Board Order ABP-321054-24

Planning and Development Acts 2000 to 2022

Planning Authority: Kerry County Council

Planning Register Reference Number: 23/60329

Appeal by Christopher and Christina Slattery of 4 Hill View, Woodlawn, Killarney, County Kerry against the decision made on the 1st day of October, 2024 by Kerry County Council to grant subject to conditions a permission to Cormac Casey care of Reeks Consulting Engineers of Reeks Gateway, Rock Road, Killarney, County Kerry in accordance with plans and particulars lodged with the said Council.

Proposed Development: Construction of two semi-detached dwellinghouses and all ancillary site works, all at Site 5, Hillview, Woodlawn, Killarney, County Kerry.

Decision

GRANT permission for the above proposed development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.

Reasons and Considerations

Having regard to the provisions of the Kerry County Development Plan 2022-2028, including the R2 Residential land use zoning of the site, the infill nature and size of the site and the separation distance from existing dwellings, and the design of the proposed development, it is considered that, subject to compliance with the conditions set out below, the proposed development would be in keeping with the established pattern of development at this location, would not seriously injure the residential or visual amenities of the area or of property in the vicinity, and would be acceptable in terms of traffic safety and convenience. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The proposed development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars received by the planning authority on the 5th day of September, 2024, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the proposed development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. Prior to commencement of development, full details of the proposed boundary treatments shall be submitted to, and agreed in writing with, the planning authority.

Reason: In the interest of residential and visual amenity.

3. Details of the materials, colours and textures of all the external finishes to the proposed development shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of visual amenity.

4. Water supply and drainage arrangements, including the attenuation and disposal of surface water, which shall also provide for appropriate Sustainable Urban Drainage Systems (SuDS), shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health.

5. Prior to commencement of development, the developer shall enter into water and/or wastewater connection agreement(s) with Uisce Éireann to provide for a service connection(s) to the public water supply and/or wastewater collection network.

Reason: In the interest of public health.

6. Notwithstanding the provisions of the Planning and Development Regulations 2001, as amended, no part of the proposed development shall be used for the provision of overnight commercial guest accommodation without a prior grant of planning permission.

Reason: In the interest of orderly development and residential amenity.

7. Proposals for a naming/numbering scheme for the proposed development shall be submitted to, and agreed in writing with, the planning authority prior to the occupation of the development.

Reason: In the interest of urban legibility.

8. All public service cables for the proposed development, including electrical and telecommunications cables, shall be located underground throughout the site.

Reason: In the interest of visual amenity.

9. Site development and building works shall be carried out only between 0700 to 1900 hours Mondays to Fridays, inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays or public holidays. Deviation from these times shall only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

10. Prior to commencement of development, the developer, or any agent acting on its behalf, shall submit an invasive species management plan to the planning authority, which includes details of a pre-construction survey to be carried out. The plan shall include full details of the eradication of such invasive species from the development site prior to construction, or if discovered, during construction as soon as is practicably possible.

Reason: In the interest of environmental protection.

11. The construction of the proposed development shall be managed in accordance with a Construction and Environmental Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the proposed development, including noise and dust management measures, waste management and recycling of materials, environmental protection measures, welfare facilities, site deliveries, complaints procedure, pest control and traffic management arrangements.

Reason: In the interest of public safety, environmental protection, and residential amenity.

12. A detailed construction traffic management plan shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. The plan shall include details of arrangements for routes for construction traffic, parking during the construction phase, the location of the compound for storage of plant and machinery and the location for storage of deliveries to the site.

Reason: In the interest of sustainable transport and safety.

13. Prior to commencement of development, a Resource Waste Management Plan (RWMP) as set out in the EPA's Best Practice Guidelines for the Preparation of Resource and Waste Management Plans for Construction and Demolition Projects (2021) shall be prepared and submitted to the planning authority for written agreement. The RWMP shall include specific proposals as to how the RWMP will be measured and monitored for effectiveness. All records (including for waste and all resources) pursuant to the agreed RWMP shall be made available for inspection at the site office at all times.

Reason: In the interest of reducing waste and encouraging recycling.

14. Prior to commencement of development, the applicant or other person with an interest in the land to which the application relates shall enter into an agreement in writing with the planning authority in relation to the transfer of a percentage of the land, to be agreed with the planning authority, in accordance with the requirements of section 94(4) and section 96(2) and 96(3)(a), (Part V) of the Planning and Development Act 2000, as amended, and/or the provision of housing on lands in accordance with the requirements of section 94(4) and section 96(2) and 96(3) (b), (Part V) of the Planning and Development Act 2000, as amended, unless an exemption certificate has been granted under section 97 of the Act, as amended. Where such an agreement cannot be reached between the parties, the matter in dispute (other than a matter to which section 96(7) applies) shall be referred by the planning authority or any other prospective party to the agreement, to An Bord Pleanála for determination.

Reason: To comply with the requirements of Part V of the Planning and Development Act 2000, as amended, and of the housing strategy in the development plan for the area.

15. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to the An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
