Observation details

5. Please describe the grounds of your observation (planning reasons and arguments). You can type or write them in the space below or you can attach them separately.

Please do not grant permission as the noise from the new flight path and excessive number of night flights is causing my family serious health issues - we can't sleep and are being woken up throughout the night. Night flights should be limited to original planning permission or completely stopped as is the case in other major airports.

Extending the day hours is going to cause us more hardship.

Also the flight paths need to be adhered to. The current situation is illegal. They cannot be allowed to model future ones on these illegal ones. It totally ignores the WHO + all academic research on the harm done by air traffic.

Please listen to our community. They are causing us terrible harm.
