This is an update on a previously lodged observation.

I am requesting An Bord Pleanála refuse permission to DAA to operate unrestricted night flights. My sleep is interrupted by the noise of the current night time flights. The granting of this DAA request will allow me only 6 hours of sleep at night as planes are flying at low altitude over my house. The negative impacts of lack of sleep due to noise pollution are well documented i.e. impaired cognitive function, irritability, reduced efficiency of immune system.

I am requesting that An Bord Pleanála refuse permission to DAA to use the divergent flight paths currently in use and enforce the permissions granted in the application for the North Runway. These flight paths have had an enormous impact on my quality of life. I am no longer able to have BBQs in the garden or sit outside to have a coffee due to the noise of overhead aircraft. Conversation with anyone standing outside the house has to be stopped when aircraft are flying over. Windows cannot be opened due to the noise and the smell of aviation fuel.

As the DAA are using different flight paths to those they were granted permission for there has been no communication or engagement by the DAA with me. In fact DAA consider my house to be outside the noise affected zone even though the noise and vibrations of overhead aircraft have caused rattling of a flower vase on the windowsill.

I am requesting that you refuse the requests submitted by DAA relating to the above matters.

Yours Sincerely

Susan Crawford
