

Planning and Development Acts 2000 to 2021

Planning Authority: Dublin City Council

Application for permission under section 4 of the Planning and Development (Housing) and Residential Tenancies Act 2016, as amended, in accordance with plans and particulars, lodged with An Bord Pleanála on the 6th day of September 2021 by Sanford Living Limited care of Thornton O'Connor Town Planning of No. 1 Kilmacud Road Upper, Dundrum, Dublin.

Proposed Development comprises of the following:

The demolition of circa 4,883.9 square metres of existing structures on site including Milltown Park House (880 square metres); Milltown Park House Rear Extension (2,031 square metres); the Finlay Wing (622 square metres); the Archive (1,240 square metres); the link building between Tabor House and Milltown Park House rear extension to the front of the Chapel (74.5 square metres); and 36.4 square metres of the 'red brick link building' (single storey over basement) towards the south-western boundary; the refurbishment and reuse of Tabor House (1,575 square metres) and the Chapel (768 square metres), and the provision of a single storey glass entrance lobby to the front and side of the Chapel.

The provision of a 671 number unit residential development comprising 604 number Build to Rent apartment and duplex units (88 number studios, 262 number one-bed units, 242 number two-bed units and 12 number three-bed units) and 67 number Build to Sell apartment and duplex units (11 number studios, nine number one-bed units, 32 number two-bed units and 15 number three-bed units).

Block A1 will range in height from part five number storeys to part 10 number storeys and will comprise 94 number Build to Rent apartments;

Block A2 will range in height from part six number storeys to part eight number storeys including part double height at ground floor level and will comprise 140 number Build to Rent apartments and duplex units;

Block B will range in height from part three number to part seven number storeys and will comprise 91 number Build to Rent apartments;

Block C will range in height from part two number storeys to part eight number storeys including part double height at ground floor level and will comprise 163 number Build to Rent apartments;

Block D will range in height from three number storeys to five number storeys and will comprise 39 number Build to Sell apartments;

Block E will be three number storeys in height and will comprise 28 number Build to Sell duplex units and apartments;

Block F will range in height from five number storeys to part seven number storeys and will comprise 92 number Build to Rent apartments; and the refurbished Tabor House four number storeys including lower ground floor level will comprise 24 number Build to Rent apartments.

The development also includes a creche within Block F (400 square metres) with outdoor play area; and the provision of communal internal amenities (circa 1,248.8 square metres) and facilities (circa 158.3 square metres) throughout the residential blocks, Tabor House and the converted Chapel building including co-working space, gym, lounges, reading rooms, games room, multi-purpose space, concierge, mail rooms and staff facilities.

The proposed works also include a new 2.4 metre high boundary wall across the site from east to west towards the southern boundary requiring the demolition of a portion of the red brick link building that lies within the subject site towards the south-western boundary (36.4 square metres) and the making good of the façade at the boundary.

The existing Link Building is the subject of a separate application for permission (Dublin City Council Register Reference Number 3866/20) that includes a request for permission to demolish that Link Building, including the part of the building on the lands the subject of this application for Strategic Housing Development permission. If that application is granted and first implemented, no demolition works to the Link Building will be required under this application for Strategic Housing Development permission. If that application is refused permission or not first implemented, permission is here sought to demolish only that part of the Link Building now existing on the lands the subject of this application for permission and to make good the balance at the red line with a blank wall.

The development also provides a new access from Milltown Road which will be the principal vehicular entrance to the site in addition to utilising and upgrading the existing access from Sandford Road as a secondary access principally for deliveries, emergencies and taxis; new pedestrian access points; pedestrian and bicycle connections through the site;

344 number car parking spaces (295 number at basement level and 49 number at surface level) which includes 18 number mobility impaired spaces, 10 number car share spaces, four number collection and drop-off spaces and two number taxi spaces; bicycle parking; 14 number motorcycle spaces; bin storage; boundary treatments; private balconies and terraces facing all directions; external gantry access in sections of Blocks A1, A2 and C; hard and soft landscaping including public open space and communal open space including upper level communal terraces in Block A1, Block B and Block C which will face all directions; sedum roofs; photovoltaic panels; substations; lighting; plant; lift cores; and all other associated site works above and below ground.

The proposed development has a gross floor space of circa 54,871 square metres above ground level over a partial basement under part of Block A1 and under Blocks A2, B and C measuring circa 10,607 square metres, which includes parking spaces, bin storage, bike storage and plant all located at Milltown Park, Sandford Road, Dublin 6. Works are also proposed on Milltown Road and Sandford Road to facilitate access to the development including improvements to pedestrian facilities on an area of circa 0.16 hectares. The development's surface water drainage network shall discharge from the site via a proposed 300 millimetre diameter pipe along Milltown Road through the junction of Milltown Road and Sandford Road prior to outfalling to the existing drainage network on Eglinton Road approximately 200 metres from the Sandford Road and Eglinton Road junction, with these works incorporating an area of circa 0.32 hectares.

Decision

Grant permission for the above proposed development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.

Matters Considered

In making its decision, the Board had regard to those matters to which, by virtue of the Planning and Development Acts and Regulations made thereunder, it was required to have regard. Such matters included any submissions and observations received by it in accordance with statutory provisions.

Reasons and Considerations

In coming to its decision, the Board had regard to the following:

- (a) The location of the site on lands with a zoning objective which includes residential development being 'open for consideration', its location close to Dublin city centre within an established built-up area and the policies and objectives as set out in the Dublin City Council Development Plan 2016-2022 and its various appendices;
- (b) The policies and objectives as set out in the Dublin City Council Development Plan 2016-2022;
- (c) The provisions of Housing for All, A New Housing Plan for Ireland issued by the Department of Housing, Local Government and Heritage September 2021;
- (d) Objectives 3a, 3b, 11, 13 and 35 of the Project Ireland 2040 National Planning Framework;
- (e) The provisions of the Dublin Metropolitan Area Strategic Plan, part of the Eastern and Midland Regional Assembly Regional Spatial and Economic Strategy 2019-2031;
- (f) The provisions of Rebuilding Ireland Action Plan for Housing and Homelessness 2016;
- (g) The provisions of the Design Manual for Urban Roads and Streets (DMURS) issued by the Department of Transport, Tourism and Sport and the Department of the Environment, Community and Local Government in March 2019, as amended;
- (h) The provisions of the Guidelines for Sustainable Residential Developments in Urban Areas and the accompanying Urban Design Manual, A Best Practice Guide, issued by the Department of the Environment, Heritage and Local Government in May 2009;
- (i) The provisions of the Urban Development and Building Heights Guidelines for Planning Authorities, issued by the Department of Housing, Planning and Local Government in December 2018;

- (j) The provisions of the Sustainable Urban Housing: Design Standards for New Apartments, Guidelines for Planning Authorities issued by the Department of Housing, Planning and Local Government in December 2020;
- (k) The provisions of the Planning System and Flood Risk Management for Planning Authorities (including the associated Technical Appendices), issued by the Department of the Environment, Heritage and Local Government in 2009;
- (l) The nature, scale and design of the proposed development;
- (m) The availability in the area of a wide range of educational, social, community and transport infrastructure;
- (n) The pattern of existing and permitted development in the area;
- (o) The Chief Executive's Report of Dublin City Council;
- (p) The submissions and observations received;
- (q) The Planning Inspectors report.

It is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the residential or visual amenities of the area or of property in the vicinity, would respect the existing character of the area and would be acceptable in terms of traffic and pedestrian safety and convenience. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Appropriate Assessment Screening

The Board completed an Appropriate Assessment screening exercise in relation to the potential effects of the proposed development on designated European Sites, taking into account the nature and scale of the proposed development on serviced lands, the nature of the receiving environment which comprises of a built-up urban area, the distances to the nearest European Sites and lack of a direct hydrological pathway, the Screening for Appropriate Assessment document submitted with the application, the Inspector's report, and submissions on file. In completing the screening exercise, the Board adopted the report of the Inspector and concluded that, by itself or in combination with other development in the vicinity, the proposed development would not be likely to have a significant effect on any European Site in view of the conservation objectives of such sites, and that a Stage 2 Appropriate Assessment is not, therefore, required.

Environmental Impact Assessment Screening

The Board completed, in compliance with section 172 of the Planning and Development Act 2000, as amended, an Environmental Impact Assessment of the proposed development, taking into account:

- (a) The nature, scale and extent of the proposed development;
- (b) The Environmental Impact Assessment Report and associated documentation submitted in support of the application,
- (c) The submissions from the applicant, planning authority, the observers, and the prescribed bodies in the course of the application; and
- (d) The Planning Inspector's report.

The Board considered that the environmental impact assessment report, supported by the documentation submitted by the applicant, adequately identifies and describes the direct, indirect, secondary and cumulative effects of the proposed development on the environment.

The Board agreed with the examination, set out in the Inspector's report, of the information contained in the environmental impact assessment report and associated documentation submitted by the applicant and submissions made in the course of the planning application.

The Board considered and agreed with the Inspector's reasoned conclusions, that the main significant direct and indirect effects of the proposed development on the environment are, and would be mitigated, as follows:

- Significant direct positive effects with regard to population and material assets due to the increase in the housing stock that it would make available in the urban area.
- A significant direct effect on land by the change in the use and appearance of a relatively large area of urban land from private parkland to residential. Given the location of the site within the built-up area of Dublin and the public need for housing in the region, this effect would not have a significant negative impact on the environment.
- Potential significant effects on soil during construction, which will be mitigated by the re-use of some material on the site and the implementation of measures to control emissions of sediment to water and dust to air during construction.
- Potential effects arising from noise and vibration during construction which will be mitigated by appropriate management measures.
- Potential effects on air during construction which will be mitigated by a dust management plan including a monitoring programme.
- Potential indirect effects on water which will be mitigated during the occupation of the development by the proposed system for surface water management and attenuation with respect to stormwater runoff and the drainage of foul effluent to the public foul sewerage system, and which will be mitigated during construction by appropriate management measures to control the emissions of sediment to water.
- A positive effect on the streetscape because the proposed development would improve the amenity of the land through the provision of dedicated public open spaces and improved public realm.

The Board completed an environmental impact assessment in relation to the proposed development and concluded that, subject to the implementation of the mitigation measures set out in the environmental impact assessment report, and subject to compliance with the conditions set out below, the effects on the environment of the proposed development, by itself and in combination with other development in the vicinity, would be acceptable. In doing so, the Board adopted the report and conclusions of the Inspector.

Conclusions on Proper Planning and Sustainable Development

The Board considered that, subject to compliance with the conditions set out below that the proposed development would constitute an acceptable quantum and density of development in this accessible urban location, would not seriously injure the residential or visual amenities of the area, would be acceptable in terms of urban design, height and quantum of development and would be acceptable in terms of pedestrian safety. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area. In coming to this conclusion, specific regard was had to the Chief Executive's Report from the planning authority.

The Board considered that, while a grant of permission for the proposed Strategic Housing Development would not materially contravene a zoning objective of the statutory plans for the area, a grant of permission could materially contravene the Dublin City Development Plan 2016-2022 in relation to building height. The Board considers that, having regard to the provisions of section 37(2)(b)(i) and (iii) of the Planning and Development Act 2000, as amended, the grant of permission in material contravention of the Dublin City Development Plan 2016-2022 would be justified for the following reasons and consideration:

- (a) In relation to section 37(2)(b)(i) of the Planning and Development Act 2000, as amended: the proposed development is in accordance with the definition of Strategic Housing Development, as set out in section 3 of the Planning and Development (Housing) and Residential Tenancies Act 2016, as amended and comprises a significant number of residential units (671) to meet the housing need of the area, and the proposal could therefore be considered to be strategic in nature. Given the site's location in an area close to existing residential, educational and employment and commercial development, the application site has the potential to contribute to the achievement of the Government's policy to increase delivery of housing from its current under supply as set out in Rebuilding Ireland Action Plan for Housing and Homelessness 2016 and meets the overall objective of the Housing for All, A New Housing Plan for Ireland issued by the Department of Housing, Local Government and Heritage September 2021.
- (b) In relation to section 37(2)(b)(iii) of the Planning and Development Act 2000, as amended: The proposed development in terms of height is in accordance with national policy as set out in the Project Ireland 2040 National Planning Framework, specifically National Policy Objective 13 and National Policy Objective 35 and is in compliance with the Urban Development and Building Heights Guidelines for Planning Authorities, issued by the Department of Housing, Planning and Local Government in December 2018, in particular Specific Planning Policy Requirement 3. In terms of the regional planning guidelines for the area, the Eastern and Midland Regional Assembly Regional Spatial and Economic Strategy 2019-2031 seeks to increase densities on appropriate sites within Dublin City and Suburbs and this can result in taller buildings and RPO 5.4 that advises higher densities adherence to qualitative standards as set out in the Sustainable Residential Developments in Urban Areas and the accompanying Urban Design Manual, A Best Practice Guide, issued by the Department of the Environment, Heritage and Local Government in May 2009, Sustainable Urban Housing: Design Standards for New Apartments, Guidelines for Planning Authorities issued by the Department of Housing, Planning and Local Government in December 2020, and Urban Development and Building Heights Guidelines for Planning

Authorities, issued by the Department of Housing, Planning and Local Government in December 2018.

Conditions

1. The proposed development shall be carried out and completed in accordance with the plans and particulars lodged with the application except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars. In default of agreement, such issues may be referred to An Bord Pleanála for determination.

Reason: In the interest of clarity.

2. Prior to the commencement of development, the following details shall be submitted to, and agreed in writing with the planning authority:
 - (a) The omission of the standalone duplex apartment block that comprises four units at the southern section of Block E (units BE.0001, BE.0002, BE.0201 and BE.0101) and their replacement with open space or for a use to be determined by a future planning application.
 - (b) The omission of the Bin and Bike Store buildings located to the north and south of Block E (two structures in total) and the relocation of these facilities to the basement level of Block B and C. The space vacated by the Bin and Bike Store buildings shall be replaced with open space.
 - (c) Units BE.G206 and BE.0113 shall be reconfigured to address and face across the new area of open space to the north of Block E as a consequence of (b) above. This will require internal modifications and a revised fenestration to the northern elevation.

Reason: In the interests of the residential amenity of existing and future occupants of the scheme.

3. The mitigation and monitoring measures outlined in Chapter 20 of the Environmental Impact Assessment Report submitted with this application, shall be carried out in full, except where otherwise required by conditions attached to this permission.

Reason: To protect the environment.

4. Prior to the commencement of development, the developer shall submit details of a proposed covenant or legal agreement which confirms that the development hereby permitted shall remain owned and operated by an institutional entity for a minimum period of not less than 15 years and where no individual residential units shall be sold separately for that period. The period of 15 years shall be from the date of occupation of the first 'shared living units'/Build to Rent units within the scheme.

Reason: In the interests of proper planning and sustainable development of the area.

5. Prior to expiration of the 15 year period referred to in the covenant, the developer shall submit ownership details and management structures proposed for the continued operation of the entire development as a Build to Rent and shared accommodation scheme. Any proposed amendment or deviation from the Build to Rent and shared accommodation model as authorised in this permission shall be subject to a separate planning application.

Reason: In the interests of orderly development and clarity.

6. The management and maintenance of the proposed development following its completion shall be the responsibility of a legally constituted management company, or by the local authority in the event of the development being taken in charge. Detailed proposals in this regard shall be submitted to, and agreed in writing with, the planning authority prior to occupation of the development.

Reason: To ensure the satisfactory completion and maintenance of this development.

7. The developer shall comply with all requirements of the planning authority in relation to roads, access, cycling infrastructure and parking arrangements. In particular:

The roads and footpaths shall be constructed in accordance with the planning authority's standards for taking in charge.

Reason: In the interests of traffic, cyclist and pedestrian safety and to protect residential amenity.

8. Prior to the commencement of any duplex unit i.e build to sell units in the development as permitted, the applicant or any person with an interest in the land shall enter into an agreement with the planning authority such agreement must specify the number and location of each duplex unit, pursuant to section 47 of the Planning and Development Act 2000, as amended, that restricts duplex units permitted, to first occupation by individual purchasers i.e. those not being a corporate entity, and or by those eligible for the occupation of social and/or affordable housing, including cost rental housing.

Reason: To restrict new housing development to use by persons of a particular class or description in order to ensure an adequate choice and supply of housing, including affordable housing, in the common good.

9. The streets that are constructed and or completed on foot of this permission shall comply with the standards and specifications set out in the Design Manual for Urban Roads and Streets (DMURS) issued by the Department of Transport, Tourism and Sport and the Department of the Environment, Community and Local Government in March 2019, as amended. All streets shall be local streets as set out in section 3.2.1 of Design Manual for Urban Roads and Streets (DMURS) issued by the Department of Transport, Tourism and Sport and the Department of the Environment, Community and Local Government in March 2019, as amended whose carriageway shall not exceed 5.5 metres in width. Where perpendicular parking is provided on those streets the additional width required for vehicles to manoeuvre shall be incorporated into the spaces in accordance with figure 4.82 of Design Manual for Urban Roads and Streets (DMURS) issued by the Department of Transport, Tourism and Sport and the Department of the Environment, Community and Local Government in March 2019, as amended.

Reason: In the interests of road safety and to ensure that the streets in the authorised development facilitate movement by sustainable transport modes in accordance with the applicable standards set out in Design Manual for Urban Roads and Streets (DMURS) issued by the Department of Transport, Tourism and Sport and the Department of the Environment, Community and Local Government in March 2019, as amended.

10. Details of any alterations to the road and pedestrian network serving the proposed development, including loading areas, footpaths, kerbs and access road to the underground car park shall be in accordance with the detailed construction standards of the planning authority for such works and design standards outlined in the Design Manual for Urban Roads and Streets (DMURS) issued by the Department of Transport, Tourism and Sport and the Department of the Environment, Community and Local Government in March 2019, as amended. In default of agreement the matter(s) in dispute shall be referred to An Bord Pleanála for determination.

Reason: In the interests of amenity and of traffic and pedestrian safety.

11. All roads and footpaths shown connecting to adjoining lands shall be constructed up to the boundaries with no ransom strips remaining to provide access to adjoining lands. These areas shall be shown for taking in charge in a drawing to be submitted and agreed with the planning authority.

Reason: In the interests of permeability and proper planning and sustainable development.

12. Details of the materials, colours and textures of all the external finishes to the proposed dwellings and buildings shall be as submitted with the application, unless otherwise agreed in writing with, the planning authority prior to commencement of development. In default of agreement the matter(s) in dispute shall be referred to An Bord Pleanála for determination.

Reason: In the interest of visual amenity.

13. All plant including extract ventilation systems and refrigerator condenser units shall be sited in a manner so as not to cause nuisance at sensitive locations due to odour or noise. All mechanical plant and ventilation inlets and outlets shall be sound insulated and or fitted with sound attenuators to ensure that noise levels do not pose a nuisance at noise sensitive locations.

Reason: In the interest of residential amenity.

14. No advertisement or advertisement structure other than those shown on the drawings submitted with the application shall be erected or displayed on the building or within the curtilage of the site in such a manner as to be visible from outside the building, unless authorised by a further grant of planning permission.

Reason: In the interest of visual amenity.

15. Proposals for an estate and street name, apartment numbering scheme and associated signage shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Thereafter, all estate and street signs, and unit numbers, shall be provided in accordance with the agreed scheme. The proposed name(s) shall be based on local historical or topographical features, or other alternatives acceptable to the planning authority. No advertisements and marketing signage relating to the name(s) of the development shall be erected until the developer has obtained the planning authority's written agreement to the proposed name(s).

Reason: In the interests of legibility and to ensure the use of locally appropriate place names for new residential areas.

16. Public lighting shall be provided in accordance with a scheme, which shall include lighting along pedestrian routes through open spaces details of which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development or installation of lighting. Such lighting shall be provided prior to the making available for occupation of any house.

Reason: In the interests of amenity and public safety.

17. All service cables associated with the proposed development such as electrical, telecommunications and communal television shall be located underground. Ducting shall be provided by the developer to facilitate the provision of broadband infrastructure within the proposed development. All existing over ground cables shall be relocated underground as part of the site development works.

Reason: In the interests of visual and residential amenity.

18. (a) Prior to the opening/occupation of the development, a Mobility Management Strategy shall be submitted to and agreed in writing with the planning authority. This shall provide for incentives to encourage the use of public transport, cycling, walking and carpooling by residents, occupants and staff employed in the development and to reduce and regulate the extent of parking. The mobility strategy shall be prepared and implemented by the management company for all units within the development.
- (b) The Mobility Management Strategy shall incorporate a Car Parking Management Strategy for the overall development, which shall address the management and assignment of car spaces to residents and uses over time and shall include a strategy any car-share parking. Car parking spaces shall not be sold with units but shall be assigned and managed in a separate capacity via leasing or permit arrangements.

Reason: In the interest of encouraging the use of sustainable modes of transport, traffic and pedestrian safety.

19. A minimum of 10% of all car parking spaces should be provided with electric vehicle charging stations or points, and ducting shall be provided for all remaining car parking spaces facilitating the installation of electric vehicle charging points or stations at a later date. Where proposals relating to the installation of electric vehicle ducting and charging stations or points has not been submitted with the application, in accordance with the above noted requirements, the development shall submit such proposals shall be submitted and agreed in writing with the planning authority prior to the occupation of the development.

Reason: To provide for and or future proof the development such as would facilitate the use of electric vehicles.

20. Electric charging facilities shall be provided for bicycle parking and proposals shall be submitted to and agreed in writing with the planning authority prior to the occupation of the development.

Reason: In the interests of orderly development and to provide for and future proof the development as would facilitate the use of electric bicycles.

21. Drainage arrangements including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services. Prior to commencement of development the developer shall submit to the planning authority for written agreement a Stage 2 - Detailed Design Stage Storm Water Audit. Upon Completion of the development, a Stage 3 - Completion Stormwater Audit to demonstrate Sustainable Urban Drainage System measures have been installed and are working as designed and that there has been no misconnections or damage to storm water drainage infrastructure during construction, shall be submitted to the planning authority for written agreement.

Reason: In the interests of public health and surface water management.

22. Prior to commencement of development, the developer shall enter into water and or wastewater connection agreement(s) with Irish Water.

Reason: In the interest of public health.

23. The site shall be landscaped in accordance with the detailed comprehensive scheme of landscaping, which accompanied the application submitted, unless otherwise agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of residential and visual amenity.

24. (a) Prior to commencement of development, all trees, groups of trees, hedging and shrubs which are to be retained shall be enclosed within stout fences not less than 1.5 metres in height. This protective fencing shall enclose an area covered by the crown spread of the branches, or at minimum a radius of two metres from the trunk of the tree or the centre of the shrub, and to a distance of two metres on each side of the hedge for its full length and shall be maintained until the development has been completed.
- (b) No construction equipment, machinery or materials shall be brought onto the site for the purpose of the development until all the trees which are to be retained have been protected by this fencing. No work is shall be carried out within the area enclosed by the fencing and, in particular, there shall be no parking of vehicles, placing of site huts, storage compounds or topsoil heaps, storage of oil, chemicals or other substances, and no lighting of fires, over the root spread of any tree to be retained.
- (c) Excavations in preparation for foundations and drainage, and all works above ground level in the immediate vicinity of tree(s) and hedges and identified as 'to be retained' on landscape drawings, as submitted with the application, shall be carried out under the supervision of a specialist arborist, in a manner that will ensure that all major roots are protected, and all branches are retained.
- (d) No trench, embankment or pipe run shall be located within three metres of any trees and hedging which are to be retained on the site.

Reason: To protect trees and planting during the construction period in the interest of visual amenity.

25. Prior to commencement of development, the developer shall lodge with the planning authority a cash deposit, a bond of an insurance company or such other security as may be accepted in writing by the planning authority, to secure the protection of the trees on site and to make good any damage caused during the construction period, coupled with an agreement empowering the planning authority to apply such security, or part thereof, to the satisfactory protection of any tree or trees on the site or the replacement of any such trees which die, are removed or become seriously damaged or diseased within a period of three years from the substantial completion of the development with others of similar size and species. The form and amount of the security shall be as agreed between the planning authority and the developer or, in default of agreement, shall be referred to An Bord Pleanála for determination.

Reason: To secure the protection of the trees on the site.

26. The developer shall facilitate the preservation, recording and protection of archaeological materials or features that may exist within the site. In this regard, the developer shall -
- (a) notify the planning authority in writing at least four weeks prior to the commencement of any site operation including hydrological and geotechnical investigations relating to the proposed development,
 - (b) employ a suitably qualified archaeologist who shall monitor all site investigations and other excavation works, and
 - (c) provide arrangements, acceptable to the planning authority, for the recording and for the removal of any archaeological material which the authority considers appropriate to remove.

In default of agreement on any of these requirements, the matter shall be referred to An Bord Pleanála for determination.

Reason: In order to conserve the archaeological heritage of the site and to secure the preservation and protection of any remains that may exist within the site.

27. A plan containing details for the management of waste and, in particular, recyclable materials within the development, including the provision of facilities for the storage, separation and collection of the waste and, in particular, recyclable materials and for the ongoing operation of these facilities for each apartment unit shall be submitted to, and agreed in writing with, the planning authority not later than six months from the date of commencement of the development. Thereafter, the waste shall be managed in accordance with the agreed plan.

Reason: In the interest of residential amenity, and to ensure the provision of adequate refuse storage.

28. Construction and demolition waste shall be managed in accordance with a construction waste and demolition management plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall be prepared in accordance with the "Best Practice Guidelines on the Preparation of Waste Management Plans for Construction and Demolition Projects", published by the Department of the Environment, Heritage and Local Government in July 2006. The plan shall include details of waste to be generated during site clearance and construction phases, and details of the methods and locations to be employed for the prevention, minimisation, recovery and disposal of this material in accordance with the provision of the Waste Management Plan for the Region in which the site is situated.

Reason: In the interest of sustainable waste management.

29. The construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including:
- (a) Location of the site and materials compound(s) including area(s) identified for the storage of construction refuse;
 - (b) Location of areas for construction site offices and staff facilities;
 - (c) Details of site security fencing and hoardings;
 - (d) Details of on-site car parking facilities for site workers during the course of construction;
 - (e) Details of the timing and routing of construction traffic to and from the construction site and associated directional signage, to include proposals to facilitate the delivery of abnormal loads to the site;
 - (f) Measures to obviate queuing of construction traffic on the adjoining road network;
 - (g) Measures to prevent the spillage or deposit of clay, rubble or other debris on the public road network;
 - (h) Alternative arrangements to be put in place for pedestrians and vehicles in the case of the closure of any public road or footpath during the course of site development works;
 - (i) Details of appropriate mitigation measures for noise, dust and vibration, and monitoring of such levels;
 - (j) Containment of all construction-related fuel and oil within specially constructed bunds to ensure that fuel spillages are fully contained. Such bunds shall be roofed to exclude rainwater;
 - (k) Off-site disposal of construction/demolition waste and details of how it is proposed to manage excavated soil;
 - (l) Means to ensure that surface water run-off is controlled such that no silt or other pollutants enter local surface water sewers or drains.

- (m) A record of daily checks that the works are being undertaken in accordance with the Construction Management Plan shall be kept for inspection by the planning authority.
- (o) alternative arrangements to be put in place for pedestrians, cyclists and vehicles in the case of the closure of any public road or footpath during the course of site development works and the maintenance of access to Clongriffin Railway Station at all times;

Reason: In the interests of amenities, public health and safety.

30. Site development and building works shall be carried out only between 0700 to 1900 hours Mondays to Fridays inclusive and 0800 to 1300 hours on Saturdays, and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

31. Prior to commencement of development, the applicant or other person with an interest in the land to which the application relates shall enter into an agreement in writing with the planning authority in relation to the provision of housing in accordance with the requirements of section 94(4) and section 96(2) and (3) (Part V) of the Planning and Development Act 2000, as amended, unless an exemption certificate shall have been applied for and been granted under section 97 of the Act, as amended. Where such an agreement is not reached within eight weeks from the date of this order, the matter in dispute (other than a matter to which section 96(7) applies) may be referred by the planning authority or any other prospective party to the agreement to An Bord Pleanála for determination.

Reason: To comply with the requirements of Part V of the Planning and Development Act 2000, as amended, and of the housing strategy in the development plan of the area.

32. Prior to commencement of development, the developer shall lodge with the planning authority a cash deposit, a bond of an insurance company, or other security to secure the provision and satisfactory completion and maintenance until taken in charge by the local authority of roads, footpaths, watermains, drains, public open space and other services required in connection with the development, coupled with an agreement empowering the local authority to apply such security or part thereof to the satisfactory completion or maintenance of any part of the development. The form and amount of the security shall be as agreed between the planning authority and the developer or, in default of agreement, shall be referred to An Bord Pleanála for determination.

Reason: To ensure the satisfactory completion and maintenance of the development until taken in charge.

33. Prior to commencement of development, the developer shall lodge with the planning authority a cash deposit, a bond of an insurance company, or other security to secure the reinstatement of public roads which may be damaged by the transport of materials to the site, to secure the provision and satisfactory completion of roads, footpaths, watermains, drains, open space and other services required in connection with the development, coupled with an agreement empowering the local authority to apply such security or part thereof to the satisfactory completion of any part of the development. The form and amount of the security shall be as agreed between the planning authority and the developer or, in default of agreement, shall be referred to An Bord Pleanála for determination.

Reason: To ensure the satisfactory completion of the development.

34. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions for Dublin City Council of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

Paul Hyde

Member of An Bord Pleanála
duly authorised to authenticate
the seal of the Board.
