Board Order
ABP-310941-21

Planning and Development Acts 2000 to 2020

Planning Authority: Dún Laoghaire-Rathdown County Council

Planning Register Reference Number: D21B/0224

Appeal by John and Carina Staunton of 1 Woodside Grove, Castlepark, Rathfarnham, Dublin against the decision made on the 29th day of June, 2021 by Dún Laoghaire-Rathdown County Council to grant subject to conditions a permission to Alan McCrann care of Irish Conservatories of Stepside, County Dublin in accordance with plans and particulars lodged with the said Council:

Proposed Development: Demolition of the existing ground floor rear extension, the construction of a new ground floor rear extension, a new extended attic conversion consisting of a change of roof type from hipped to pitched with a half hipped finish by raising the gable wall, a new rear roof dormer and a new roof light to the front at 7 Riverside Drive, Rathfarnham, Dublin.

Decision

GRANT permission for the above proposed development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.

Matters Considered

In making its decision, the Board had regard to those matters to which, by virtue of the Planning and Development Acts and Regulations made thereunder, it was required to have regard. Such matters included any submissions and observations received by it in accordance with statutory provisions.

Reasons and Considerations

Having regard to the provisions of the Dún Laoghaire-Rathdown County Development Plan 2016-2022 and the design and scale of the proposed development, it is considered that, subject to compliance with the conditions set out below, the proposed development would integrate with the existing dwelling in a complimentary manner, would not seriously injure the residential and visual amenities of the area or character of the streetscape. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. The external finishes of the proposed extension (including roof tiles/slates) shall be the same as those of the existing dwelling in respect of colour and texture.

Reason: In the interest of visual amenity.

3. Water supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services. Details of the surface water drainage system in compliance with Sustainable Urban Drainage measures (SUDS) shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of public health to ensure a proper standard of development.

4. All necessary measures shall be taken by the contractor to prevent the spillage or deposit of clay, rubble or other debris on the adjoining roads during the course of the works.

Reason: To protect the amenities of the area.

5. Site development and building works shall be carried out only between the hours of 0800 to 1800 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

6. Construction and demolition waste shall be managed in accordance with a construction waste and demolition management plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall be prepared in accordance with the "Best Practice Guidelines on the Preparation of Waste Management Plans for Construction and Demolition Projects", published by the Department of the Environment, Heritage and Local Government in July 2006.

Reason: In the interest of sustainable waste management.

7. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
