Dear Sir/Madam,

Further to you letter dated 12 March relating to submissions on behalf of DAA, we wish to make the following observation.

The noise contours now submitted by DAA as part of the additional information request represent a material difference to any previously published information in relation to households impacted by the operation of nighttime flights. On this basis a supplemental environmental impact assessment report is insufficient for a decision to be made on the impact of nighttime flights on communities surrounding the airport. An independent noise assessment should be carried out by ANCA. A full environmental impact assessment should be carried out by DAA including details of actual impacts of two runways now being in operation, not based on modelling of scenarios as might have been appropriate prior to the 2nd runway being opened.

Yours Faithfully
Martin & Leah Moran,
Oakwood, Wotton, The Ward, Co Dublin, D11 VH26
