MA

Reasons and Considerations

Having regard to the provisions of the National Planning Framework (2018), the Clare County Development Plan 2017-2023 (as varied), the Telecommunications Antennae and Support Structures – Guidelines for Planning Authorities, 1996 and associated Circular Letter PL07/12, the existing use and UT2 Utilities zoning provision for the site, and the nature and scale of the proposed development, it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the residential or visual amenities of the area, including views from the designated Scenic Route along the R352 Regional Road. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The proposed development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars received by the planning authority on the 27th day of August, 2022, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the proposed development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. Prior to commencement of development, details of the proposed colour scheme for the telecommunications structure and ancillary structures shall be submitted to, and agreed in writing with, the planning authority.

Reason: In the interest of the visual amenities of the area.

3. No advertisement or advertisement structure shall be erected or displayed on the proposed structure or its appendages or within the curtilage of the site without a prior grant of planning permission.

Reason: In the interest of the visual amenities of the area.

4. Surface water drainage arrangements for the proposed development shall comply with the requirements of the planning authority.

Reason: In the interest of public health.

5. (a) In the event of the proposed structure becoming obsolete and being decommissioned, the developer shall, at its own expense, remove the mast, antenna and ancillary structures and equipment.
- (b) The site shall be reinstated upon the removal of the telecommunication structure and ancillary structures. Details of the reinstatement shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of orderly development.

6. The developer shall provide and make available at reasonable terms the proposed support structure for the provision of mobile telecommunications antenna of third-party licenced telecommunications operators.

Reason: To avoid a multiplicity of telecommunications structures in the area, in the interest of visual amenity, and proper planning and sustainable development.

7. Site development and building works shall be carried out only between the hours of 0800 to 1800 Mondays to Fridays, inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays or public holidays. Deviation from these times shall only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.
