Board Order
ABP-319832-24

Planning and Development Acts 2000 to 2022

Planning Authority: Cork County Council

Planning Register Reference Number: 244141

Appeal by Kevin and Marion Delea of Windsor Hill, Killahora, Glouthaune, County Cork against the decision made on the 9th day of May, 2024 by Cork County Council to grant subject to conditions a permission to Lorraine McGrath care of Jay O'Connell of 15 Castleclose, Carrigtwohill, County Cork in accordance with plans and particulars lodged with the said Council:

Proposed Development: Permission to construct a new dwelling house, new vehicular entrance, install a new wastewater treatment unit and percolation area and all associated site works at Johnstown and Killahora, Windsor Hill, Glounthaune, County Cork.

Decision

GRANT permission for the above proposed development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.

Reasons and Considerations

Having regard to the 'Existing Residential/Mixed Residential and Other Uses' zoning of the site under the Cork County Development Plan 2022-2028, where residential development is considered an appropriate use, to the pattern of development in the area and to the design, layout, siting and scale of the proposed development, it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the residential amenities of the area, would not be prejudicial to public health, and would be acceptable in terms of traffic safety. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars received by the planning authority on the 19th day of April 2024, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. (a) The wastewater treatment system hereby permitted shall be installed in accordance with the recommendations included within the site characterisation report submitted with this application and shall be in accordance with the standards set out in the document entitled "Code of Practice - Domestic Waste Water Treatment

Systems (Population Equivalent ≤ 10)" – Environmental Protection Agency, 2021.

- (b) Treated effluent from the wastewater treatment system shall be discharged to a percolation area/polishing filter which shall be provided in accordance with the standards set out in the document entitled "Code of Practice - Domestic Waste Water Treatment Systems (Population Equivalent ≤ 10)" – Environmental Protection Agency, 2021.
- (c) Within three months of the first occupation of the dwelling, the developer shall submit a report to the planning authority from a suitably qualified person (with professional indemnity insurance) certifying that the wastewater treatment system and associated works are constructed and operating in accordance with the standards set out in the Environmental Protection Agency document referred to above.

Reason: In the interest of public health and to prevent water pollution.

- 3. (a) The landscaping scheme shown on drawing number 2024-04, as submitted to the planning authority on the 19th day of April 2024, shall be carried out within the first planting season following substantial completion of external construction works.
- (b) All planting shall be adequately protected from damage until established. Any plants which die, are removed or become seriously damaged or diseased, within a period of five years from the completion of the development, shall be replaced within the next planting season with others of similar size and species, unless otherwise agreed in writing with the planning authority.

Reason: In the interest of residential and visual amenity.

4. All surface water generated within the site boundaries shall be collected and disposed of within the curtilage of the site. No surface water from roofs, paved areas or otherwise shall discharge onto the public road or to adjoining properties.

Reason: In the interest of traffic safety, residential amenity and to prevent flooding.

5. Prior to the commencement of development, the developer shall enter into a Connection Agreement with Uisce Éireann (Irish Water) to provide for a service connection to the public water supply and/or wastewater collection network.

Reason: In the interest of public health and to ensure adequate water/wastewater facilities.

6. Site development and building works shall be carried out only between the hours of 0700 to 1900 Mondays to Friday inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

7. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer, or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
