SUBMISSION FROM THE SEAPARK HILL ASSOCIATION, MALAHIDE, TO THE
AIRCRAFT NOISE COMPETENT AUTHORITY IN RELATION TO PROPOSALS BY
THE DUBLIN AIRPORT AUTHORITY FOR DIVERGENT FLIGHT ROUTES ETC.

The Secretary,
Aircraft Noise Competent Authority,
c/o Fingal County Council,
Swords,
County Dublin

Dear Secretary,

We wish to make representations to the Authority in relation to the proposals relating to north parallel runway at Dublin Airport (An Bórd Pleanála (Planning Application F04A/1755, Reference Number PL 06F.217429 refers) and to state that we believe it should be rejected on a number of grounds.

These include the major noise and health implications for large numbers of residents in the north County Dublin area, the fact that the divergent flight paths on which the Airport Authority have chosen to proceed have not gone through the planning process and the fundamental disregard of the environmental and health implications the proposal demonstrates.

Our fundamental opposition to the proposal is further based on the arguments outlined in submissions to your Authority made by the Malahide Community Forum and the Seapark Residents' Association and we wish to be associated with, and fully supportive of, the detailed assertions set out in both those submissions.

If you require any further information in relation to this submission we will be happy to supply same if it is possible for us to do so.

Yours faithfully,

Kathy O'Sullivan,
Secretary,
Seapark Hill Association
