Board Order
ABP-314046-22

Planning and Development Acts 2000 to 2021

Planning Authority: Donegal County Council

Planning Register Reference Number: 22/50700

Appeal by Edward Gallagher care of Galetch Energy Services of Clondargan, Stradone, County Cavan against the decision made on the 13th day of June, 2022 by Donegal County Council to refuse permission for the proposed development.

Proposed Development: The erection of a meteorological mast, with a maximum height of 100 metres, for the purpose of measuring and recording meteorological data and all associated site development and reinstatement works. The operational lifetime of the proposed development will be up to five years, at Meenlecknalore, County Donegal.

Decision

GRANT permission for the above proposed development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.

Reasons and Considerations

Having regard to national policy relating to the development of sustainable energy sources and the overarching policies of the planning authority as set out in the Donegal County Development Plan 2018-2024, including Policy E-P-2 which seeks to facilitate the appropriate development of renewable energy from a variety of sources, and having regard to the nature, scale and temporary nature of the development, it is considered that, subject to compliance with the conditions set out below, the proposed development of a meteorological mast at this location would not seriously injure the visual amenities of the area or the amenities of property in the vicinity. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to the commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. This permission shall apply for a period of five years from the date of this Order. The meteorological mast and ancillary structures shall then be removed unless, prior to the end of the period, planning permission shall have been granted for their retention for a further period.

Reason: To enable the impact of the development to be reassessed, having regard to changes in technology and design during the specified period.

3. (a) The site shall be reinstated on removal of the meteorological mast and ancillary structures. Details relating to the removal and reinstatement shall be submitted to, and agreed in writing with, the planning authority prior to the commencement of development.
- (b) In the event of the meteorological mast becoming obsolete and being decommissioned, the developer shall at their own expense, remove the structure and restore the site to its original condition.

Reason: In the interest of orderly development.

4. (a) A fixed red obstacle light shall be fitted as close to the top of the mast as practicable and shall be visible from all angles in azimuth. Details of this light, its location and period of operation shall be submitted to, and agreed in writing with, the planning authority, the Department of Defence and the Irish Aviation Authority prior to commencement of development.

- (b) The developer shall contact the Irish Aviation Authority of the intention to commence crane operations with at least 30 days prior notification of the erection of the mast and to provide as constructed coordinates in WGS84 format, together with ground and tip height elevations to the Authority.

Reason: In the interests of public and aviation safety.

5. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under Section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under Section 48 of the Act be applied to the permission.

6. Prior to commencement of development, the developer shall lodge with the planning authority a cash deposit, a bond of an insurance company, or such other security as may be acceptable to the planning authority, to secure the satisfactory reinstatement of the site upon cessation of the project, coupled with an agreement empowering the planning authority to apply such security or part thereof to such reinstatement, including all necessary demolition and removal. The form and amount of the security shall be agreed between the planning authority and the developer, or in default of agreement, shall be referred to An Bord Pleanála for determination.

Reason: To ensure the satisfactory reinstatement of the site.
