Aircraft Noise Competent Authority,

Hi,

I am a resident of Ridgewood, the Elms.

I am only recently been made aware of the plan to prohibit flights during the hours while we sleep.

I understand that the idea to have flights during the hours when people sleep seems like a good idea on paper, however for residents of Ridgewood.. we find it difficult enough for ourselves and our kids and our pets to sleep during the hours between 10pm-6am when there is helicopter flight tests going on and the incoming/outgoing flights that currently take place during normal business hours.

Unfortunately this disturbance alone has already caused serious sleep issues for our resident's and that is with the added benefit of remote working.

If these flights begin to increase during the late hours of the night and working hours return to the way they once used to be, I believe this would cause an unmeasurable amount of stress for our resident's and we will have to march against such ideas as the conditions as is are difficult enough for thos who live so close to the dublin airport runways.

I would to plea with those responsible for this decision and wish this does not proceed before action from local resident's has to be taken.

Kind regards,

Nathan Gilbert
