Commission Order
PL-500222-KE

Planning and Development Act 2000, as amended

Planning Authority: Kildare County Council

Planning Register Reference Number: 24/61177

Appeal by Thomas Lawlor against the decision made on the 10th day of October, 2025 by Kildare County Council to grant subject to conditions a permission to Patrick Percival and Yvonne Carroll in accordance with plans and particulars lodged with the said Council.

Proposed Development: Construction of an extension to dwellinghouse, remove previously built extension, necessary renovations to same house, demolition of existing shed to facilitate proposed extension and associated site works, all at Grangemellon, Athy, County Kildare.

Decision

GRANT permission for the above proposed development in accordance with the said plans and particulars based on the reasons and considerations under and subject to the conditions set out below.

Reasons and Considerations

Having regard to the scale, layout and design of the proposed development, the existing built context to the adjoining property and the drawings, as submitted on appeal, it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the amenities of the area or of property in the vicinity, would not conflict with the objectives of the Kildare County Development Plan 2023-2029 relating to extensions of dwellings and rural house design guidance, and would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The proposed development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars received by the planning authority on the 15th day of September, 2025 and by An Coimisiún Pleanála on the 26th day of November, 2025, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the proposed development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. The existing dwellinghouse and the proposed extension shall be jointly occupied as a single residential unit and the extension shall not be used, sold, let or otherwise transferred or conveyed, save as part of the dwellinghouse.

Reason: To restrict the use of the extension in the interest of residential amenity.

3. Details of the materials, colours and textures of all the external finishes to the proposed development shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of visual amenity and to ensure an appropriate standard of development.

4. The existing western boundary wall and shared valley with the adjoining semi-detached dwelling shall not be damaged or undermined as a result of the proposed works. Specifically, measures shall be implemented to provide for protection during works to allow for retention of the existing western boundary wall and shared valley. Any damage to the wall and shared valley to be retained shall be repaired in a manner which matches the existing walls on site.

Reason: In the interest of orderly development.

5. Prior to commencement of development, a Resource Waste Management Plan (RWMP) as set out in the EPA's Best Practice Guidelines for the Preparation of Resource and Waste Management Plans for Construction and Demolition Projects (2021) shall be prepared and submitted to the planning authority. The RWMP shall include specific proposals as to how the RWMP will be measured and monitored for effectiveness. All records (including for waste and all resources) pursuant to the agreed RWMP shall be made available for inspection at the site office at all times.

Reason: In the interest of reducing waste and encouraging recycling.

6. Drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

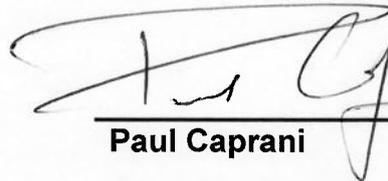

Reason: In the interest of public health and surface water management.

7. Site development and building works shall be carried out only between the hours of 0700 to 1800 Mondays to Fridays, inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays or public holidays. Deviation from these times shall only be allowed in exceptional circumstances where prior written agreement has been received from the planning authority.

Reason: To safeguard the amenity of property in the vicinity.

8. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Coimisiún Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

Paul Caprani
