### **Ceist:**

Can A.B.P. provide a schedule of lands and buildings that Local Authorities acquired by using a compulsory purchase order in the past 5 years to date in which the Bord made a determination on?

### **Freagra substainteach:**

An Bord Pleanála's role in relation to Compulsory Purchase Orders (CPO) is limited to adjudicating on the question of whether the proposed compulsory acquisition (to be affected by way of a CPO) is or is not to be authorised in circumstances where such a CPO is submitted to it for confirmation by the relevant local authority and where valid objections are made and not withdrawn to the CPO.

In a substantial number of such cases no objections are received, or objections made are subsequently withdrawn. In both of those circumstances, the Board has no further role in the process and simply returns the CPO to the local authority and the local authority can proceed to itself confirm or annul its own CPO.

I attach for your information a list of local authority applications to the board for confirmation of CPO which have been the subject of a formal decision of the board to confirm the relevant CPO with or without modifications in the last 5 years.

[OIR-23-16-Catherine-Murphy-Local-Authority-Applications-for-Confirmations-of-CPO.pdf \(pleanala.ie\)](#)

It should be noted that the compulsory acquisition process beyond any of the above stages involves a number of further steps that must be undertaken and completed by the local authority before the compulsory acquisition is affected (this applies even where a CPO confirmation application is assented to by the Board after considering objections). If these additional steps are not undertaken by the local authority the compulsory acquisition cannot proceed. The Board has no involvement in or knowledge of these further steps. Having regard to the foregoing I regret to inform you that An Bord Pleanála does not hold and is therefore not in a position provide you with the exact information that you have requested. It appears likely to An Bord

Pleanála that only each individual local authority will hold the requested information relevant to its own area.

I hope the information that An Bord Pleanála is now supplying is of some assistance to you.

**Ceist:**

Are there specific restrictions which prevent local authorities from acquiring land by way of compulsory purchase order for the primary purpose of public greenspace provision?

**Freagra substainteach:**

In the first instance, please note that An Bord Pleanála's role in relation to local authority Compulsory Purchase Orders (CPO) is limited to adjudicating on the question of whether the proposed compulsory acquisition (to be effected by way of a CPO) is or is not to be authorised in circumstances where such a CPO is submitted to it for confirmation by the relevant local authority and where valid objections are made and not withdrawn to the CPO.

Within the above context and having regard to the issue you raise, I can advise that the provisions of sections 213 and 214 of the Planning and Development Act 2000 generally delineate the powers of a local authority (section 213) and the role of the Board (section 214) in relation to land acquisition including compulsory acquisition by local authorities and may be of assistance to you in relation to this matter.

Please see the below links to those statutory provisions for your convenience.
