Board Order ABP-317133-23

Planning and Development Acts 2000 to 2022

Planning Authority: Wicklow County Council

Planning Register Reference Number: 23/109

Appeal by Carolina Manthei and Ger Loughlin care of BPS Planning and Development Consultants of Ballinatone, Greenan, Wicklow against the decision made on the 2nd day of May, 2023 by Wicklow County Council to grant permission subject to conditions to Chloe and Robert Dunne care of Vincent Cronin of Station Road, Dunlavin, County Wicklow in accordance with plans and particulars lodged with the said Council.

Proposed Development: Single-storey dwelling house, sewerage treatment system, bored well, alterations to existing entrance and all ancillary site works at Griffinstown Glen, Grangecon, County Wicklow.

Decision

GRANT permission for the above proposed development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.

Reasons and Considerations

Having regard to the objectives of the Wicklow County Development Plan 2022 - 2028 and Objective CPO 6.41 which allows for essential rural housing need, it is considered that the applicant comes within the scope of the housing need under multiple criteria and further, satisfies national Policy NPO19 which sets out the requirement for a demonstrable social need. It is considered that subject to compliance with the conditions set out below, the proposed development of a modest detached bungalow can be integrated successfully into the landscape, would not give rise to a public health hazard or traffic hazard and would not have a detrimental impact upon the residential amenities of other dwellings in the area. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The proposed development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the proposed development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. (a) The proposed dwelling, when completed, shall be first occupied as a place of permanent residence by the applicant, members of the applicant's immediate family or their heirs, and shall remain so occupied for a period of at least seven years thereafter unless consent is granted by the planning authority for its occupation by other persons who belong to the same category of housing need as the applicant. Prior to commencement of development, the applicant shall enter into a written

agreement with the planning authority under section 47 of the Planning and Development Act, 2000 to this effect.

- (b) Within two months of the occupation of the proposed dwelling, the applicant shall submit to the planning authority a written statement of confirmation of the first occupation of the dwelling. This condition shall not affect the sale of the dwelling by a mortgagee in possession or the occupation of the dwelling by any person deriving title from such a sale.

Reason: To ensure that the proposed dwelling is used to meet the applicant's stated housing needs and that development in this rural area is appropriately restricted to meeting essential local need in the interest of the proper planning and sustainable development of the area.

- 3. (a) The treatment plant and polishing filter shall be located, constructed and maintained in accordance with the details submitted to the planning authority and in accordance with the requirements of the document entitled "Code of Practice – Domestic Waste Water Treatment Systems (p.e. ≤ 10)" – Environmental Protection Agency, 2021. No system other than the type proposed in the submissions shall be installed unless agreed in writing with the planning authority.
- (b) Certification by the system manufacturer that the system has been properly installed shall be submitted to the planning authority within four weeks of the installation of the system.
- (c) A maintenance contract for the treatment system shall be entered into and paid in advance for a minimum period of five years from the first occupancy of the dwellinghouse and thereafter shall be kept in place at all times. Signed and dated copies of the contract shall be submitted to, and agreed in writing with, the planning authority within four weeks of the installation.

- (d) Surface water soakways shall be located such that the drainage from the dwelling and paved areas of the site shall be diverted away from the location of the polishing filter.
- (e) Within three months of the first occupation of the dwelling, the developer shall submit a report from a suitably qualified person with professional indemnity insurance certifying that the proprietary effluent treatment system has been installed and commissioned in accordance with the approved details and is working in a satisfactory manner and that the polishing filter is constructed in accordance with the standards set out in the Environmental Protection Agency document.

Reason: In the interest of public health.

- 4. The site shall be landscaped, using only indigenous deciduous plants and hedging species, in accordance with details which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Any plants or trees which die, are diseased or damaged shall be replaced within the next planting season with others of similar size and species, unless otherwise agreed in writing with the planning authority.

Reason: In order to screen the development and assimilate it into the surrounding rural landscape, in the interest of visual amenity.

- 5. All public service cables for the development, including electrical and telecommunications cables, shall be located underground throughout the site.

Reason: In the interest of visual amenity.

- 6. Surface water drainage arrangements shall comply with the requirements of the planning authority for such services and works.

Reason: In the interest of public health.

7. Details of the external finishes of the proposed development shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of visual amenity.

8. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to the commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to the Board to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

The image shows a handwritten signature in blue ink, which appears to read 'Tom Rabbette', written over a circular official stamp. The stamp contains the text 'AN BORD PLEANÁLA' around the perimeter and a stylized logo in the center. A horizontal line is drawn across the bottom of the signature and stamp area.
