Good evening

I have already submitted an observation on 314485 I now wish to update my observation and to reiterate that extension of hours on either runway will be detrimental to all of Swords and surrounding areas.

No effort being made to reduce noise not even a sound barrier around the perimeter of the airport which would at least help with takeoff noise.

All options re noise have to be explored that north runway can be used with much less noise but is anyone bothered enough to investigate this. Planes are be raised to an unacceptable level on this runway when they could easily go down the runway slowly and raise planes towards the end of the runway which reduces the noise.

Raising the cap on flights will also have a detrimental effect on noise the other airports around Ireland need to be developed and used.

Also the illegal flight paths needs to be addressed  
Why are the DAA allowed to break the law.

This is my submission

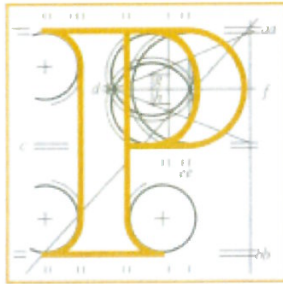

Regards

Noreen Wright
