Board Order
ABP-320762-24

Planning and Development Acts 2000 to 2022

Planning Authority: Dublin City Council

Planning Register Reference Number: WEB1062/24

Appeal by Cormac O'Reilly care of Brock McClure Planning and Development Consultants of 63 York Road, Dun Laoghaire, County Dublin against the decision made on the 13th day of August, 2024 by Dublin City Council to refuse a permission for the proposed development.

Proposed Development: The demolition of an existing single-storey light industrial building (overall height approximately three metres) most recently in use as a building contractor's workshop, offices and store (approximately 82 square metres) and the construction of a new single-storey (overall height approximately 3.7 metres) one bedroom mews type dwelling (approximately 62 square metres); associated private open space, rooflights, two number access gates and all associated landscaping, boundary treatment, site clearance and site development works at 7A Eaton Road, Terenure, Dublin.

Decision

GRANT permission for the above proposed development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.

Reasons and Considerations

Having regard to the grounds of appeal, the reason for the refusal, the residential zoning objective and the policy framework provided by the Dublin City Development Plan 2022-2028, the Board considered that the proposed development would be consistent with Section 15.5.2 of the development plan, and would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application as amended by the further plans and particulars received by the planning authority on the 17th day of July 2024, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. Prior to the commencement of development the developer shall enter into a Connection Agreement (s) with Uisce Éireann (Irish Water) to provide for a service connection(s) to the public water supply and/or wastewater collection network.

Reason: In the interest of public health and to ensure adequate water/wastewater facilities.

3. The disposal of surface water shall comply with the requirements of the planning authority for such works and services. Prior to the commencement of development, the developer shall submit details for the disposal of surface water from the site for the written agreement of the planning authority.

Reason: In the interest of public health.

4. Details of the external finishes of the proposed development shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of visual amenity.

5. Prior to the commencement of development, the developer or any agent acting on its behalf, shall prepare a Resource Waste Management Plan (RWMP) as set out in the EPA's Best Practice Guidelines for the Preparation of Resource and Waste Management Plans for Construction and Demolition Projects (2021) including demonstration of proposals to adhere to best practice and protocols. The RWMP shall include specific proposals as to how the RWMP will be measured and monitored for effectiveness; these details shall be placed on the file and retained as part of the public record. The RWMP must be submitted to the planning authority for written agreement prior to the commencement of development. All records (including for waste and all resources) pursuant to the agreed RWMP shall be made available for inspection at the site office at all times.

Reason: In the interest of proper planning and sustainable development.

6. Site development and building works shall be carried out only between the hours of 0800 to 1900 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In the interests of residential amenity and road safety during the construction stage of the development.

7. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to the commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
