Observation details

5. Please describe the grounds of your observation (planning reasons and arguments). You can type or write them in the space below or you can attach them separately.

I was given no information that my house would suddenly be on a flight path. I had no opportunity to object to this flight path. I built my house here 14 years ago in the knowledge that it was not on a flight path. I adhered to my planning obligations so I can understand how the DAA are not compliant. I do not want to be a hostage inside the house as I find the noise unbearable outside. I have animals to care for so I spend a lot of time outdoors and the incessant noise from low flying aircraft has caused me to develop stress and I am woken at 6am (~~and this~~) from low flying noisy aircraft which is making me more stressed. I know that my health will be affected from this constant noise from these low flying aircraft on their divergent flight paths and this saddens me. My ~~leg~~ Longevity will be impacted negatively.

5. Please describe the grounds of your observation (planning reasons and arguments). You can type or write them in the space below or you can attach them separately.

Section 5 continued.

I mind a 5 month old baby in my house and for his sake also I want straight out flightpaths so he is not negatively impacted. I am in sympathy with all the other residents (tens of thousands) who are having to endure this constant noise and a lot of whom have no voice. The flight paths in use bear no resemblance to what was approved in 2007 planning. The effects on the environment are monumental & increasing aircraft activity in the midst of a climate crisis is wrong. Unlimited night flights using a pure noise quota system is only going to cause more sleep disturbance for residents. Night flights should be banned as is the case in many other major airports. Fingal Co Council planning stipulations have been flouted. The WHO + academic research shows that there is great harm done by excessive aircraft noise. The EIA supplement 2023 within the significant additional information is prepared for the DAA & this is not independent of potential bias. Their report is based on the illegal flight paths from the North Runway.
