Proposed Development: The installation of a 36 metres lattice support structure carrying telecommunications equipment including antennas and dishes, together with associated equipment cabin, cabinet, fencing, access gate and all associated site development works at Lugboy, Taughmaconnell, County Roscommon. The development will provide for high speed wireless data and broadband services.

Decision

REFUSE permission for the above proposed development in accordance with the reasons and considerations set out below.

PM

Reasons and Considerations

Having regard to: -

- (a) the guidelines relating to telecommunications antennae and support structures which were issued by the Department of the Environment and Local Government to Planning Authorities in July, 1996, and
- (b) the absence of information to demonstrate reasonable effort to share/co-locate on the subject site,

it is considered that, the proposed development is premature, speculative and inconsistent with the government's guidelines. The proposed development would, therefore, be contrary to the proper planning and sustainable development of the area.
