

Planning and Development Acts 2000 to 2021

Planning Authority: Cork City Council

Planning Register Reference Number: 21/40462

Appeal by DCN Developments Limited care of DL Group of 1 Hodders Villas, Ballincollig, County Cork against the decision made on the 22nd day of October, 2021 by Cork City Council to refuse permission for the proposed development.

Proposed Development: Construction of one number additional two-storey detached dwellinghouse at the existing 'Glashaboy View' housing development currently under construction (granted under planning register reference number 20/39403), to be serviced by existing site entrance, access road and site services permitted under planning register reference number 20/39403, and all associated site works including two number car parking spaces, new landscaping and boundary treatments, at Glashaboy View, Sallybrook, Riverstown, Glanmire, Cork.

Decision

GRANT permission for the above proposed development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.

Reasons and Considerations

Having regard to the residential land use zoning of the site, the pattern of development in the area, the size of the site and the layout and design of the proposed development including the landscape scheme proposed, it is considered that, subject to compliance with the conditions set out below, the proposed development would not adversely impact the visual or residential amenities of the area. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. Apart from any departures specifically authorised by this permission, the development shall be carried out and completed in accordance with the terms and conditions of the permission granted under planning register reference number 20/39403, and any agreements entered into thereunder.

Reason: In the interest of clarity and to ensure that the overall development is carried out in accordance with the previous permission.

3. The site shall be landscaped in accordance with the details shown on drawing number 18203-2-103 received by An Bord Pleanála with the appeal on the 12th day of November 2021.

Any plants which die, are removed or become seriously damaged or diseased, within a period of five years from the completion of the development, shall be replaced within the next planting season with others of similar size and species, unless otherwise agreed in writing with the planning authority.

Reason: In order to screen the development and assimilate it into the receiving landscape, in the interest of visual amenity.

4. Water supply and drainage arrangements, including the disposal of surface water, shall comply with the requirements of the planning authority for such works.

Reason: To ensure adequate servicing of the development, and to prevent pollution.

5. Prior to commencement of development, the developer shall enter into water and/or wastewater connection agreement(s) with Irish Water.

Reason: In the interest of public health.

6. The removal of the tree along the northern boundary of the site and the construction of the retaining walls and all initial and associated groundworks shall be supervised by a suitably qualified civil/structural engineer. The engineer shall monitor and ensure the works do not impact on the site stability of adjoining sites and the structural integrity of dwellings on these sites.

Reason: In the interest of safety and residential amenity.

7. All external finishes, including roof tiles, shall harmonise in colour and texture with the dwelling on the adjoining site to the south.

Reason: In the interest of visual amenity.

8. Site development and building works shall be carried out only between the hours of 0800 to 1900 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

9. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
