AN BORD PLEANÁLA
CM 5/6

Matters Considered

In making its decision, the Board had regard to those matters to which, by virtue of the Planning and Development Acts and Regulations made thereunder, it was required to have regard. Such matters included any submissions and observations received by it in accordance with statutory provisions.

Reasons and Considerations

Having regard to the existing pattern of development in the area, and to the nature, use and extent of the subject development, it is considered that, subject to compliance with the conditions set out below, the development for which retention permission and permission for completion of development is sought, would not seriously injure the amenities of the area or of property in the vicinity, and would be acceptable in terms of pedestrian and traffic safety. The development for which retention permission and permission for completion of development is sought would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be retained, carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars submitted on the 30th day of April 2021, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority and the development shall

be retained, carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. The use of the agricultural storage sheds shall be confined to machinery and dry storage use connected with the agricultural use of the farm holding and shall not be used for the housing of animals or for the storage of animal manure. The sheds shall not be used for any commercial purposes, nor shall they be sublet or sold separately from the farm holding.

Reason: In the interest of clarity, orderly development and the amenities of the area.

3. All surface water shall be collected and disposed of within the curtilage of the site. No surface water from roofs, paved areas or otherwise shall discharge onto the public road or adjoining properties.

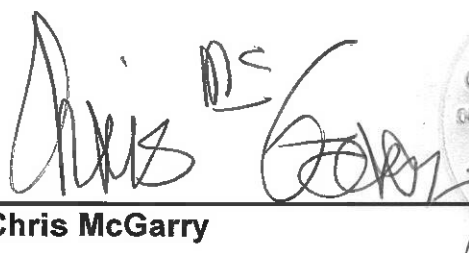

Reason: In the interest of clarity, orderly development and the amenities of the area.

4. The roof and elevational cladding of the shed proposed to be retained and completed shall be coloured to match the existing shed on site.

Reason: In the interest of visual amenity.

5. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
