Board Order
ABP-308141-20

Planning and Development Acts 2000 to 2020

Planning Authority: Dublin City Council

Planning Register Reference Number: 4741/19

Appeal by Richard M. O'Hanrahan of 8 Thompson's Cottages, Summerhill, Dublin against the decision made on the 13th day of August, 2020 by Dublin City Council to grant subject to conditions a permission to Cuisle Properties Limited care of Diarmuid Herlihy Architect of 1 Brighton Lodge, Foxrock, Dublin in accordance with plans and particulars lodged with the said Council.

Proposed Development: Demolition of a single storey flat roofed storage building and the construction of five number one-bedroom apartments. The proposed development is a proposed infill development of a brownfield site and consists of a two storey slated pitched roof building fronting onto Rutland Place North and finished in materials matching the existing streetscape. There are three apartment units on ground floor level and two located at first floor level. There is access to one apartment at ground floor level on Rutland Place North and access to the other two apartments is located to the rear of the building. Access to the two first floor apartments is also located at the rear of the building. The entrance to the site from Rutland Place North is constructed in rendered pillars and double timber gates together with a pedestrian side gate. There is a single storey bicycle store with 15 bicycle spaces. The bicycle store is flat roofed and rendered walls externally. Recreational shared open

space is provided to the rear of the development with landscaped open space and all ancillary services at 23/24, Rutland Place North, Dublin.

Decision

GRANT permission for the above proposed development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.

Matters Considered

In making its decision, the Board had regard to those matters to which, by virtue of the Planning and Development Acts and Regulations made thereunder, it was required to have regard. Such matters included any submissions and observations received by it in accordance with statutory provisions.

Reasons and Considerations

Having regard to the land use zoning objectives for the site, as set out in the Dublin City Development Plan 2016-2022, to the nature, scale and design of the proposed development and the existing pattern of development in the vicinity, it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the amenities of the area or of property in the vicinity. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars submitted on the 17th day of July 2020, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. Each apartment shall be used as a single dwelling unit only and shall not be sub-divided in any manner or used as two or more separate habitable units.

Reason: In the interests of sustainable development and proper planning.

3. Details of the materials, colours and textures of all the external finishes to the proposed buildings shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of visual amenity.

4. A comprehensive boundary treatment and landscaping scheme shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This scheme shall include the following:-

- (a) details of all proposed hard surface finishes to support the principle of Sustainable Urban Drainage Systems (SUDS), including samples of proposed paving slabs/materials for footpaths, kerbing and road surfaces within the development,
- (b) details of tree protection measures, proposed locations of trees and other landscape planting in the development, including species and settings, and
- (c) details of proposed boundary treatments within the site and at the perimeter of the site, including heights, materials and finishes.

The boundary treatment and landscaping shall be carried out in accordance with the agreed scheme.

Reason: In the interests of visual amenity and sustainable drainage.

5. No additional development shall take place above roof parapet level, including lift motor enclosures, air handling equipment, storage tanks, ducts or other external plant, telecommunication aerials, antennas or equipment, unless authorised by a further grant of planning permission.

Reason: To protect the residential amenity of property in the vicinity and the visual amenity of the area.

6. Prior to commencement of development, the developer shall enter into water and/or wastewater connection agreement(s) with Irish Water.

Reason: In the interest of public health.

7. Water supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health and to ensure a satisfactory standard of development.

8. Proposals for a naming and numbering scheme and associated signage shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Thereafter, all signs, and apartment numbers, shall be provided in accordance with the agreed scheme. The proposed name shall be based on local historical or topographical features, or other alternatives acceptable to the planning authority. No advertisements/marketing signage relating to the name of the development shall be erected until the developer has obtained the planning authority's written agreement to the proposed name.

Reason: In the interest of urban legibility and to ensure the use of locally appropriate placenames for new residential areas.

9. The management and maintenance of the proposed development following its completion shall be the responsibility of a legally constituted management company. A management scheme providing adequate measures for the future maintenance of roads and communal areas shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: To provide for the satisfactory future maintenance of this development in the interest of residential amenity.

10. Construction and demolition waste shall be managed in accordance with a construction waste and demolition management plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall be prepared in accordance with the "Best Practice Guidelines on the Preparation of Waste Management Plans for Construction and Demolition Projects", published by the Department of the Environment, Heritage and Local Government in July, 2006. The plan shall include details of waste to be generated during site clearance and construction phases, which shall be carried out in full, and details of the methods and locations to be employed for the prevention, minimisation, recovery and disposal of this material in accordance with the provision of the Waste Management Plan for the Region in which the site is situated.

Reason: In the interests of the environment and sustainable waste management.

11. The construction of the development shall be managed in accordance with a Construction and Environmental Management Plan, which shall be submitted to, and agreed in writing with the planning authority prior to commencement of development. This plan shall provide, inter alia, details and location of the proposed construction compound(s), details of intended construction practice for the development, including noise and dust management measures, measures to prevent the spillage or deposit of clay, rubble or other debris on the public road network, details of arrangements for routes for construction traffic, parking during the construction phase, and off-site disposal of construction/demolition waste.

Reason: In the interests of public safety and residential amenity.

12. Site development and building works shall be carried out only between the hours of 0700 to 1900 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

13. A plan containing details for the management of waste (and, in particular, recyclable materials) within the development, including the provision of facilities for the storage, separation and collection of the waste and, in particular, recyclable materials and for the ongoing operation of these facilities shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Thereafter, the waste shall be managed in accordance with the agreed plan.

Reason: To provide for the appropriate management of waste and, in particular recyclable materials, in the interest of protecting the environment.

14. Prior to commencement of development, the developer shall lodge with the planning authority a cash deposit, a bond of an insurance company, or other security to secure the provision and satisfactory completion of roads, footpaths, watermains, drains, open space and other services required in connection with the development, coupled with an agreement empowering the local authority to apply such security or part thereof to the satisfactory completion of any part of the development. The form and amount of the security shall be as agreed between the planning authority and the developer or, in default of agreement, shall be referred to An Bord Pleanála for determination.

Reason: To ensure the satisfactory completion of the development.

15. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

16. The developer shall pay to the planning authority a financial contribution in respect of Luas Cross City project (St. Stephen's Green to Broombridge Line), in accordance with the terms of the Supplementary Development Contribution Scheme made by the planning authority under section 49 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Supplementary Development Contribution Scheme made under section 49 of the Act be applied to the permission.

John Connolly

Member of An Bord Pleanála
duly authorised to authenticate
the seal of the Board.

Dated this 10th day of FEBRUARY 2021.
