

Planning and Development Acts 2000 to 2020

Planning Authority: Wexford County Council

Planning Register Reference Number: 20200880

Appeal by Pat Wheelock care of Adrian Doyle and Associates of Mulgannon, Wexford against the decision made on the 23rd day of September, 2020 by Wexford County Council to grant subject to conditions a permission to Isaac Wheelock care of Aidan Nolan Planning and Design of Asquinton, Enniscorthy, County Wexford in accordance with plans and particulars lodged with the said Council:

Proposed Development: Retention and completion of straw storage shed. Erection of new roadside boundary wall with pedestrian entrance, concrete yard area and all ancillary site works at Moneyhore, The Leap, Enniscorthy, County Wexford.

Decision

GRANT permission for the above proposed development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.

Matters Considered

In making its decision, the Board had regard to those matters to which, by virtue of the Planning and Development Acts and Regulations made thereunder, it was required to have regard. Such matters included any submissions and observations received by it in accordance with statutory provisions.

Reasons and Considerations

Having regard to the location of the proposed development and the development proposed to be retained and completed within an established farmyard, and to its nature and scale, it is considered that, subject to compliance with the conditions set out below, the proposed development and the development proposed to be retained and completed would be an appropriate land use in this rural and agricultural area, would not seriously injure the amenities of the area or of property in the vicinity, and would not be prejudicial to public health. The proposed development and the development proposed to be retained and completed would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The proposed development shall be carried out, and the development proposed to be retained shall be retained and completed, in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of

development and the development shall be carried out, retained and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. All uncontaminated roof water from the building and clean yard water shall be separately collected and discharged in a sealed system to existing drains, streams or adequate soakpits and shall not discharge or be allowed to discharge to the foul effluent drains, foul effluent and slurry storage tanks or to the public road.

Reason: In order to ensure that the capacity of effluent and storage tanks is reserved for their specific purposes.

3. The roof and elevational cladding of the structure to be retained and completed shall be coloured to match the existing farm complex. Details in this regard shall be submitted to and agreed in writing with the planning authority prior to commencement of development.

Reason: In the interest of visual amenity.

4. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the

Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
