

Planning and Development Acts 2000 to 2020

Planning Authority: Dublin City Council

Planning Register Reference Number: 2464/20

Appeal by Simon Broadhead of 45 Avoca Park, Blackrock, County Dublin, by Boston College Ireland care of Feargall Kenny of 45 Hainault Drive, Foxrock, Dublin, and by Aviva Life and Pensions Ireland Designated Activity Company care of John Spain Associates of 39 Fitzwilliam Place, Dublin against the decision made on the 29th day of January, 2021 by Dublin City Council to grant subject to conditions a permission to Aviva Life and Pensions Ireland Designated Activity Company in accordance with plans and particulars lodged with the said Council:

Proposed Development: (A) Demolition of the existing one and two number storey buildings (circa 601.8 square metres) at the site; (B) Construction of a part four, five and six number storey mixed-use development (including setback upper floors including sedum roof and PV panels at roof level) comprising: retail/restaurant use (circa 235.1 square metres) at ground floor level and short-term let residential accommodation on upper floors, comprising 11 number studio units, nine number one-bedroom units and four number two-bedroom units, each with private amenity space (balconies/terraces at first to fifth floor levels), with ancillary space at first floor

level; (C) Access to the short-term accommodation and the retail/restaurant unit will be taken from Merrion Row with a separate storage unit (circa 36.2 square metres site area) providing 28 number secure bicycle parking spaces and refuse store included at the west side of Merrion Court; and (D) All plant and all associated site development works. The total gross floor area of the proposals is circa 1,979.5 square metres, all on two parcels of land (circa 0.042 hectares) on a site at 13 and 13a Merrion Row and 12a, 12b and 12c Merrion Court, Dublin.

Decision

GRANT permission for the above proposed development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.

Matters Considered

In making its decision, the Board had regard to those matters to which, by virtue of the Planning and Development Acts and Regulations made thereunder, it was required to have regard. Such matters included any submissions and observations received by it in accordance with statutory provisions.

Reasons and Considerations

Having regard to the location of the proposed development on an underutilised, serviced site in the city centre, to the Dublin City Development Plan, 2016–2022 according to which the site is within an area subject to the zoning objective Z5: “To consolidate and facilitate the development of the central area, and to identify, reinforce and strengthen and protect its civic design character and dignity”, and to the nature of the proposed uses and the form, height, design, materials and finishes of the proposed new build, it is considered that, subject to compliance with the conditions set below, the proposed development would not seriously injure the visual amenities of the area or detract from the character and setting of the protected structures and the conservation area for the south Georgian core of the City, would integrate into the surrounding streetscape, and would be acceptable in terms of vehicular and pedestrian safety and convenience. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars submitted to the planning authority on the 4th day of January, 2021, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. The fifth floor shall be omitted in its entirety. Prior to commencement of development, revised plans and particulars showing compliance with this requirement shall be submitted to and agreed in writing with the planning authority.

Reason: In the interest of the protection of the visual amenities of the area.

3. Details including samples of the materials, colours and textures of all the external finishes to the proposed development shall be submitted to, (or displayed on the site for inspection), and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of the visual amenities of the area.

4. Water supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health.

5. The developer shall enter into water supply and wastewater connection agreements with Irish Water, prior to commencement of development.

Reason: In the interest of public health.

6. The developer shall facilitate the archaeological appraisal of the site and shall provide for the preservation, recording and protection of archaeological materials or features which may exist within the site. In this regard, the developer shall:

- (a) notify the planning authority in writing at least four weeks prior to the commencement of any site operation (including hydrological and geotechnical investigations) relating to the proposed development, and
- (b) employ a suitably qualified archaeologist prior to commencement of development. The archaeologist shall assess the site and monitor all site development works.

The assessment shall address the following issues:

- (i) the nature and location of archaeological material on the site, and
- (ii) the impact of the proposed development on such material.

A report, containing the results of the assessment, shall be submitted to the planning authority and, arising from this assessment, the developer shall agree in writing with the planning authority details regarding any further archaeological requirements (including, if necessary, archaeological excavation) prior to commencement of construction works.

In default of agreement on any of these requirements, the matter shall be referred to An Bord Pleanála for determination.

Reason: In order to conserve the archaeological heritage of the area and to secure the preservation (in-situ or by record) and protection of any archaeological remains that may exist within the site.

7. The construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including:
- (a) Location of the site and materials compound(s) including area(s) identified for the storage of construction waste storage.
 - (b) Location of areas for construction site offices and staff facilities.
 - (c) Details of site security fencing and hoardings.
 - (d) Details of on-site car parking facilities for site workers during the course of construction.
 - (e) Details of the timing and routing of construction traffic to and from the construction site and associated directional signage, to include proposals to facilitate the delivery of abnormal loads to the site.
 - (f) Measures to obviate queuing of construction traffic on the adjoining road network.
 - (g) Measures to prevent the spillage or deposit of clay, rubble or other debris on the public road network.

- (h) Alternative arrangements to be put in place for pedestrians and vehicles in the case of the closure of any public road or footpath during the course of site development works. Where a road closure is in operation, suitable diversionary signage to existing uses on Saint Andrew's Lane shall be provided on the public road. Such signage will indicate the duration of the road closure.
- (i) Provision of parking for existing properties during the construction period.
- (j) Details of appropriate mitigation measures for noise, dust and vibration, and monitoring of such levels.
- (k) Containment of all construction-related fuel and oil within specially constructed bunds to ensure that fuel spillages are fully contained. Such bunds shall be roofed to exclude rainwater.
- (l) Off-site disposal of construction/demolition waste and details of how it is proposed to manage excavated soil.
- (m) Means to ensure that surface water run-off is controlled such that no silt or other pollutants enter local surface water sewers or drains.

A record of daily checks that the works are being undertaken in accordance with the Construction Management Plan shall be kept for inspection by the planning authority.

Reason: In the interest of amenities, public health, and safety.

8. Construction and demolition waste shall be managed in accordance with a construction and demolition waste management plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall be prepared in accordance with the "Best Practice Guidelines on the Preparation of Waste Management Plans for Construction and Demolition Projects", published by the Department of the Environment, Heritage and Local Government in July 2006. The plan shall include details of waste to be generated during site clearance and construction phases, and details of the methods and locations to be employed for the prevention, minimisation, recovery and disposal of this material in accordance with the provision of the Waste Management Plan for the Region in which the site is situated.

Reason: In the interest of sustainable waste management.

9. Site development and building works shall be carried out only between the hours of 0700 to 1900 Mondays to Fridays inclusive, between 0700 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the amenities of property in the vicinity.

10. Notwithstanding the provisions of the Planning and Development Regulations 2001, or any statutory provision amending or replacing them, no advertisement signs (including any signs installed to be visible through the windows), advertisement structures, banners, canopies, flags, or other projecting elements shall be displayed or erected on the building or within the curtilage of the site or attached to the glazing unless authorised by a further grant of planning permission.

Reason: To protect the visual amenities of the area.

11. Proposals for a name and numbering scheme and associated signage for the proposed block shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of visual amenity and orderly development.

12. (a) Amplified music or other specific entertainment noise emissions from the premises shall not exceed the background noise level by more than 3 dB(A) during the period 0800 to 2200 hours and by more than 1 dB(A) at any other time, when measured at any external position adjoining an occupied dwelling in the vicinity. The background noise level shall be taken as L90 and the specific noise shall be measured at LAeq.T.
- (b) The octave band centre frequencies of noise emissions at 63 Hz and at 125 Hz shall be subject to the same locational and decibel exceedance criteria in relation to background noise levels as set out in (a) above. The background noise levels shall be measured at LAeqT.

- (c) The background noise levels shall be measured in the absence of the specific noise, on days and at times when the specific noise source would normally be operating; either
 - (i) during a temporary shutdown of the specific noise source, or
 - (ii) during a period immediately before or after the specific noise source operates.
- (d) When measuring the specific noise, the time (T) shall be any five minute period during which the sound emission from the premises is at its maximum level.
- (e) Any measuring instrument shall be precision grade.

Detailed plans and particulars indicating sound-proofing or other measures to ensure compliance with this condition shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. An acoustical analysis shall be included with this submission to the planning authority.

Reason: In order to protect the amenities of property in the vicinity having particular regard to the nuisance potential of low frequency sound emissions during night-time hours.

13. No additional development shall take place above roof parapet level, including lift motor enclosures, air handling equipment, storage tanks, ducts or other external plant, telecommunication aerials, antennas or equipment, unless authorised by a further grant of planning permission.

Reason: To protect the residential amenities of property in the vicinity and the visual amenities of the area.

14. Prior to commencement of development, the developer shall lodge with the planning authority, a cash deposit, a bond of an insurance company, or other security to secure the provision and satisfactory completion of roads, footpaths, watermains, drains, open space and other services required in connection with the development, coupled with an agreement empowering the local authority to apply such security or part thereof to the satisfactory completion of any part of the development. The form and amount of the security shall be as agreed between the planning authority and the developer or, in default of agreement, shall be referred to An Bord Pleanála for determination.

Reason: To ensure the satisfactory completion of the development.

15. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to the commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

16. The developer shall pay to the planning authority a financial contribution in respect of Luas Cross City in accordance with the terms of the Supplementary Development Contribution Scheme made by the planning authority under section 49 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to the commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Supplementary Development Contribution Scheme made under section 49 of the Act be applied to the permission.

John Connolly
Member of An Bord Pleanála
duly authorised to authenticate
the seal of the Board.
