Decision

GRANT permission for the above development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.

Reasons and Considerations

Having regard to the nature of the extensions and alterations proposed to be retained, the existing longstanding restaurant business on the site, the existing entrance to the site from the N71, the location of the flagpoles in relation to the national road carriageway, the existing signage and vegetation in the vicinity, the policies of the current development plan for the area and the Spatial Planning and National Roads Guidelines for Planning Authorities issued by the Department of the Environment, Community and Local Government in January 2012, and national policy on safeguarding the capacity and investment in national roads, it is considered that, subject to compliance with the conditions set out below, the development proposed to be retained would not detract from the existing building, its setting or the surrounding area, and would not endanger public safety by reason of traffic hazard. The development proposed to be retained would, therefore, be in accordance with the proper planning and sustainable development of the area.

Reason: In the interest of visual amenity and to avoid fixtures coming loose and being blown onto the public road, in the interest of public safety.
