To whom it may concern,

I am writing to lodge my opposition to the removal of planning conditions limiting the number of movements between the hours of 11pm and 7am.

Besides the blatant disregard for the health and welfare of local residents, surely the recent change in work and travel practices due to the pandemic highlights a drop in the necessity for the number of flights.

Added to that the environmental impact, the flawed method of measuring/limiting quotas and the national imbalance due to concentration of flights through Dublin, there really is no excuse to proceed with such draconian measures in pursuit of profits for the DAA and associated rate collection for Fingal Co Co.

Regards,

Jason Murray.
