Observation details

5. Please describe the grounds of your observation (planning reasons and arguments). You can type or write them in the space below or you can attach them separately.

My major areas of observation and concerns are:

So-called "permitted" Noise zones in this submission do not match the Environmental Impact Statement for the only granted permission.

Acceptance of the relevant action by ABP and thus retention of the flightpaths would set a precedent that ABP conditions should be ignored if inconvenient.

The daa are breaching their current planning permission and flightpaths as per below:

- daa have breached the passenger cap in 2019 and will most likely do so again this year.
- daa are consistently breaching the 65 movement cap per night.
- daa are not using the flightpaths they used in their

2007 planning permission.

An oral hearing is absolutely necessary given the gravity of the situation.
