Commission Order
ACP-324349-26

Planning and Development Act 2000, as amended

Planning Authority: Dún Laoghaire-Rathdown County Council

Planning Register Reference Number: LRD25A/0984/WEB

Appeal by Durkan Glenamuck Developments Limited against the decision made on the 13th day of May 2026, by Dún Laoghaire-Rathdown County Council to refuse permission for the proposed development.

Proposed Development: The development will principally consist of the construction of 135 number residential units, comprising 65 number houses (9 number two-bed units, 46 number three-bed units and 10 number four-bed units) and 70 number duplex units (21 number one-bed units, 22 number two-bed units and 27 number three-bed units). The proposed development will principally range in height from two number to four number storeys. The development also provides car, bicycle and motorcycle parking spaces; bin storage; ancillary storage; private balconies, terraces and gardens; hard and soft landscaping; boundary treatments; lighting; substations; and all other associated site works above and below ground.

CM36

The site is generally bounded by the recently constructed Glenamuck District Distributor Road to the north (to be known as the Kilternan Road); the under construction Glenamuck Link Distributor Road to the east (to be known as the Kilternan–Glenamuck Link Road); Glenamuck Manor and a residential dwelling (known as ‘Westgate’), its associated outbuildings and wider land holding to the south; and a residential dwelling (known as ‘Shaldon Grange’) and its wider landholding located to the west.

Road works are proposed to the approved Glenamuck District Roads Scheme (An Bord Pleanála reference number: HA06D.303945) to provide access to the development from the Kilternan Road. The Kilternan Road access point will include works, inclusive of any necessary tie-ins, to the footpath and cycle track to create a side road access junction incorporating the provision of uncontrolled pedestrian and cyclist crossing across the side road junction. A surface water outfall pipe (225 millimetres) is also proposed to pass through land to the north of the site, including the future Kilternan Road. The total site area including the development site, road works and infrastructure works measures circa 3.32 hectares, all at a site measuring circa 3.27 hectares in the townland of Glenamuck North in Kilternan, Dublin.

Decision

GRANT permission for the above proposed development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.

Reasons and Considerations

The Commission performed its functions in relation to the making of its decision, in a manner consistent with Section 15(1) of the Climate Action and Low Carbon Act 2015, as amended by Section 17 of the Climate Action and Low Carbon Development (Amendment) Act 2021, (consistent with Climate Action Plan 2024 and Climate Action Plan 2025 and the national long term climate action strategy, national adaptation framework and approved sectoral adaptation plans set out in those Plans and in furtherance of the objective of mitigating greenhouse gas emissions and adapting to the effects of climate change in the State).

In reaching their decision the Commission had regard to: -

- (a) Policies and objectives set out in the National Planning Framework 2040 (First Revision, 2025) and the Regional Spatial and Economic Strategy for the Eastern and Midland Region 2019-2031;
- (b) Policies and objectives set out in the Dún Laoghaire Rathdown County Development Plan 2022-2028 including the location of the site on lands subject to Zoning Objective 'A' and the permitted uses therein;
- (c) Provisions of the Kiltiernan-Glenamuck Local Area Plan 2025, including the designation of the site within 'Site Development Framework 4' and the objectives pertaining to the development of the lands therein;
- (d) Delivering Homes, Building Communities (2025);
- (e) National Biodiversity Plan 2023-2030;
- (f) Sustainable Residential Development and Compact Settlements, Guidelines for Planning Authorities, 2024;

- (g) Planning Design Standards for Apartments, Guidelines for Planning Authorities, 2025 (Apartment Guidelines);
- (h) Urban Development and Building Heights, Guidelines for Planning Authorities, 2018;
- (i) Design Manual for Urban Roads and Streets, 2013, updated 2019;
- (j) Childcare Facilities, Guidelines for Planning Authorities, 2001;
- (k) Planning System and Flood Risk Management, Guidelines for Planning Authorities, 2009.
- (l) Regulation of Commercial Institutional Investment in Housing, Guidelines for Planning Authorities, 2021, updated 2023;
- (m) Development Management, Guidelines for Planning Authorities, 2007;
- (n) the nature, scale, and design of the proposed development;
- (o) the availability in the area of a range of social, community, and transport infrastructure;
- (p) the pattern of existing and permitted development in the area;
- (q) the planning history at the site and within the area;
- (r) the reports of the planning authority;
- (s) the submissions received by the planning authority from prescribed bodies;
- (t) the grounds of appeal;
- (u) the response to the grounds of appeal by the planning authority; and

- (v) the report and recommendation of the Planning Inspector including the examination, analysis and evaluation undertaken in relation to appropriate assessment, environmental impact assessment, and water status impact assessment.

Appropriate Assessment Screening

The Commission completed an Appropriate Assessment screening exercise (Stage 1) in relation to the potential effects of the proposed development on designated European sites, taking into account the nature and scale of the proposed development on serviced lands, the nature of the receiving environment, the distances to the nearest European sites and the absence of any direct hydrological connections, submissions and observations on file, the information and reports submitted as part of the application and appeal, and the Planning Inspector's report.

In completing the screening exercise, the Commission adopted the report of the Planning Inspector and concluded that, by itself or in combination with other development, plans and projects in the vicinity, the proposed development would not be likely to have a significant effect on any European site in view of the conservation objectives of such sites, and that an Appropriate Assessment (Stage 2) and the preparation of a Natura Impact Statement would not, therefore, be required.

Environmental Impact Assessment Screening

The Commission completed an Environmental Impact Assessment screening determination of the proposed development, with regard being had to the criteria set out in Schedule 7 of the Planning and Development Regulations 2001, as amended, in particular to the nature and scale of the proposed residential development (which is below the mandatory thresholds for Class 10(b)(i) and Class 10(b)(iv) of the 2001 Regulations), the greenfield nature of the site and its location in an outer suburban area which is served by public services and infrastructure, the absence of any significant environmental sensitivity in the vicinity, the location of the development outside of any sensitive location specified in article 109(4)(a) of the 2001 Regulations, the results of other relevant assessments of the effects on the environment submitted by the applicant, the results of the strategic environmental assessment of Dún Laoghaire-Rathdown County Development Plan 2022-2028 and Kiltiernan-Glenamuck Local Area Plan 2025 undertaken in accordance with the Strategic Environmental Assessment (SEA) Directive (2001/42/EC), and the features and measures proposed by the applicant envisaged to avoid or prevent what might otherwise have been significant effects on the environment.

In completing the screening determination, the Commission adopted the report of the Planning Inspector and concluded that by reason of the nature, scale and location of the proposed development, the development would not be likely to have significant effects on the environment and that an Environmental Impact Assessment and the preparation of an Environmental Impact Assessment Report would not, therefore, be required.

Water Status Impact Assessment Screening

The Commission completed a Water Status Impact Assessment screening exercise with regard being had to the objectives of Article 4 of the Water Framework Directive, taking into account the nature of the proposed development, site and receiving environment, the hydrological and hydrogeological characteristics of proximate waterbodies, the absence of any meaningful pathways to any waterbody, the standard pollution controls and project design features, the information and reports submitted as part of the application and appeal, and the Planning Inspector's report.

In completing the screening exercise, the Commission adopted the report of the Planning Inspector, and concluded that proposed development would not result in a risk of deterioration to any waterbody (rivers, lakes, groundwaters, transitional and coastal) either qualitatively or quantitatively or on a temporary or permanent basis or otherwise jeopardise any waterbody in reaching its Water Framework Directive objectives, and that a Water Status Impact Assessment would not, therefore, be required.

Conclusion on Proper Planning and Sustainable Development

It is considered that, subject to compliance with the conditions set out below, the proposed development would be consistent with the applicable policies and objectives of the Dún Laoghaire-Rathdown County Development Plan 2022-2028 and with the relevant provisions of Kiltiernan-Glenamuck Local Area Plan 2025, including those pertaining to Zoning Objective A and Site Development Framework 4, and noting Objective PRM2 (phasing of permeability improvements) of the LAP would result in an appropriate density of residential development, would constitute an acceptable mix and quantum of residential development, would provide acceptable levels of residential amenity for future occupants, would not seriously injure the residential or visual amenities of property in the vicinity,

would not cause adverse impacts on or result in serious pollution to biodiversity, lands, water, or air, would be acceptable in terms of pedestrian, cyclist and traffic safety, permeability and convenience, and would be capable of being adequately served by water supply, wastewater, and surface water networks without risk of flooding. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application to the planning authority, as amended by the further information plans and particulars received by the planning authority on the 16th day of April 2026, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. Permission is hereby granted for 'OPTION A', as per General Arrangement Plan Drg. No L1_100_1, received by the planning authority on the 16th day of April 2026. A total number of 134 residential units comprising:
 - (a) 65 number houses (nine number two-bed units, 46 number three-bed units and 10 number four-bed units);

- (b) 69 number duplex units (21 number one-bed units, 21 number two-bed units and 27 number three-bed units).
- (c) A temporary 80 square metre creche within the ground floor of Duplex Block C with associated 60 square metre outdoor play area.

The nature of this creche shall be temporary until such time that the creche on the northern site may be delivered and operational under register reference: LRD26A/0075/WEB. Any subsequent case for a change of use of this unit to residential at a future point, shall be subject to a separate planning permission.

Reason: In the interest of clarity.

- 3. (a) No boundary fence or gate shall be erected to the south of Street 4, for the extent of the width of the road (Street 4) and footpaths at this location, along the southern site boundary. This route shall be open, traversable and capable of being passed over, by inhabitants of the subject site southwards to the adjoining lands and northwards by inhabitants of the Glenamuck Manor Development and the general public.
- (b) The proposed temporary ibex fence along the southern boundary with Westgate lands, to the south of POS3 shall be removed in its entirety, or as agreed with the planning authority, once the Westgate lands are developed.

Details of all boundary treatments and retaining walls in the development (including retaining walls between the side and rear boundaries) shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Revised drawings (plans, elevations, sections) showing compliance with these requirements shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: Having regard to the provisions of the Kilternan-Glenamuck Local Area Plan 2025, and in the interests of improving permeability links and the proper planning and sustainable development.

4. (a) All links and connections (vehicular, pedestrian) to adjoining lands shall be provided up to the site boundaries to facilitate future connections subject to the appropriate consents.
- (b) All pedestrian pathways (within the development) and connectivity links (to and/ or from the development) shall be ungated, free of any physical or operational impediment, and fully accessible to the general public (7 days of the week and 24 hours of the day).

Reason: In the interests of permeability and safety.

5. (a) Mitigation and monitoring measures outlined in the plans and particulars, including the preliminary Construction and Environmental Management Plan, Acoustic Design Statement, Ecological Impact Assessment, Arboricultural Assessment, Waste Management Plan, Mobility Management Plan, and Site-Specific Flood Risk Assessment, submitted with the application shall be carried out in full, except where otherwise required by conditions attached to this permission.

- (b) Prior to the commencement of development, the developer shall submit a comprehensive list of mitigation and monitoring measures from the named reports and a corresponding timeline/schedule for implementation of same to the planning authority for its written agreement.

Reason: In the interest of clarity and to protect the environment and public health.

- 6. Prior to the commencement of development, a Resource Waste Management Plan (RWMP) as set out in the Environmental Protection Agency's 'Best Practice Guidelines for the Preparation of Resource and Waste Management Plans for Construction and Demolition Projects' (2021) shall be prepared and submitted to the planning authority for written agreement. The RWMP shall include specific proposals as to how the RWMP will be measured and monitored for effectiveness. All records (including for waste and all resources) pursuant to the agreed RWMP shall be made available for inspection at the site office at all times.

Reason: In the interest of proper planning and sustainable development.

- 7. The construction of the development shall be managed in accordance with a Construction Environmental Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including, but not limited to:

- (a) the location of the site and materials compound(s) including area(s) identified for the storage of construction refuse;

- (b) the location of areas for construction site offices and staff facilities;
- (c) the details of site security fencing and hoardings;
- (d) the details of on-site car parking facilities for site workers during the course of construction;
- (e) the details of the timing and routing of construction traffic to and from the construction site and associated directional signage, to include proposals to facilitate the delivery of abnormal loads to the site;
- (f) measures to obviate queuing of construction traffic on the adjoining road network;
- (g) measures to prevent the spillage or deposit of clay, rubble or other debris on the public road network;
- (h) alternative arrangements to be put in place for pedestrians and vehicles in the case of the closure of any public road or footpath during the course of site development works;
- (i) the details of appropriate mitigation measures for noise, dust and vibration, and monitoring of such levels;
- (j) the containment of all construction-related fuel and oil within specially constructed bunds to ensure that fuel spillages are fully contained. Such bunds shall be roofed to exclude rainwater;
- (k) the off-site disposal of construction/demolition waste and details of how it is proposed to manage excavated soil; and

- (l) the means to ensure that surface water run-off is controlled such that no silt or other pollutants enter local surface water sewers or drains.

A record of daily checks that the works are being undertaken in accordance with the Construction Environmental Management Plan shall be available for inspection by the planning authority. The agreed CEMP shall be implemented in full in the carrying out of the development.

Reason: In the interests of residential amenities, public health and safety.

8. Prior to commencement of development, proposals for a development name and numbering scheme, and associated signage shall be submitted to, and agreed in writing with, the planning authority. Thereafter, all such names and numbering shall be provided in accordance with the agreed scheme. No advertisements/ marketing signage relating to the name(s) of the development shall be erected until the developer has obtained the planning authority's written agreement to the proposed name(s).

Reason: In the interest of urban legibility and to ensure the use for new residential areas.

9. No signage, advertisement or advertisement structure (including that which is exempted development under the Planning and Development Regulations, 2001 (as amended)), other than those shown on the drawings submitted with the application, shall be erected or displayed on the buildings or within the curtilage of the site unless authorised by a further grant of planning permission.

Reason: In the interest of visual amenity.

10. (a) Details of the materials, colours, and textures of all the external finishes to the proposed buildings shall be as submitted with the application, unless otherwise agreed in writing with the planning authority.
- (b) Details of security shuttering, external lighting, and signage for the childcare facility shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.
- (c) Details of a maintenance strategy for all external finishes to the proposed buildings shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.
- (d) Details of the location, types, textures and finishes of all proposed boundary treatments within the scheme shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

In default of agreement of any (a)-(d) above, the matter(s) in dispute shall be referred to An Coimisiún Pleanála for determination.

Reason: In the interest of visual amenity and orderly development.

11. (a) Public lighting shall be provided in accordance with a scheme which shall be submitted to, and agreed in writing with, the planning authority prior to the commencement of development. The scheme shall include lighting along pedestrian routes through open spaces and shall take account of trees to be protected and proposed tree planting in Landscape Plan Dwg No. L1_100_1 as lodged with the application.

A handwritten signature in blue ink, appearing to be 'M36', is written over a faint circular official stamp of An Coimisiún Pleanála.

- (b) The design of the lighting scheme shall be approved of by a suitably qualified bat specialist. The details of the lighting scheme, including written evidence indicating approval by the bat specialist, shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development/installation of lighting.
- (c) The agreed lighting system shall be fully implemented and operational prior to the making available for occupation of any residential unit.

Reason: In the interests of amenity and public safety.

- 12. Prior to the commencement of development, the developer shall enter into connection agreements with Uisce Éireann to provide for service connections to the public water supply and/or wastewater collection network.

Reason: In the interest of public health and to ensure adequate water/wastewater facilities.

- 13. Drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health and surface water management.

- 14. Prior to the commencement of development, a phasing programme for construction and making available for use of the childcare facility shall be submitted to, and agreed in writing with, the planning authority.

Reason: In the interests of orderly development and to ensure the timely provision of amenities and infrastructure for future residents.

15. Site development and building works shall be carried out only between the hours of 0700 to 1900 Mondays to Fridays inclusive, 0800 to 1400 hours on Saturdays, and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

16. All service cables associated with the proposed development (such as electrical, telecommunications and communal television) shall be located underground. Ducting shall be provided by the developer to facilitate the provision of broadband infrastructure within the proposed development.

Reason: In the interests of visual and residential amenity.

17. Prior to commencement of development and/or occupation of the residential units, as applicable, final Road Safety Audit(s) and/ or Quality Audit(s) of the development, including the main entrance, internal road, pedestrian/ cycle path layouts, shall be submitted to, and agreed in writing with, the planning authority.

Reason: In the interests of traffic, pedestrian and cyclist safety, and sustainable transport.

18. The internal road network serving the proposed development, including carriageway widths, corner radii, turning bays, junctions, set down/drop off area(s), parking areas, footpaths, kerbs, pedestrian crossings, raised tables, and cycle lanes shall be in accordance with the detailed construction standards of the planning authority for such works, and design standards outlined in the Design Manual for Urban Roads and Streets and the National Cycle Manual issued by the National Transport Authority. In default of agreement the matter(s) in dispute shall be referred to An Coimisiún Pleanála for determination.

Reason: In the interest of traffic and pedestrian safety.

19. (a) Prior to the commencement of development, the developer shall submit to the planning authority for its written agreement, appropriately scaled drawing(s) with all car, motorcycle, and bicycle parking spaces intended for use by each residential unit, visitor use, and childcare facility use (customers and staff). The spaces shall be clearly identified, numbered, and of a design, construction and finish that is to the satisfaction of the planning authority.
- (b) The car parking spaces for visitor use shall be assigned permanently for the residential development and shall be reserved solely for that purpose.
- (c) Prior to the occupation of the development, a Parking Management Plan shall be prepared for the development and shall be submitted to, and agreed in writing with, the planning authority. This plan shall indicate how car parking spaces within the development shall be assigned, segregated, and continually managed.

Reason: To ensure that adequate parking facilities are permanently available to serve the residential development.

20. A minimum of 20% of all car parking spaces shall be provided with functioning electric vehicle charging stations/points, and ducting shall be provided for all remaining car parking spaces, facilitating the installation of electric vehicle charging points/ stations at a later date. Where proposals relating to the installation of electric vehicle ducting and charging stations/points have not been submitted with the application, in accordance with the above noted requirements, such proposals shall be submitted to, and agreed in writing with, the planning authority prior to the occupation of the development.

Reason: To provide for and/or future proof the development such as would facilitate the use of electric vehicles.

21. (a) The management and maintenance of the development following its completion shall be the responsibility of a legally constituted management company, or by the local authority in the event of the development being so taken in charge.
- (b) The communal open spaces, hard and soft landscaping, car and cycle parking areas, access ways, refuse/ bin storage, and all areas not intended to be taken in charge by the local authority, shall be maintained by the legally constituted management company.
- (c) Details of the management company contract, and drawings/particulars describing the parts of the development for which the company would have responsibility, shall be submitted to, and agreed in writing with, the planning authority before any of the residential units are made available for occupation.

Reason: In the interests of orderly development and to provide for the satisfactory future maintenance of this development.

22. (a) The areas of communal and public open space in the development shall be reserved for such use, levelled, contoured, soiled, seeded, and landscaped (hard and soft) in accordance with the landscaping plans and particulars as submitted with the application unless otherwise agreed with the planning authority.
- (b) Final design, finishes, methods of construction and/or installation of footpaths, cycle paths, seating, crossing points over ditches/drains/SuDS features, and equipment in play areas shall be submitted to the planning authority for its written agreement.
- (c) The landscaping and planting schedule shall be managed and maintained in accordance with the Landscape Design Rationale and landscaping plan(s) submitted with the application, unless otherwise agreed in writing with the planning authority. This schedule shall cover a period of at least three years and shall include details of the arrangements for its implementation.
- (d) The areas of communal and public open space shall be reserved and maintained as such by the developer until taken in charge by the management company or by the local authority.

Reason: In the interest of nature conservation, residential amenity, and to ensure the satisfactory development of the open space areas and their continued use for this purpose.

23. (a) An Operational Waste Management Plan (OWMP) containing details for the management of waste within the development, the provision of facilities for the storage, separation, and collection of the waste and for the ongoing operation of these facilities, shall be submitted to, and agreed in writing with, the planning authority not later than six months from the date of commencement of the development. Thereafter, the waste shall be managed in accordance with the agreed OWMP.
- (b) The OWMP shall provide for screened bin stores for the duplex blocks, and the childcare facility, the locations, and designs of which shall be as indicated in the plans and particulars lodged within the application unless otherwise agreed in writing with the planning authority.

Reason: In the interest of residential amenity, and to ensure the provision of adequate refuse storage for the proposed development.

24. Prior to commencement of development, the applicant or other person with an interest in the land to which the application relates shall enter into an agreement in writing with the planning authority in relation to the provision of housing in accordance with the requirements of section 94(4) and sections 96(2) and (3) (Part V) of the Planning and Development Act 2000, as amended, unless an exemption certificate shall have been applied for and been granted under section 97 of the Act, as amended. Where such an agreement is not reached within eight weeks from the date of this order, the matter in dispute (other than a matter to which section 96(7) applies) may be referred by the planning authority or any other prospective party to the agreement to An Coimisiún Pleanála for determination.

Reason: To comply with the requirements of Part V of the Planning and Development Act 2000, as amended, and of the housing strategy in the development plan of the area.

25. (a) Prior to the commencement of any house or duplex unit in the development as permitted, the applicant or any person with an interest in the land shall enter into an agreement with the planning authority (such agreement must specify the number and location of each house or duplex unit), pursuant to Section 47 of the Planning and Development Act 2000, that restricts all relevant houses and duplex units permitted, to first occupation by individual purchasers, that is, those not being a corporate entity, and/or by those eligible for the occupation of social and/or affordable housing, including cost rental housing.
- (b) An agreement pursuant to Section 47 shall be applicable for the period of duration of the planning permission, except where after not less than two years from the date of completion of each specified housing unit, it is demonstrated to the satisfaction of the planning authority that it has not been possible to transact each specified house or duplex unit for use by individual purchasers and/or to those eligible for the occupation of social and/or affordable housing, including cost rental housing.

- (c) The determination of the planning authority as required in (b) shall be subject to receipt by the planning and housing authority of satisfactory documentary evidence from the applicant or any person with an interest in the land regarding the sales and marketing of the specified housing units, in which case the planning authority shall confirm in writing to the applicant or any person with an interest in the land that the Section 47 agreement has been terminated and that the requirement of this planning condition has been discharged in respect of each specified housing unit.

Reason: To restrict new housing development to use by persons of a particular class or description in order to ensure an adequate choice and supply of housing, including affordable housing, in the common good.

26. Prior to commencement of development, the developer shall lodge with the planning authority a cash deposit, a bond of an insurance company, or other security to secure the provision and satisfactory completion and maintenance until taken in charge by the local authority and/ or management company of roads, footpaths, watermains, drains, public open space and other services required in connection with the development, coupled with an agreement empowering the local authority to apply such security or part thereof to the satisfactory completion or maintenance of any part of the development. The form and amount of the security shall be as agreed between the planning authority and the developer or, in default of agreement, shall be referred to An Coimisiún Pleanála for determination.

Reason: To ensure the satisfactory completion and maintenance of the development until taken in charge.

27. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer, or, in default of such agreement, the matter shall be referred to An Coimisiún Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

28. The developer shall pay to the planning authority a financial contribution in respect of the Glenamuck District Distributor Road Scheme in accordance with the terms of the Supplementary Development Contribution Scheme made by the planning authority under section 49 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer, or, in default of such agreement, the matter shall be referred to An Coimisiún Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Supplementary Development Contribution Scheme made under section 49 of the Act be applied to the permission.
