Good evening,

I would like to express my concern regarding possible relaxation of the new runway regulation, with allowing additional overnight flights. I am against this kind of amendment, as it would negatively impact citizens living in the area in several ways: in aspect of noise pollution especially disturbing at night, and air pollution. Such easing of the regulation would bring significant negative impact on quality of life of the residents, and moreover: bring harmful effect on nature, which has to be taken under consideration more seriously in a case of such an enterprise.

In my opinion the only right option is a complete ban on flights in night hours (midnight to 6 a.m., preferably 11p.m. to 7 a.m.).

Regards,

Uisce Jakubczyk, Fingal resident
