Board Order
ABP-317283-23

Planning and Development Acts 2000 to 2022

Planning Authority: Cork County Council

Planning Register Reference Number: 23/00148

Appeal by Eircom Limited (trading as Eir) care of Charterhouse Infrastructure Consultants of Headquarters, 27 Market Street, Listowel, County Kerry against the decision made on the 11th day of May, 2023 by Cork County Council to refuse permission for the proposed development.

Proposed Development: Retention for the erection of a mounted support pole including an antenna, dish and beacon extending three metres above the exchange roof apex, with associated structures and cables on the gable end of the Eir telephone exchange, all at Eir Exchange, Town Lots, Market Street, Bantry, County Cork.

Decision

GRANT permission for the above development for the reasons and considerations under and subject to the conditions set out below.

Reasons and Considerations

Having regard to:

- (a) the national strategy regarding the provision of mobile communications services,
- (b) the guidelines relating to telecommunications antennae and support structures issued by the Department of the Environment and Local Government to planning authorities in July 1996, as updated by Circular Letter PL/07/12,
- (c) the policy of the planning authority, as set out in the Cork County Development Plan 2022-2028, to support the provision of telecommunications infrastructure, and
- (d) the nature and scale of the telecommunications support structure,

it is considered that, subject to compliance with the conditions set out below, the development proposed to be retained would not be visually intrusive, would not seriously injure the amenities of the area or the residential amenities of properties in the vicinity, would not be prejudicial to public health, and would, therefore, be in accordance with the proper planning and sustainable development of the area.

The Board concurred with the Inspector that the development is a project for the purposes of the Environmental Impact Assessment Directive. However, the Board concluded that the proposed development does not fall within a class of development set out in Part 1 or Part 2 of Schedule 5 to the Planning and Development Regulations 2001, as amended, and therefore no preliminary examination, screening for Environmental Impact Assessment or Environmental Impact Assessment is required.

Conditions

1. The development shall be retained and completed in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars received by the planning authority on the 2nd day of May, 2023, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority and the development shall be retained and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2.
 - (a) Planning permission is granted for a period of six months from the date of decision thereafter the proposed structure will be decommissioned and the developer shall, at their own expense, remove the mast, antenna and ancillary structures and equipment.
 - (b) The site shall be reinstated on removal of the telecommunications structure and ancillary structures. Details relating to the removal and reinstatement shall be submitted to, and agreed in writing with, the planning authority at least one month prior to the removal of the telecommunications structure and ancillary structures and the work shall be completed within three months of the planning authority's approval in writing of these details.

Reason: In the interest of orderly development.

3. The transmitter power output, antenna type and mounting configuration shall be in accordance with the details submitted with the planning application and, notwithstanding the provisions of the Planning and Development Regulations 2001, as amended, and any statutory provision amending or replacing them, shall not be altered without a prior grant of planning permission.

Reason: To clarify the nature and extent of the permitted development to which this permission relates and to facilitate a full assessment of any future alterations

4. No advertisement or advertisement structure shall be erected or displayed on the structure or its appendages or within the curtilage of the site without a prior grant of planning permission.

Reason: In the interest of the visual amenities of the area.

5. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

Liam Bergin

Member of An Bord Pleanála
duly authorised to authenticate
the seal of the Board.

Dated this 10th day of June, 2024.
