Hi John

Many happy returns to you too.

Your comments and closure request are noted and have been added to the case file. The Board will revert to you once had a determination has been made.

Kind regards

Eimear.

Subject: RE: ABP-312446-22 Bord na Mona - Drehid Landfill

Hi Eimear,

Happy new year to you. Many thanks for sending on the record of the meeting. We just have two minor points that we would like to be noted in relation to these:

Point 1:

- Development of a new processing building for the screening and segregation of non-hazardous soils stones, and Construction and Demolition (C& waste for recovery of up to 70 000 TPA for use as construction engineering materials

Above has a typo, should read (C&D waste for recovery)

Point 2:

The prospective applicant noted that it has held a meeting with Kildare County Council's transportation department in relation to these routes and that the council has a schedule of improvement works for these roads related to the permitted MBT facility at the site. The prospective applicant also stated that Bord na Mona have agreed a significant contribution with regard to the maintenance and improvement of

haul routes to the site. It was further stated that Bord na Mona have provided a full road condition survey of haul routes which will enable a comparison to be made with the condition recorded at the time of the last application.

We would like to point out that the contribution agreed was in relation to the then proposed MBT Facility only (which is no longer being pursued) but the methodology used could also be applied to this proposed development in order to agree on an appropriate contribution towards road improvements with Kildare County Council.

Following the above, we would like to request that the consultation process be closed out and that a determination is made in relation to the SID status of the project.

Kind regards and thanks,

John
