dublin against the decision made on the 16th day of March, 2020 by Fingal County Council to refuse permission for the proposed development:

Proposed Development: The construction of telecommunications infrastructure comprising an 18 metres high monopole with telecommunications equipment attached, and ancillary ground based equipment, cabinets and fencing, all to the rear of Salmon's Public House, Mountview Rd, Coolmine, Dublin.

Decision

GRANT permission for the above proposed development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.

Matters Considered

In making its decision, the Board had regard to those matters to which, by virtue of the Planning and Development Acts and Regulations made thereunder, it was required to have regard. Such matters included any submissions and observations received by it in accordance with statutory provisions.

Reasons and Considerations

Having regard to the provisions of the Fingal Development Plan, 2017-2023 and the "Telecommunications Antennae and Support Structures Guidelines for Planning Authorities" issued by the Department of the Environment in 1996, as updated by circular letter PL 07/12 in 2012, it is considered that, subject to compliance with the conditions set out below, the proposed development would not be visually intrusive, would not seriously injure the amenities of the area or the residential amenities of properties in the vicinity, would not be prejudicial to public health, and would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. (1) In the event of the proposed structure becoming obsolete and

being decommissioned, the developers shall, at their own

expense, remove the mast, antenna and ancillary structures and

equipment.

(2) The site shall be reinstated on removal of the

telecommunications structure and ancillary structures. Details

relating to the removal and reinstatement shall be submitted to,

and agreed in writing with, the planning authority at least one

month before the removal of the telecommunications structure

and ancillary structures and the work shall be completed within

three months of the planning authority's approval in writing of

these details.

Reason: In the interest of orderly development.

3. The transmitter power output, antenna type and mounting configuration

shall be in accordance with the details submitted with this application

and, notwithstanding the provisions of the Planning and Development

Regulations 2001, and any statutory provision amending or replacing

them, shall not be altered without a prior grant of planning permission.

Reason: To clarify the nature and extent of the permitted development

to which this permission relates and to facilitate a full assessment of

any future alterations

4. Surface water drainage arrangements for the proposed development

shall comply with the requirements of the planning authority.

Reason: In the interest of public health.

 Details of the proposed colour scheme for the telecommunications structure and ancillary structures shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of the visual amenities of the area.

6. No advertisement or advertisement structure shall be erected or displayed on the proposed structure or its appendages or within the curtilage of the site without a prior grant of planning permission.

Reason: In the interest of the visual amenities of the area.

The developer shall provide and make available at reasonable terms
the proposed support structure for the provision of mobile
telecommunications antenna of third party licenced telecommunications
operators.

Reason: To avoid a multiplicity of telecommunications structures in the area, in the interest of visual amenity, and proper planning and sustainable development.

Paul Hyde

Member of An Bord Pleanála duly authorised to authenticate the seal of the Board.

Dated this day of 2020.
