## Board Order ABP-314589-22

---

### Planning and Development Acts, 2000 to 2022

#### Planning Authority: Cork County Council

**Application** by Cork County Council for approval under section 177AE of the Planning and Development Act 2000, as amended, in accordance with plans and particulars, including a Natura Impact Statement, lodged with An Bord Pleanála on the 1<sup>st</sup> day of September, 2022.

**Proposed Development:** To construct a replacement to the existing Farnanes Bridge across the River Bandon. The proposed development will consist of the following:

- Demolition of the existing Farnanes Bridge,
- Construction of a replacement bridge with concrete foundations, precast concrete portal frame culvert bridge, steel parapets,
- Installation of a vehicle restraint system,
- Resurfacing of the approach roads along the L4612.

All in the townlands of Farnane and Dromdrasdil, Dunmanway, County Cork.

## Decision

**Approve the above proposed development based on the reasons and considerations under and subject to the conditions set out below.**

### Reasons and Considerations

In coming to its decision, the Board had regard to the following:

- (a) the European Union Habitats Directive (92/43/EEC),
- (b) the European Communities (Birds and Natural Habitats) Regulations 2011 (as amended),
- (c) the likely consequences for the environment and the proper planning and sustainable development of the area in which it is proposed to carry out the proposed development and the likely significant effects of the proposed development on a European Site,
- (d) the conservation objectives and qualifying interests for Bandon River Special Area of Conservation (Site Code: 002171),
- (e) the policies and objectives of the Cork County Development Plan 2022-2028,
- (f) the nature and extent of the proposed works as set out in the application for approval,
- (g) the information submitted in relation to the potential impacts on habitats, flora, and fauna, including the Natura Impact Statement, and,
- (h) the report and recommendation of the person appointed by the Board to make a report and recommendation on the matter.

**Appropriate Assessment: Stage 1:**

The Board agreed with and adopted the screening assessment and conclusion carried out in the Inspector's report that Bandon River Special Area of Conservation (Site Code: 002171) is the only European Site in respect of which the proposed development has the potential to have a significant effect.

**Appropriate Assessment: Stage 2:**

The Board considered the Natura Impact Statement and associated documentation submitted with the application for approval, the mitigation measures contained therein, and the Inspector's assessment. The Board completed an appropriate assessment of the implications of the proposed development for the affected European Site, namely Bandon River Special Area of Conservation (Site Code: 002171), in view of the Site's conservation objectives. The Board considered that the information before it was adequate to allow the carrying out of an appropriate assessment. In completing the appropriate assessment, the Board considered, in particular, the following:

- i. the likely direct and indirect impacts arising from the proposed development both individually or in combination with other plans or projects,
- ii. the mitigation measures which are included as part of the current proposal, and,
- iii. the conservation objectives for the European Site.

In completing the appropriate assessment, the Board accepted and adopted the appropriate assessment carried out in the Inspector's report in respect of the potential effects of the proposed development on the integrity of the aforementioned European Site, having regard to the Site's conservation objectives.

In overall conclusion, the Board was satisfied that the proposed development, by itself or in combination with other plans or projects, would not adversely affect the integrity of the European Site, in view of the Site's conservation objectives.

**Proper Planning and Sustainable Development/Likely effects on the environment:**

It is considered that, subject to compliance with the conditions set out below, the proposed development would not have significant negative effects on the environment or the community in the vicinity, would not give rise to a risk of pollution, would not be detrimental to the visual or landscape amenities of the area, would not adversely impact on the cultural, archaeological, and built heritage of the area, would not interfere with the existing land uses in the area, and would improve the standard and safety of the public road. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

**CONDITIONS**

1. The proposed development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where any mitigation measures set out in the Natura Impact Statement or any conditions of approval require further details to be prepared by or on behalf of the local authority, these details shall be placed on the file and retained as part of the public record.

**Reason:** In the interests of clarity and the proper planning and sustainable development of the area, and to ensure the protection of the environment.

2. The mitigation and monitoring measures outlined in the plans and particulars relating to the proposed development, including those set out in section 7 of the Natura Impact Statement and section 6 of the Ecological Impact Statement, shall be implemented in full or as may be required in order to comply with the following conditions. Prior to the commencement of development details of a time schedule for implementation of mitigation measures and associated monitoring shall be prepared by the local authority and placed on file and retained as part of the public record.

**Reason:** In the interest of protecting the environment and European Sites, and in the interest of public health.

3. Prior to the commencement of development, the local authority, or any agent acting on its behalf, shall prepare in consultation with the relevant statutory agencies, a Construction Environmental Management Plan (CEMP), incorporating all mitigation measures indicated in the Natura Impact Statement and Ecological Impact Assessment and demonstration of proposals to adhere to best practice and protocols.

**Reason:** In the interest of protecting the environment.

4. Prior to the commencement of development, details of measures to protect fisheries and water quality of the river systems shall be outlined and placed on file. Full regard shall be had to Inland Fisheries Ireland's published guidelines for construction works near waterways (Guidelines on Protection of Fisheries during Construction Works in and Adjacent to Waters, 2016). A programme of water quality monitoring shall be prepared in consultation with the contractor, the local authority, and relevant statutory agencies and the programme shall be implemented thereafter.

**Reason:** In the interests of the protecting of receiving water quality, fisheries, and aquatic habitats.

5. Plant and machinery used during the works shall be thoroughly cleaned and washed before delivery to the site to prevent the spread of hazardous invasive species and pathogens.

**Reason:** In the interest of the proper planning and sustainable development of the area and to ensure the protection of the European Site.

6. A suitably qualified ecologist shall be retained by the local authority to oversee the site set up and construction of the proposed development and implementation of mitigation measures relating to ecology. The ecologist shall be present during construction works. Upon completion of works, an ecological report of the site works shall be prepared by the appointed ecologist to be kept on file as part of the public record.

**Reason:** In the interest of nature conservation and the protection of terrestrial and aquatic biodiversity.

**Stephen Brophy**  
**Member of An Bord Pleanála**  
**duly authorised to authenticate**  
**the seal of the Board.**
