Board Order
ABP-312290-21

Planning and Development Acts 2000 to 2021

Planning Authority: Dublin City Council

Application for permission under section 4 of the Planning and Development (Housing) and Residential Tenancies Act 2016, as amended, in accordance with plans and particulars, lodged with An Bord Pleanála on the 21st day of December 2021 by Greenseed Limited care of BMA Planning of Taney Hall, Eglinton Terrace, Dundrum, Dublin.

Proposed Development comprises of the following:

The development will consist of a total of 70,694 square metres gross floor area in seven number blocks (Blocks A to G) including: 750 number residential apartment units comprising 321 number one-bed units, 384 number two-bed units and 45 number three-bed units (totalling 69,989 square metres), non-residential floorspace including one number retail unit (156 square metres), a creche (410 square metres), a community space (48 square metres) and a café and or bar (91square metres) all totalling 705 square metres and all associated roads, streets, public spaces and services infrastructure. The development is described on a block by block basis as follows:

- Block A (11,563 square metres): 109 number apartments comprising 45 number one-bed units, 38 number two-bed units and 26 number three-bed units with associated ancillary accommodation, terraces and balconies in a two to fifteen storey block. Block A first floor level includes one number retail unit (156 square metres) fronting onto Park West Avenue and a proposed public plaza linking to Park West Avenue.

- Block B (4,180 square metres): 44 number apartments comprising 19 number one-bed units, 24 number three-bed units and one number three-bed unit with resident services and amenities (84 square metres) at first floor level and associated ancillary accommodation, terraces and balconies in a two to eight storey block.
- Block C (8,865 square metres): 100 number apartments comprising 45 number one-bed units, 53 number two-bed units and two number three-bed units with associated ancillary accommodation, terraces and balconies in a two to eight storey block. Blocks A, B and C are located above a shared under-croft car park (130 number car parking spaces) and include a shared podium level communal open space (2,580 square metres).
- Block D (16,403 square metres): 179 number apartments comprising 77 number one-bed units, 100 number two-bed units and two number three-bed units with resident services and amenities (403 square metres) at ground, first and second floor levels with associated ancillary accommodation, terraces and balconies in a two to eight storey block.
- Block E (15,995 square metres): 179 number apartments comprising 77 number one-bed units, 100 number two-bed units and two number three-bed units with associated ancillary accommodation, terraces, and balconies in a two to eight storey block. Blocks D and E are located above a shared under-croft car park (156 number spaces) and include a shared podium level communal open space (2,597 square metres).
- Block F (9,629 square metres): 99 number apartments comprising 31 number one-bed units, 62 number two-bed units and six number three-bed units with associated ancillary accommodation, terraces, balconies and podium level communal open space (750 square metres) in a two to eight storey block all over an under-croft car park (28 number spaces).
- Block G (4,059 square metres): 40 number apartments comprising 27 number one-beds, seven number two-beds and six number three-beds with associated ancillary accommodation, terraces, balconies and communal roof terrace (248 square metres) in a one to eight storey block. Block G ground floor level includes one number café and or bar unit (91 square metres), a community

space (48 square metres) and a creche (410 square metres) with associated external play area.

Vehicular, bicycle and pedestrian access to the proposed development will be provided from Park West Road and Park West Avenue with associated tie-in works. A total of 552 number car parking spaces are proposed including 314 number undercroft car parking spaces beneath Blocks A, B, C, D, E and F and 238 number on-street carparking spaces. The proposed development includes 70 number car parking spaces related to the existing Aspect Hotel (36 number spaces beneath Blocks A, B, C and 34 number spaces and at street level) which are being to be relocated from the existing surface car park to facilitate the development of Block G.

The existing Aspect Hotel car park is also the site of a permitted extension to the hotel (Dublin City Council Register Reference Number 3436/18). The existing car park is proposed to be demolished and the site of the permitted hotel extension landscaped pending the development of the hotel extension. Permission is also sought for 1,676 number bicycle parking spaces at undercroft (1,276 number spaces) and on-street (400 number spaces), bin storage areas and a glass bottle recycling bank, Electricity Supply Board substations, undergrounding of the existing 38 kilovolts powerlines and central and western pylons along the northern boundary of the site, plant and public lighting, boundary treatments, surface water drainage infrastructure, public open spaces (circa 1.3 hectares) including hard and soft landscaping and a multi-use games area and or play space and all associated site development and infrastructure works. The remainder of the overall site bounded by Park West Avenue and Park West Road will be the subject of a separate planning application(s) to Dublin City Council, all located at Park West Avenue and Park West Road, Park West, Dublin 12.

Decision

Grant permission for the above proposed development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.

Reasons and Considerations

In coming to its decision, the Board had regard to the following:

- (a) The location of the site in the established urban area of Dublin City in an area zoned for residential development – Z14 To seek the social, economic and physical development and or rejuvenation of an area with mixed use, of which residential and 'Z6' would be the predominant uses and Strategic Development and Regeneration Area 4 Park West/Cherry Orchard;
- (b) The policies and objectives as set out in the Dublin City Council Development Plan 2016-2022 and the Park West - Cherry Orchard Local Area Plan 2019;
- (c) The provisions of Housing for All, A New Housing Plan for Ireland issued by the Department of Housing, Local Government and Heritage September 2021;
- (d) Objectives 3a, 3b, 11, 13 and 35 of the Project 2040 National Planning Framework;
- (e) The provisions of the Dublin Metropolitan Area Strategic Plan part of the Eastern and Midland Regional Spatial and Economic Strategy 2019-2031;
- (f) The provisions of Rebuilding Ireland Action Plan for Housing and Homelessness 2016;
- (g) The provisions of the Design Manual for Urban Roads and Streets (DMURS) issued by the Department of Transport, Tourism and Sport and the Department of the Environment, Community and Local Government in March 2019, as amended;
- (h) The provisions of the Guidelines for Sustainable Residential Developments in Urban Areas and the accompanying Urban Design Manual, A Best Practice Guide, issued by the Department of the Environment, Heritage and Local Government in May 2009;
- (i) The provisions of the Urban Development and Building Heights Guidelines for Planning Authorities, issued by the Department of Housing, Planning and Local Government in December 2018;
- (j) The provisions of the Sustainable Urban Housing: Design Standards for New Apartments, Guidelines for Planning Authorities issued by the Department of Housing, Planning and Local Government 2020;

- (k) The provisions of the Planning System and Flood Risk Management for Planning Authorities (including the associated Technical Appendices), issued by the Department of the Environment, Heritage and Local Government in 2009;
- (l) The nature, scale and design of the proposed development;
- (m) The availability in the area of a wide range of educational, social, community and transport infrastructure;
- (n) The pattern of existing and permitted development in the area;
- (o) The submissions and observations received;
- (p) The Chief Executive's Report of Dublin City Council;
- (q) The Planning Inspector's Report.

It is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the residential or visual amenities of the area or of property in the vicinity, would respect the existing character of the area and would be acceptable in terms of traffic and pedestrian safety and convenience. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Appropriate Assessment Screening

The Board completed an Appropriate Assessment screening exercise in relation to the potential effects of the proposed development on designated European Sites, taking into account the nature and scale of the proposed development on serviced lands, the nature of the receiving environment which comprises a built-up urban area, the distances to the nearest European Sites and lack of a direct hydrological pathway, the Appropriate Assessment Screening document submitted with the application, the Inspector's report, and submissions on file. In completing the screening exercise, the Board adopted the report of the Inspector and concluded that, by itself or in combination with other development in the vicinity, the proposed development would not be likely to have a significant effect on any European Site in view of the Conservation Objectives of such sites, and that a Stage 2 Appropriate Assessment is not, therefore, required.

Environmental Impact Assessment

The Board completed, in compliance with section 172 of the Planning and Development Act 2000, as amended, an environmental impact assessment of the proposed development, taking into account:

- (a) The nature, scale and extent of the proposed development,
- (b) The Environmental Impact Assessment Report and associated documentation submitted in support of the application,
- (c) The submissions from the applicant, planning authority, the observers, and the prescribed bodies in the course of the application; and
- (d) The Planning Inspector's report.

The Board considered that the Environmental Impact Assessment Report, supported by the documentation submitted by the applicant, adequately identifies and describes the direct, indirect, secondary and cumulative effects of the proposed development on the environment.

The Board agreed with the examination, set out in the Inspector's report, of the information contained in the Environmental Impact Assessment Report and associated documentation submitted by the applicant and submissions made in the course of the planning application.

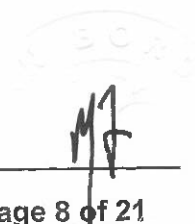

The Board considered and agreed with the Inspector's reasoned conclusions, that the main significant direct and indirect effects of the proposed development on the environment are, and would be mitigated, as follows:

- Significant direct positive effects with regard to population and material assets due to the increase in the housing stock that it would make available in the urban area.
- A significant direct effect on land by the change in the use and appearance of a relatively large area of urban land from open waste ground to residential. Given the location of the site within the built up area of Dublin and the public need for housing in the region, this effect would not have a significant negative impact on the environment.
- Potential significant effects on soil during construction, which will be mitigated by the re-use of some material on the site and the implementation of measures to control emissions of sediment to water and dust to air during construction.
- Potential effects arising from noise and vibration during construction which will be mitigated by appropriate management measures.
- Potential effects on air during construction which will be mitigated by a dust management plan including a monitoring programme.
- Potential indirect effects on water which will be mitigated during the occupation of the development by the proposed system for surface water management and attenuation with respect to stormwater runoff and the drainage of foul effluent to the public foul sewerage system, and which will be mitigated during construction by appropriate management measures to control the emissions of sediment to water.
- A positive effect on the streetscape because the proposed development would improve the amenity of the land through the provision of dedicated public open spaces and improved public realm.

The Board completed an Environmental Impact Assessment in relation to the proposed development and concluded that, subject to the implementation of the mitigation measures set out in the environmental impact assessment report, and subject to compliance with the conditions set out below, the effects on the environment of the proposed development, by itself and in combination with other development in the vicinity, would be acceptable. In doing so, the Board adopted the report and conclusions of the Inspector.

Conclusions on Proper Planning and Sustainable Development

The Board considered that, subject to compliance with the conditions set out below that the proposed development would constitute an acceptable quantum and density of development in this accessible urban location, would not seriously injure the residential or visual amenities of the area, would be acceptable in terms of urban design, height and quantum of development and would be acceptable in terms of pedestrian safety. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area. In coming to this conclusion, specific regard was had to the Chief Executive's Report from the planning authority.

A faint circular stamp of the Planning Board is visible in the bottom right corner. Overlaid on the stamp is a handwritten signature in black ink.

Conditions

1. The proposed development shall be carried out and completed in accordance with the plans and particulars lodged with the application except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars. In default of agreement, such issues may be referred to An Bord Pleanála for determination.

Reason: In the interest of clarity.

2. The mitigation and monitoring measures outlined in Chapter 15 of the Environmental Impact Assessment Report submitted with this application, shall be carried out in full, except where otherwise required by conditions attached to this permission.

Reason: To protect the environment.

3. The developer shall comply with all requirements of the planning authority in relation to roads, access, cycling infrastructure and parking arrangements. In particular:

The roads and footpaths shall be constructed in accordance with the planning authority's standards for taking in charge.

Reason: In the interests of traffic, cyclist and pedestrian safety and to protect residential amenity.

4. The development shall be carried out on a phased basis, in accordance with a phasing scheme which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of any development. Specifically, the existing overhead power lines that run adjacent to the railway line are to be relocated underground with the removal of the central pylon structure as part of Phase 1 of this permission. The applicant shall submit a revised Phasing Management and Delivery report, outlining details of works proposed and also to include these specific works as part of Phase 1.

Reason: To ensure the timely provision of services, for the benefit of the occupants of the proposed dwellings.

5. Prior to the commencement of development, the developer shall submit for the written agreement of the planning authority the details and schedule of works adjacent to the railway line that address the matters referred to by Irish Rail in their submission on this application dated 24th January 2022. Any works associated with the proposed development including boundary treatments and landscaping shall ensure that the integrity of the railway line is maintained.

Reason: To protect the railway and in the interests of public safety.

6. The streets that are constructed and or completed on foot of this permission shall comply with the standards and specifications set out in the Design Manual for Urban Roads and Streets (DMURS) issued by the Department of Transport, Tourism and Sport and the Department of the Environment, Community and Local Government in March 2019, as amended. All streets shall be local streets as set out in section 3.2.1 of (DMURS), whose carriageway shall not exceed 5.5 metres in width. Where perpendicular parking is provided on those streets the additional width required for vehicles to manoeuvre shall be incorporated into the spaces in accordance with figure 4.82 of (DMURS).

Reason: In the interests of road safety and to ensure that the streets in the authorised development facilitate movement by sustainable transport modes in accordance with the applicable standards set out in the (DMURS).

7. Details of any alterations to the road and pedestrian network serving the proposed development, including loading areas, footpaths, kerbs and access road to the underground car park shall be in accordance with the detailed construction standards of the planning authority for such works and design standards outlined in the provisions of the Design Manual for Urban Roads and Streets (DMURS) issued by the Department of Transport, Tourism and Sport and the Department of the Environment, Community and Local Government in March 2019, as amended. In default of agreement the matter(s) in dispute shall be referred to An Bord Pleanála for determination.

Reason: In the interests of amenity and of traffic and pedestrian safety.

8. All roads and footpaths shown connecting to adjoining lands shall be constructed up to the boundaries to provide access to adjoining lands. These areas shall be shown for taking in charge in a drawing to be submitted and agreed with the planning authority.

Reason: In the interests of permeability and proper planning and sustainable development.

9. Details of the materials, colours and textures of all the external finishes to the proposed dwellings and buildings shall be as submitted with the application, unless otherwise agreed in writing with, the planning authority prior to commencement of development. In default of agreement the matter(s) in dispute shall be referred to An Bord Pleanála for determination.

Reason: In the interest of visual amenity.

10. All plant including extract ventilation systems and refrigerator condenser units shall be sited in a manner so as not to cause nuisance at sensitive locations due to odour or noise. All mechanical plant and ventilation inlets and outlets shall be sound insulated and or fitted with sound attenuators to ensure that noise levels do not pose a nuisance at noise sensitive locations.

Reason: In the interest of residential amenity.

11. No advertisement or advertisement structure other than those shown on the plans and particulars submitted with the application shall be erected or displayed on the building or within the curtilage of the site in such a manner as to be visible from outside the building, unless authorised by a further grant of planning permission.

Reason: In the interest of visual amenity.

12. Proposals for an estate and street name, apartment numbering scheme and associated signage shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Thereafter, all estate and street signs, and unit numbers, shall be provided in accordance with the agreed scheme. The proposed name(s) shall be based on local historical or topographical features, or other alternatives acceptable to the planning authority. No advertisements or marketing signage relating to the name(s) of the development shall be erected until the developer has obtained the planning authority's written agreement to the proposed name(s).

Reason: In the interests of legibility and to ensure the use of locally appropriate place names for new residential areas.

13. Public lighting shall be provided in accordance with a scheme, which shall include lighting along pedestrian routes through open spaces details of which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development or installation of lighting. Such lighting shall be provided prior to the making available for occupation of any house.

Reason: In the interests of amenity and public safety.

14. All service cables associated with the proposed development such as electrical, telecommunications and communal television shall be located underground. Ducting shall be provided by the developer to facilitate the provision of broadband infrastructure within the proposed development. All existing over ground cables shall be relocated underground as part of the site development works.

Reason: In the interests of visual and residential amenity.

15. (a) Prior to the opening and occupation of the development, a Mobility Management Strategy shall be submitted to and agreed in writing with the planning authority. This shall provide for incentives to encourage the use of public transport, cycling, walking and carpooling by residents and occupants and staff employed in the development and to reduce and regulate the extent of parking. The mobility strategy shall be prepared and implemented by the management company for all units within the development.
- (b) The Mobility Management Strategy shall incorporate a Car Parking Management Strategy for the overall development, which shall address the management and assignment of car spaces to residents and uses over time and shall include a strategy for any car-share parking. Car parking spaces shall not be sold with units but shall be assigned and managed in a separate capacity via leasing or permit arrangements.
- (c) The number and arrangement of car parking spaces assigned to the Aspect Hotel shall amount to 75 number car spaces and shall be clearly set on a layout drawing that also indicates a clear and simple waymarking strategy for patrons of the hotel, these items shall be submitted to the planning authority for written approval prior to the commencement of development.

Reason: In the interests of encouraging the use of sustainable modes of transport, traffic and pedestrian safety.

16. A minimum of 10% of all car parking spaces should be provided with electric vehicle charging stations or points, and ducting shall be provided for all remaining car parking spaces facilitating the installation of electric vehicle charging points or stations at a later date. Where proposals relating to the installation of electric vehicle ducting and charging stations or points has not been submitted with the application, in accordance with the above noted requirements, the developer shall submit such proposals which shall be submitted and agreed in writing with the planning authority prior to the occupation of the development.

Reason: To provide for and or future proof the development such as would facilitate the use of electric vehicles.

17. Electric charging facilities shall be provided for bicycle parking and proposals shall be submitted to and agreed in writing with the planning authority prior to the occupation of the development.

Reason: In the interests of orderly development and to provide for and future proof the development as would facilitate the use of electric bicycles.

18. Drainage arrangements including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services. Prior to commencement of development the developer shall submit to the planning authority for written agreement a Stage 2 - Detailed Design Stage Storm Water Audit. Upon Completion of the development, a Stage 3 Completion Stormwater Audit to demonstrate Sustainable Urban Drainage System measures have been installed and are working as designed and that there has been no misconnections or damage to storm water drainage infrastructure during construction, shall be submitted to the planning authority for written agreement.

Reason: In the interests of public health and surface water management.

19. Prior to commencement of development, the developer shall enter into water and wastewater connection agreement(s) with Irish Water.

Reason: In the interest of public health.

20. The site shall be landscaped in accordance with the detailed comprehensive scheme of landscaping, which accompanied the application submitted, unless otherwise agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of residential and visual amenity.

21. The developer shall facilitate the preservation, recording and protection of archaeological materials or features that may exist within the site. In this regard, the developer shall -

- (a) notify the planning authority in writing at least four weeks prior to the commencement of any site operation including hydrological and geotechnical investigations relating to the proposed development,
- (b) employ a suitably qualified archaeologist who shall monitor all site investigations and other excavation works, and
- (c) provide arrangements, acceptable to the planning authority, for the recording and for the removal of any archaeological material which the authority considers appropriate to remove.

In default of agreement on any of these requirements, the matter shall be referred to An Bord Pleanála for determination.

Reason: In order to conserve the archaeological heritage of the site and to secure the preservation and protection of any remains that may exist within the site.

A handwritten signature in black ink is written over a faint, circular official stamp of An Bord Pleanála. The stamp contains the text 'AN BORD PLEANÁLA' around the perimeter.

22. A plan containing details for the management of waste and, in particular, recyclable materials within the development, including the provision of facilities for the storage, separation and collection of the waste and, in particular, recyclable materials and for the ongoing operation of these facilities for each apartment unit shall be submitted to, and agreed in writing with, the planning authority not later than six months from the date of commencement of the development. Thereafter, the waste shall be managed in accordance with the agreed plan.

Reason: In the interest of residential amenity, and to ensure the provision of adequate refuse storage.

23. The construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including:

- (a) Location of the site and materials compound(s) including area(s) identified for the storage of construction refuse;
- (b) Location of areas for construction site offices and staff facilities;
- (c) Details of site security fencing and hoardings;
- (d) Details of on-site car parking facilities for site workers during the course of construction;
- (e) Details of the timing and routing of construction traffic to and from the construction site and associated directional signage, to include proposals to facilitate the delivery of abnormal loads to the site;
- (f) Measures to obviate queuing of construction traffic on the adjoining road network;
- (g) Measures to prevent the spillage or deposit of clay, rubble or other debris on the public road network;

- (h) Alternative arrangements to be put in place for pedestrians and vehicles in the case of the closure of any public road or footpath during the course of site development works;
- (i) Details of appropriate mitigation measures for noise, dust and vibration, and monitoring of such levels;
- (j) Containment of all construction-related fuel and oil within specially constructed bunds to ensure that fuel spillages are fully contained. Such bunds shall be roofed to exclude rainwater;
- (k) Off-site disposal of construction and demolition waste and details of how it is proposed to manage excavated soil;
- (l) Means to ensure that surface water run-off is controlled such that no silt or other pollutants enter local surface water sewers or drains.
- (m) A record of daily checks that the works are being undertaken in accordance with the Construction Management Plan shall be kept for inspection by the planning authority.
- (n) alternative arrangements to be put in place for pedestrians, cyclists and vehicles in the case of the closure of any public road or footpath during the course of site development works and the maintenance of access to Park West and Cherry Orchard Railway Station at all times;

Reason: In the interest of amenities, public health and safety.

24. Site development and building works shall be carried out only between 0700 to 1900 hours Mondays to Fridays inclusive and 0800 to 1400 hours on Saturdays, and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

25. The management and maintenance of the proposed development following its completion shall be the responsibility of a legally constituted management company, or by the planning authority in the event of the development being taken in charge. Detailed proposals in this regard shall be submitted to, and agreed in writing with, the planning authority prior to occupation of the development.

Reason: To ensure the satisfactory completion and maintenance of this development.

26. Prior to commencement of development, the applicant or other person with an interest in the land to which the application relates shall enter into an agreement in writing with the planning authority in relation to the provision of housing in accordance with the requirements of section 94(4) and section 96(2) and (3) (Part V) of the Planning and Development Act 2000, as amended, unless an exemption certificate shall have been applied for and been granted under section 97 of the Act, as amended. Where such an agreement is not reached within eight weeks from the date of this order, the matter in dispute other than a matter to which section 96(7) applies may be referred by the planning authority or any other prospective party to the agreement to An Bord Pleanála for determination.

Reason: To comply with the requirements of Part V of the Planning and Development Act 2000, as amended, and of the housing strategy in the development plan of the area.

27. Prior to commencement of development, the developer shall lodge with the planning authority a cash deposit, a bond of an insurance company, or other security to secure the provision and satisfactory completion and maintenance until taken in charge by the planning authority of roads, footpaths, watermains, drains, public open space and other services required in connection with the development, coupled with an agreement empowering the planning authority to apply such security or part thereof to the satisfactory completion or maintenance of any part of the development. The form and amount of the security shall be as agreed between the planning authority and the developer or, in default of agreement, shall be referred to An Bord Pleanála for determination.

Reason: To ensure the satisfactory completion and maintenance of the development until taken in charge.

28. Prior to commencement of development, the developer shall lodge with the planning authority a cash deposit, a bond of an insurance company, or other security to secure the reinstatement of public roads which may be damaged by the transport of materials to the site, to secure the provision and satisfactory completion of roads, footpaths, watermains, drains, open space and other services required in connection with the development, coupled with an agreement empowering the planning authority to apply such security or part thereof to the satisfactory completion of any part of the development. The form and amount of the security shall be as agreed between the planning authority and the developer or, in default of agreement, shall be referred to An Bord Pleanála for determination.

Reason: To ensure the satisfactory completion of the development.

A handwritten signature in black ink is written over a faint circular stamp. The stamp contains the letters 'B C A' in a circular arrangement. The signature is stylized and appears to be 'M J'.

29. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions for Dublin City Council of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

Michelle Fagan

Member of An Bord Pleanála
duly authorised to authenticate
the seal of the Board.

Dated this 16th day of June 2022
