Board Order
ABP-312844-22

Planning and Development Acts 2000 to 2021

Planning Authority: Wicklow County Council

Planning Register Reference Number: 21/840

Appeal by Peter King and Milltown Construction care of Farry Town Planning Limited of Suite 180, 28 South Frederick Street, Dublin against the decision made on the 27th day of January, 2022 by Wicklow County Council to refuse permission for the proposed development.

Proposed Development: (a) 19 number dwellings comprising 10 number (113 square metres) three bedroom dormer bungalows, seven number (138 square metres) four bedroom dormer bungalows and two number (102 square metres) three bedroom dormer bungalows, (b) new pedestrian links, (c) new vehicular entrance off R752, (d) connection to all public services and (e) all necessary ancillary and site works to facilitate the above site at Ballymanus Lower and Ballyfree East, Glenealy, County Wicklow. The proposed development was revised by the further public notices received by the planning authority on the 5th day of January, 2022.

MH

Decision

GRANT permission for the above proposed development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.

Reasons and Considerations

The Wicklow County Development Plan 2022 to 2028 designates Glenealy as a level 7 rural village that is characterised as having a moderate level of existing infrastructural services and capable of accommodating a moderate amount of new housing. The application site is within the designated development boundary of Glenealy village and would constitute a reasonable expansion to the housing stock in the village. It is considered, subject to compliance with the conditions set out below, that the proposed development would be acceptable in terms of foul effluent treatment, would not give rise to traffic hazard and would not seriously injure the residential amenity or depreciate the value of property in the vicinity. The proposed development would, therefore, be in accordance with the provisions of the Wicklow County Development Plan and with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars submitted on the 7th day of December, 2021, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development, and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. The number of houses granted by this permission is 20 number.

Reason: In the interest of clarity.

3. The developer shall enter into water and wastewater connection agreements with Uisce Éireann, prior to commencement of development.

Reason: In the interests of clarity and public health.

4. Drainage arrangements including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interests of public health and surface water management.

5. The road works on the R752 as shown on drawing reference number CIV-02A, dated the 30th day of November 2021, shall be agreed in writing with the planning authority prior to the commencement of development.

Reason: In the interest of road safety.

6. The internal road and vehicular circulation network serving the proposed development, including turning bays, junctions, parking areas, footpaths, and kerbs shall be in accordance with the detailed construction standards of the planning authority for such works and design standards outlined in the Design Manual for Urban Roads and Streets. Drawings and particulars showing compliance with these requirements shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interests of amenity and of traffic and pedestrian safety.

7. Public lighting shall be provided in accordance with a scheme, which shall include lighting along pedestrian routes through open spaces, details of which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Such lighting shall be provided prior to the making available for occupation of any house.

Reason: In the interests of amenity and public safety.

8. (a) All rear gardens shall be bounded by block walls, 1.8 metres in height, capped, and rendered, on both sides, to the written satisfaction of the planning authority.
(b) Details of all other boundaries within the site shall be submitted to, and agreed in writing with, the planning authority.

Reason: In the interests of residential and visual amenity.

9. Details of the materials, colours and textures of all the external finishes to the proposed development shall be submitted for the written agreement of the planning authority, prior to commencement of development.

Reason: In the interest of visual amenity.

10. The site shall be landscaped in accordance with the detailed scheme of landscaping, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. The scheme shall include provisions for hard and soft landscaping within the site, boundary treatments and includes measures for the protection of trees within and adjoining the site.

Reason: In order to ensure the satisfactory completion of the development.

11. The areas of public open space shown on the lodged plans shall be reserved for such use and shall be contoured, soiled, seeded, and landscaped in accordance with the detailed requirements of the planning authority. This work shall be completed before any of the dwellings are made available for occupation and shall be maintained as public open space by the developer until taken in charge by the local authority.

Reason: In order to ensure the satisfactory development of the public open space areas, and their continued use for this purpose.

12. The developer shall facilitate the preservation, recording and protection of archaeological materials or features that may exist within the site. In this regard, the developer shall employ a suitably qualified archaeologist who shall monitor all site investigations and other excavation works.

Reason: In order to conserve the archaeological heritage of the site and to secure the preservation and protection of any remains that may exist within the site.

13. Proposals for an estate/street name, house numbering scheme and associated signage shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Thereafter, all estate and street signs, and house numbers, shall be provided in accordance with the agreed scheme. No advertisements/marketing signage relating to the name(s) of the development shall be erected until the developer has obtained the planning authority's written agreement to the proposed name(s).

Reason: In the interest of urban legibility.

14. Prior to the commencement of development, the developer shall submit to the planning authority for written agreement, details demonstrating how the requirements regarding Housing Occupancy as set out in the Wicklow County Development Plan 2022-2028, Chapter 4, Settlement Strategy, for Level 7 Villages (type 1) are being met.

Reason: In the interests of amenity and public safety.

15. All service cables associated with the proposed development (such as electrical, telecommunications and communal television) shall be located underground. The cables shall avoid roots of trees and hedgerows to be retained in the site. Ducting shall be provided by the developer to facilitate the provision of broadband infrastructure within the proposed development.

Reason: In the interests of visual and residential amenity.

16. A plan containing details for the management of waste within the development, including the provision of facilities for the storage, separation and collection of the waste and, in particular, recyclable materials shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Thereafter, the waste shall be managed in accordance with the agreed plan.

Reason: To provide for the appropriate management of waste and, in particular recyclable materials, in the interest of protecting the environment.

17. Prior to the commencement of development, the developer or any agent acting on its behalf, shall prepare a Resource Waste Management Plan (RWMP) as set out in the EPA's Best Practice Guidelines for the Preparation of Resource and Waste Management Plans for Construction and Demolition Projects (2021) including demonstration of proposals to adhere to best practice and protocols. The RWMP shall include specific proposals as to how the RWMP will be measured and monitored for effectiveness; these details shall be placed on the file and retained as part of the public record. The RWMP must be submitted to the planning authority for written agreement prior to the commencement of development. All records (including for waste and all resources) pursuant to the agreed RWMP shall be made available for inspection at the site office at all times.

Reason: In the interest of sustainable waste management.

18. The construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including:
- (a) location of the site and materials compounds including areas identified for the storage of construction refuse, areas for construction site offices and staff facilities, site security fencing and hoardings and car parking facilities for site workers during the course of construction,
 - (b) the timing and routing of construction traffic to and from the construction site and associated directional signage, to include proposals to facilitate the delivery of abnormal loads to the site, measures to obviate queuing of construction traffic on the adjoining road network and measures to prevent the spillage or deposit of clay, rubble or other debris on the public road network,
 - (c) details of the implementation of appropriate mitigation measures for noise, dust and vibration, and monitoring of such levels,
 - (d) means to ensure that surface water run-off is controlled such that no silt or other pollutants enter local surface water sewers or drains. The measures detailed in the construction management plan shall have regard to guidance on the protection of fisheries during construction works prepared by Inland Fisheries Ireland.

A record of daily checks that the works are being undertaken in accordance with the Construction Management Plan shall be kept for inspection by the planning authority.

Reason: In the interests of amenities, public health and safety.

19. Site development and building works shall be carried out only between the hours of 0700 to 1900 Mondays to Saturdays inclusive, and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

20. Prior to commencement of development, the developer shall lodge with the planning authority a cash deposit, a bond of an insurance company, or other security to secure the provision and satisfactory completion and maintenance until taken in charge by the local authority of roads, footpaths, watermains, drains, public open space and other services required in connection with the development, coupled with an agreement empowering the local authority to apply such security or part thereof to the satisfactory completion or maintenance of any part of the development. The form and amount of the security shall be as agreed between the planning authority and the developer or, in default of agreement, shall be referred to An Bord Pleanála for determination.

Reason: To ensure the satisfactory completion and maintenance of the development until taken in charge

21. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

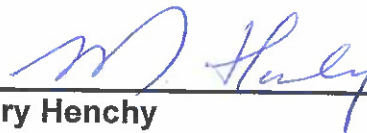

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

22. Prior to commencement of development, the applicant or other person with an interest in the land to which the application relates shall enter into an agreement in writing with the planning authority in relation to the provision of housing in accordance with the requirements of section 94(4) and section 96(2) and (3) (Part V) of the Planning and Development Act 2000, as amended, unless an exemption certificate shall have been applied for and been granted under section 97 of the Act, as amended. Where such an agreement is not reached within eight weeks from the date of this order, the matter in dispute (other than a matter to which section 96(7) applies) may be referred by the planning authority or any other prospective party to the agreement to An Bord Pleanála for determination.

Reason: To comply with the requirements of Part V of the Planning and Development Act 2000, as amended, and of the housing strategy in the development plan of the area.

23. Prior to the commencement of any house or duplex unit in the development as permitted, the applicant or any person with an interest in the land shall enter into an agreement with the planning authority (such agreement must specify the number and location of each house or duplex unit), pursuant to Section 47 of the Planning and Development Act 2000, as amended, that restricts all houses and duplex units permitted, to first occupation by individual purchasers i.e. those not being a corporate entity, and/or by those eligible for the occupation of social and/or affordable housing, including cost rental housing.

Reason: To restrict new housing development to use by persons of a particular class or description in order to ensure an adequate choice and supply of housing, including affordable housing, in the common good.
