Commission Order
PL-500210-CC-25

Planning and Development Act 2000, as amended

Planning Authority: Cork City Council

Planning Register Reference Number: 2443368

Appeal by Kieran and Caroline Healy against the decision made on the 8th day of October 2025, by Cork City Council to grant, subject to conditions, a permission to Darley Development Limited in accordance with plans and particulars lodged with the said Council.

Proposed Development: Demolition of an existing dwellinghouse and ancillary structures and the construction of nine number dwellinghouses comprising four number Type A three-bed two-storey semi-detached dwellings, one number Type B three-bed two-storey semi-detached dwelling and four number Type C four-bed three-storey detached dwellings, drainage and foul sewer infrastructure works and all associated and ancillary development works, including landscaping, boundary treatments, parking and revisions to existing vehicular and pedestrian access, all at 7 Saint Helens Court, Glasheen Road, Cork as revised by the further public notices received by the planning authority on the 20th day of June 2025, which included a number of revisions to the site layout and the omission of one number Type B dwelling.

Decision

GRANT permission for the above proposed development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.

Reasons and Considerations

Having regard to the provisions of the Cork City Development Plan 2022-2028 including the ZO 01 Sustainable Residential Neighbourhoods land use zoning of the site, to the pattern of development in the area, to the infill nature and size of the site, and to the design and layout of the proposed development, it is considered that subject to the conditions set out below, the proposed development would not seriously injure the residential or visual amenities of the area or of property in the vicinity, would not seriously injure the amenities of adjoining properties by way of overlooking, overshadowing, impact or access to daylight or overbearance, would provide satisfactory standards of amenity for future occupants of the development and would be acceptable in terms of pedestrian and traffic safety. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The proposed development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars received by the planning authority on the 13th day of June, 2025 and the 11th day of September, 2025, and the further plans and particulars received by An Coimisiún Pleanála on the 10th day of December, 2025 (specifically drawing

number 2440-100D), except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the proposed development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. Details of the materials, colours and textures of all the external finishes to the proposed development shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of visual amenity.

3. The glazing to all bathroom and en-suite windows shall be manufactured opaque or frosted glass and shall be permanently maintained. The application of film to the surface of clear glass shall not be permitted.

Reason: In the interest of residential amenity.

4. Drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health.

5. Prior to commencement of development, the developer shall enter into water and wastewater connection agreements with Uisce Éireann to provide for service connections to the public water supply and wastewater collection network.

Reason: In the interest of public health.

6. All public service cables for the proposed development, including electrical and telecommunications cables, shall be located underground throughout the site.

Reason: In the interest of visual amenity.

7. Public lighting shall be provided in accordance with a scheme which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. The scheme shall include lighting along pedestrian routes through open spaces and shall take account of trees. Such lighting shall be provided prior to the making available for occupation of any residential unit.

Reason: In the interest of amenity and public safety.

8. The internal road network serving the proposed development, including turning bays, junctions, parking areas, footpaths and kerbs, shall comply with the detailed construction standards of the planning authority for such works and design standards as outlined in the Design Manual for Urban Roads and Streets (DMURS).

Reason: In the interest of amenity and of traffic and pedestrian safety.

9. The management and maintenance of the proposed development following its completion shall be the responsibility of a legally constituted management company, or by the local authority in the event of the development being taken in charge. Detailed proposals in this regard shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: To ensure the satisfactory completion and maintenance of the development.

10. The development hereby permitted shall be carried out and completed at least to the construction standards as set out in the planning authority's Taking in Charge Standards. In the absence of specific local standards, the standards as set out in the 'Recommendations for Site Development Works for Housing Areas' issued by the Department of the Environment and Local Government in November 1998 shall apply. Following completion, the development shall be maintained by the developer, in compliance with these standards, until taken in charge by the planning authority.

Reason: To ensure that the development is carried out and completed to an acceptable standard of construction.

11. Proposals for a naming/numbering scheme for the proposed development shall be submitted to, and agreed in writing with, the planning authority prior to the occupation of any residential unit.

Reason: In the interest of urban legibility.

12. Site development and building works shall be carried out only between 0700 to 1900 hours Mondays to Fridays, inclusive, between 0800 to 1400 hours on Saturdays, and not at all on Sundays or public holidays. Deviation from these times shall only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

13. The construction of the proposed development shall be managed in accordance with a Construction and Environmental Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the proposed development, including noise and dust management measures, waste management and recycling of materials, environmental protection measures, welfare facilities, site deliveries, complaints procedure, pest control and traffic management arrangements.

Reason: In the interest of public safety, environmental protection, and residential amenity.

14. A detailed Construction Traffic Management Plan shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. The plan shall include details of arrangements for routes for construction traffic, parking during the construction phase, the location of the compound for storage of plant and machinery and the location for storage of deliveries to the site.

Reason: In the interest of sustainable transport and safety.

15. Prior to commencement of development, a Resource Waste Management Plan (RWMP) as set out in the Environmental Protection Agency's Best Practice Guidelines for the Preparation of Resource and Waste Management Plans for Construction and Demolition Projects (2021) shall be prepared and submitted to the planning authority for written agreement. The RWMP shall include specific proposals as to how the RWMP will be measured and monitored for effectiveness. All records (including for waste and all resources) pursuant to the agreed RWMP shall be made available for inspection at the site office at all times.

Reason: In the interest of reducing waste and encouraging recycling.

16. Prior to commencement of development, the developer, or other person with an interest in the land to which the application relates, shall enter into an agreement in writing with the planning authority in relation to the provision of housing on lands in accordance with the requirements of section 94(4) and section 96(2) and 96(3) (b), (Part V) of the Planning and Development Act 2000, as amended, unless an exemption certificate has been granted under section 97 of the Act, as amended. Where such an agreement cannot be reached between the parties, the matter in dispute (other than a matter to which section 96(7) applies) shall be referred by the planning authority or any other prospective party to the agreement, to An Coimisiún Pleanála for determination.

Reason: To comply with the requirements of Part V of the Planning and Development Act 2000, as amended, and of the housing strategy in the development plan for the area.

17. (a) Prior to the commencement of any house in the development, as permitted, the applicant or any person with an interest in the land shall enter into an agreement with the planning authority (such agreement must specify the number and location of each house) pursuant to Section 47 of the Planning and Development Act 2000, as amended, that restricts all relevant houses permitted to first occupation by individual purchasers i.e. those not being a corporate entity, and/or by those eligible for the occupation of social and/or affordable housing, including cost rental housing.
- (b) An agreement pursuant to Section 47 shall be applicable for the period of duration of the planning permission, except where after not less than two years from the date of completion of each specified housing unit, it is demonstrated to the satisfaction of the planning authority that it has not been possible to transact each specified house or for use by individual purchasers and/or to those eligible for the occupation of social and/or affordable housing, including cost rental housing.
- (c) The determination of the planning authority as required in (b) shall be subject to receipt by the planning and housing authority of satisfactory documentary evidence from the applicant or any person with an interest in the land regarding the sales and marketing of the specified housing units, in which case the planning authority shall confirm in writing to the applicant or any person with an interest in the land that the Section 47 agreement has been terminated and that the requirement of this planning condition has been discharged in respect of each specified housing unit.

Reason: To restrict new housing development to use by persons of a particular class or description in order to ensure an adequate choice and supply of housing, including affordable housing, in the common good.

18. Prior to commencement of development, the developer shall lodge with the planning authority a cash deposit, a bond of an insurance company, or other security to secure the provision and satisfactory completion of roads, footpaths, watermains, drains, open space and other services required in connection with the development, coupled with an agreement empowering the planning authority to apply such security or part thereof to the satisfactory completion of any part of the development. The form and amount of the security shall be as agreed between the planning authority and the developer or, in default of agreement, shall be referred to An Coimisiún Pleanála for determination.

Reason: To ensure the satisfactory completion of the development.

19. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer, or, in default of such agreement, the matter shall be referred to the An Coimisiún Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

Emer Maughan

Planning Commissioner of An Coimisiún

Pleanála duly authorised to authenticate
the seal of the Commission.
