Board Order ABP-317153-23

Planning and Development Acts, 2000 to 2022

Planning Authority: Tipperary County Council

Application by Tipperary County Council for approval under section 177AE of the Planning and Development Act 2000, as amended, in accordance with plans and particulars, including a Natura Impact Statement, lodged with An Bord Pleanála on the 10th day of May, 2023.

Proposed Development: The remediation of the Tipperary Town closed landfill, to comply with the conditions attached to the closed landfill Certificate of Authorisation (Register Ref: H0004-01) pertaining to the site granted by the Environmental Protection Agency. The proposed development consists of:

- Demolition of existing structures including an existing agricultural building, concrete walls and post and wire fencing.
- Clearance of vegetation and tree felling.
- Grading/Profiling of Existing Profile.
- Installation of an engineered landfill capping system to include: a landfill gas venting system, a linear low-density polyethylene (LLDPE) barrier, a sub-surface drainage system, a geogrid layer, sub-soil and topsoil layers, a surface water drainage system, an access track and a shared access way to adjoining third party lands, fencing, a car park area, temporary works/mitigation measures, security fencing, landfill gas/leachate management infrastructure, landscaping and as anchor trench/gas barrier.

- Temporary site compound for the construction contractor.

All located at Carrownreddy and Spital-Land (ED Tipperary), Tipperary Town, County Tipperary.

Decision

Approve the above proposed development based on the reasons and considerations under and subject to the conditions set out below.

Reasons and Considerations

In coming to its decision, the Board had regard to the following:

- (a) the EU Habitats Directive (92/43/EEC),
- (b) the European Union (Birds and Natural Habitats) Regulations, 2011 (as amended),
- (c) the likely consequences for the environment and the proper planning and sustainable development of the area in which it is proposed to carry out the proposed development and the likely significant effects of the proposed development on European Sites,
- (d) the conservation objectives and qualifying interests for Lower River Suir Special Area of Conservation (Site Code 002137)
- (e) the policies and objectives of the Tipperary Town and Environs Development Plan 2013-2019 and the results of the Strategic Environmental Assessment and Appropriate Assessment of this plan undertaken in accordance with the Strategic Environmental Assessment (SEA) Directive (2001/42/EC)
- (f) the nature and extent of the proposed works as set out in the application for approval,

- (g) the information submitted in relation to the potential impacts on habitats, flora and fauna, including the Natura Impact Statement,
- (h) the submissions received in relation to the proposed development, and,
- (i) the report and recommendation of the person appointed by the Board to make a report and recommendation on the matter.

Appropriate Assessment: Stage 1:

The Board agreed with the screening assessment, appropriate assessment and conclusions contained in the Inspector's report that the Lower River Suir Special Area of Conservation (Site Code: 002137) is a European Site for which there is a likelihood of significant effects.

Appropriate Assessment: Stage 2:

The Board considered the Natura Impact Statement and associated documentation submitted with the application for approval, the mitigation measures contained therein, the submissions on file, and the Inspector's assessment. The Board completed an appropriate assessment of the implications of the proposed development for the affected European Site, namely Lower River Suir Special Area of Conservation (Site Code 002137), in view of the Site's conservation objectives. The Board considered that the information before it was adequate to allow the carrying out of an appropriate assessment. In completing the appropriate assessment, the Board considered, in particular, the following:

- i. the likely direct and indirect impacts arising from the proposed development both individually or in combination with other plans or projects,
- ii. the mitigation measures which are included as part of the current proposal, and,
- iii. the conservation objectives for the European Site

In completing the appropriate assessment, the Board accepted and adopted the appropriate assessment carried out in the Inspector's Report in respect of the potential effects of the proposed development on the integrity of the aforementioned European Site, having regard to the Site's conservation objectives.

In overall conclusion, the Board was satisfied that the proposed development, by itself or in combination with other plans or projects, would not adversely affect the integrity of the European site, in view of the Site's conservation objectives.

Likely Effects on the Environment

It is considered that, subject to compliance with the conditions set out below including requiring compliance with the submitted details and with the mitigation measures, the proposed development would not have significant negative effects on the environment.

Likely Consequences for the Proper Planning and Sustainable Development

It is considered that, subject to compliance with the conditions set out below, the proposed development would be in accordance with the proper planning and sustainable development of the area.

CONDITIONS

1. The proposed development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where any mitigation measures set out in the Natura Impact Statement or any conditions of approval require further details to be prepared by or on behalf of the local authority, these details shall be placed on the file and retained as part of the public record.

Reason: In the interest of clarity and the proper planning and sustainable development of the area and to ensure the protection of the environment.

2. The mitigation and monitoring measures outlined in the plans and particulars relating to the proposed development, shall be implemented in full or as may be required in order to comply with the following conditions. Prior to the commencement of development, details of a time schedule for implementation of mitigation measures and associated monitoring shall be prepared by the local authority and placed on file and retained as part of the public record.

Reason: In the interest of protecting the environment, the protection of European Sites and biodiversity and in the interest of public health.

3. Prior to the commencement of development, the local authority, or any agent acting on its behalf, shall prepare in consultation with the relevant statutory agencies (including Uisce Éireann), a Construction Environmental Management Plan (CEMP), incorporating all mitigation measures set out in the Natura Impact Statement and conditions set out herein. The CEMP shall include a Traffic Management Plan, Waste Management Plan and Invasive Species Management Plan which shall adhere to best practice, standards and protocols. All plans prepared shall be placed on file and retained as part of the public record.

Reason: In the interest of protecting the environment and in the interest of traffic safety and waste management.

4. All conditions attached to the closed landfill certificate of authorisation in respect of management and monitoring shall be fully complied with.

Reason: In order to prevent pollution and to ensure appropriate monitoring of the development.

5. Site development and building works shall be carried out only between the hours of 0800 to 2000 Mondays to Fridays inclusive, between 0800 to 1400

hours on Saturdays and not at all on Sundays or public holidays. Deviation from these times will only be allowed in exceptional circumstances.

Reason: In order to safeguard the amenities of property in the vicinity.

6. A suitably qualified Ecological Clerk of Works shall be retained by the local authority to oversee pre-commencement surveys, the site clearance and construction of the proposed development. The ecologist shall have full access to the site as required and shall oversee the implementation of mitigation measures. Upon completion of works, an ecological report of the site works shall be prepared by the appointed Ecological Clerk of Works to be kept on file as part of the public record.

Reason: In the interests of biodiversity and the protection of European Sites.

7. Prior to the commencement of development further surveys for protected plant and animal species including bats shall be undertaken at the site and where required the appropriate licence to disturb or interfere with same shall be obtained from the National Parks and Wildlife Service. The details of such surveys and licences (if required) shall be placed on the file and retained as part of the public record.

Reason: In the interest of wildlife protection.

8. The local authority and any agent acting on its behalf shall facilitate the preservation, recording, protection or removal of archaeological materials or features that may exist within the site. A suitably qualified archaeologist shall be appointed by the local authority to oversee the site set-up and construction of

the proposed development and the archaeologist shall be present on site during construction works.

Reason: In order to conserve the archaeological heritage of the site and to secure the preservation and protection of any remains that may exist within the site.
